Crisis And Change The Church In Latin America Today:

Crisis and Change Edward L. Cleary, 1985 **Capital, Power, And Inequality In Latin America** Sandor Halebsky, Richard L Harris, Elizabeth W Dore, John Kirk, Michael Kearney, 2018-10-08 Over the last two decades economic political and social life in Latin America has been transformed by the region's accelerated integration into the global economy. Although this transformation has tended to exacerbate various inequities, new forms of popular expression and action challenging the contemporary structures of capital and power have also developed. This volume is a comprehensive genuinely comparative text on contemporary Latin America. In it, an international group of contributors offer multidimensional analyses of the historical context, contemporary character, and future direction of rural transformation, urbanization, economic restructuring, and the transition to political democracy. In addition, individual essays address the changing role of women, the influence of religion, the growth of new social movements, the struggles of indigenous peoples, and ecological issues. Finally, the book examines the influence of U.S. policy and of regionalization and globalization on the Latin American states. Sandor Halebsky is professor of sociology at Saint Mary's University in Halifax, Nova Scotia. He co-edited *Cuba in Transition: Crisis and Transformation* Westview, 1992. Richard L. Harris is chair of the faculty at Golden Gate University in Monterey, California. He is one of the coordinating editors of the journal *Latin American Perspectives* and the author of *Marxism, Socialism, and Democracy in Latin America* Westview, 1992.

The Routledge International Handbook of Sociology and Christianity Dennis Hiebert, 2023-10-18 The *Routledge International Handbook of Sociology and Christianity* examines the intersection of the sociology of religion, a long-standing focus of sociology as a discipline, and Christianity, the world's largest religion. An internationally representative and thematically comprehensive collection, it analyzes both the sociology of Christianity and Christian approaches to sociology with attention to the Roman Catholic, Orthodox, and Protestant branches of Christianity. An authoritative state-of-the-art review of current research, it is organized into five interconnected thematic sections considering the overlapping emergence of both the Christian religion and the social science, the conceptualization of and engagement with Christianity by sociological theory, the ways in which Christianity shapes and is shaped by various social institutions, the manner in which Christianity resists and promotes various forms of social change, and the identification, diagnosis, and correction of social problems by sociology and Christianity. This volume is an invaluable collection for scholars and advanced students, with special appeal for those working in the fields of sociology and social theory as well as religious studies and theology.

Religion and Globalization Peter Beyer, 1994-03-31 In his exploration of the interaction between religion and worldwide social and cultural change, the author examines the major theories of global change and discusses the ways in which such change impinges on contemporary religious practice, meaning, and influence. Beyer explores some of the key issues in understanding the shape of religion today, including religion as culture and as social system, pure and applied religion, privatized and publicly influential religion, and

liberal versus conservative religions He goes on to apply these issues to five contemporary illustrative cases the American Christian Right Liberation Theology movements in Latin America the Islamic Revolution in Iran Zionists in Israel and religious
