**Crisis On The Rio Grande** Dianne C. Betts, 2019-03-07 With the North American Free Trade Agreement NAFTA looming large and imminent this book explores the socio economic fabric of the U S Mexico border region as a measure of NAFTA's future It presents the social and economic history of the Lower Rio Grande Valley on the Texas Mexico border **Refugee Crisis in the Rio Grande Valley of South Texas** Rio Grande Valley Watch Committee, 1989 **Environmental Security in Transnational Contexts** Harlan Koff, Carmen Maganda, 2019-10-23 Much of the discussion surrounding the definition of the Sustainable Development Goals SDGs and the post 2015 global development agenda has contextualized sustainable development within the framework of transformation specifically prioritizing concepts such as equity security justice and rights While these debates correctly discussed power imbalances and relational obstacles to human development they have remained abstract because they focused only on the international level In this regard discussions have not adequately examined mechanisms that facilitate or block the emergence of sustainable development as a political priority nor do they address specific policy proposals to link environmental justice to human development strategies This book contends that human and environmental security should be framed in terms of transnational discussions rather than being limited to general international debates in order to examine both governance challenges and potential policy mechanisms that can effectively address environmental security issues that cross national boundaries The chapters in this volume undertake an empirical examination of the relationships between human and environmental security cross border exchanges and regional integration They address the relationships between international norms transnational human and environmental security issues and the regionalization of governance in different parts of the world as the book includes comparative analyses as well as case studies from Europe Asia and the Americas The chapters originally published as a special issue in *Globalizations* Congressional Record , **Digest** , 1892 Report on the Economic and Financial Conditions in Brazil , 1922 Chemical Export to River Systems from the Critical Zone Carl I.
