*Aftershocks* Colin Kahl, Thomas Wright, 2021-08-24 Two of America's leading national security experts offer a definitive account of the global impact of COVID-19 and the political shock waves it will have on the United States and the world order in the 21st Century Informed by history reporting and a truly global perspective this is an indispensable first draft of history and blueprint for how we can move forward Ben Rhodes The COVID-19 pandemic killed millions infected hundreds of millions and laid bare the deep vulnerabilities and inequalities of our interconnected world The accompanying economic crash was the worst since the Great Depression with the International Monetary Fund estimating that it will cost over 22 trillion in global wealth over the next few years Over two decades of progress in reducing extreme poverty was erased just in the space of a few months Already fragile states in every corner of the globe were further hollowed out The brewing clash between the United States and China boiled over and the worldwide contest between democracy and authoritarianism deepened It was a truly global crisis necessitating a collective response and yet international cooperation almost entirely broke down with key world leaders hardly on speaking terms Colin Kahl and Thomas Wright's *Aftershocks* offers a riveting and comprehensive account of one of the strangest and most consequential years on record Drawing on interviews with officials from around the world and extensive research the authors tell the story of how nationalism and major power rivalries constrained the response to the worst pandemic in a century They demonstrate the myriad ways in which the crisis exposed the limits of the old international order and how the reverberations from COVID-19 will be felt for years to come
