*Islam and China's Hong Kong* Wai-Yip Ho, 2013-06-07 Hong Kong is a global city state under the sovereignty of the People's Republic of China and is home to around 250 000 Muslims practicing Islam However existing studies of the Muslim majority communities in Asia and the Northwest China largely ignore the Muslim community in Hong Kong *Islam and China's Hong Kong* skillfully fills this gap and investigates how ethnic and Chinese speaking Muslims negotiate their identities and the increasing public attention to Islam in Hong Kong Examining a range of issues and challenges facing Muslims in Hong Kong this book focuses on the three different diasporic Muslim communities and reveals the city state's triple Islamic heritage and distinctive Islamic culture It begins with the transition from the colonial to the post colonial era and explores how this has impacted on the experiences of the Muslim diaspora and the ways this shift has compelled the community to adapt to Chinese nationalism whilst forging greater links with the Gulf Then with reference to the rise of new media and technology the book examines the heightened presence of Islam in the Chinese public sphere alongside the emergence of Chinese Islamic websites which have sought to balance transnational Muslim solidarity and sensitivity towards Chinese government's concern of external extremism Finally it concludes by investigating Hong Kong's growing awareness of the Muslim minorities demands for Islamic religious education and how this links with the city state's aspiration to become the new gateway for Islamic finance Indeed Wai Yip Ho posits that Hong Kong is now shifting from its role as the broker that bridged East and West during the Cold War to that of a new mediator between China and the Middle East Drawing on extensive ethnographic research this book thoughtfully charts a new area of inquiry and as such will be welcomed by students and scholars of Chinese studies Islamic studies Asian studies

and ethnicity studies      Social Movements in China and Hong Kong Khun Eng Kuah, Gilles Guiheux, 2009 Het uitgangspunt van dit boek is dat Chinese individuen van hun eigen inzet uit moeten kunnen gaan ongeacht de beperkingen die hen door de staat worden opgelegd Om hun belangen beter te kunnen verdedigen sluiten sommige individuen zich aan bij sociale bewegingen die tot sociale protesten kunnen leiden      The Public Sector in Hong Kong Ian Scott, 2010-01-01 This book describes and analyses the role of the public sector in the often charged political atmosphere of post 1997 Hong Kong It discusses critical constitutional organisational and policy problems and examines their effects on relationships between government and the people A concluding chapter suggests some possible means of resolving or minimising the difficulties which have been experienced      **The First Tung Chee-hwa Administration** Zhaojia Liu, Siu-kai Lau, 2002 This book is a study of the administration of Hong Kong's government under the leadership of Tung Chee hwa during a time when Hong Kong was changing politically and economically The contributors address the following questions To what extent are government policies consistent with those of colonial rule What does one country two systems mean and to what extent has the Tung regime been successful in safeguarding this principle How responsible are external economic forces for the apparent deterioration of the Hong Kong economy Who are affected most by the restructuring of the economy and what are some of the long term implications for Hong Kong as an important world financial center How do people in general perceive these changes What are some of the most effective economic and social policy measures that the Tung government has initiated Finally how successful has the Chief Executive been during his five years in office      *Routledge Handbook of Chinese Media* Ming-Yeh T. Rawnsley, Yiben Ma, Gary D. Rawnsley, 2015-04-24 The study of Chinese media is a field that is growing and evolving at an exponential rate Not only are the Chinese media a fascinating subject for analysis in their own right but they also offer scholars and students a window to observe multi directional flows of information culture and communications within the contexts of globalization and regionalization Moreover the study of Chinese media provides an invaluable opportunity to test and refine the variety of communications theories that researchers have used to describe analyse compare and contrast systems of communications The Routledge Handbook of Chinese Media is a prestigious reference work providing an overview of the study of Chinese media Gary and Ming Yeh Rawnsley bring together an interdisciplinary perspective with contributions by an international team of renowned scholars on subjects such as television journalism and the internet and social media Locating Chinese media within a regional setting by focusing on Greater China the People's Republic of China Taiwan Hong Kong Macau and overseas Chinese communities the chapters highlight the convergence of media and platforms in the region and emphasise the multi directional and trans national character of media information flows in East Asia Contributing to the growing de westernization of media and communications studies this handbook is an essential and comprehensive reference work for students of all levels and scholars in the fields of Chinese Studies and Media Studies      *Electoral Politics in Post-1997 Hong Kong* Stan Hok-Wui Wong, 2015-03-29 This book offers a

novel and parsimonious framework to help understand Hong Kong's lengthy democratic transition by analyzing the electoral dynamics of the city's competitive authoritarian political system where pro Beijing and pro democracy parties have struggled to keep each other in check. The author demonstrates how a relatively liberal media environment has shaped the electoral incentives of the opposition and the pro establishment elite differently which has helped the latter improve its basis of electoral support. The political explanation the book puts forward seeks to shed new light on why many autocracies are interested in regularly holding elections that are considered somewhat competitive. This book will be of great interest not only to specialists in comparative studies of democratization but also to all those concerned with Hong Kong's democratic transition. China Perspectives, 2007

**China's Regions in an Era of Globalization** Tim Summers, 2018-06-19 The rise of China has been shaped and driven by its engagement with the global economy during a period of intensified globalization yet China is a continent sized economy and society with substantial diversity across its different regions. This means that its engagement with the global economy cannot just be understood at the national level but requires analysis of the differences in participation in the global economy across China's regions. This book responds to this challenge by looking at the development of China's regions in this era of globalization. It traces the evolution of regional policy in China and its implications in a global context. Detailed chapters examine the global trajectory of what is now becoming known as the Greater Bay Area in southern China, the globalization of the inland mega city of Chongqing and the role of China's regions in the globally focused belt and road initiative launched by the Chinese government in late 2013. The book will be of interest to practitioners and scholars engaging with contemporary China's political economy and international relations.

Contemporary Hong Kong Politics Wai-man Lam, 2007 Contemporary Hong Kong Politics analyzes Hong Kong's core political institutions, mediating institutions and actors, key policy areas and relationships with Mainland China and the international community. The politics of the HKSAR have often been turbulent in the decade since the 1997 handover. This book presents a comprehensive and systematic analysis of the main strands of continuity and change during the period. It looks first at the core institutions of the SAR, focusing on the executive, legislature, judiciary, civil service, District Councils and advisory and statutory bodies. It then turns to supporting structures in the wider society, paying particular attention to political parties and elections, civil society and NGOs, and mass media and public opinion. Analyses of key policy sectors follow, notably economic policy, social policy and urban policy. To finish, the book examines Hong Kong's relations with the Mainland and the wider world. This book is essential for anyone, student, teacher or researcher, interested in Hong Kong's experience during the first decade of the one country, two systems experiment.

*The Politics of Cross-border Crime in Greater China* Shiu Hing Lo, 2009 Organized crime has been on the rise in the Greater China region since the People's Republic opened up its economy and society in the mid 1980s. Today triads from Hong Kong, Macao and even Taiwan are involved in businesses in Guangdong Province and often recruit local Chinese for illegal activities such as extortion, kidnapping, assassinations and

smuggling of illegal aliens This book provides a detailed and comprehensive study of how the state at the central and local levels has responded to the changing patterns and activities of cross border crime in Greater China It discusses the theoretical concept of organized crime the transnational nature of organized crime in recent years the significance of studying organized crime in Greater China and the implications for the national security of other countries such as the United States Canada and Australia The author reviews the history of organized crime and secret societies and addresses the legal complexities of dealing with criminal groups in the region He covers such topics as money laundering the financing of terrorist activities and regional efforts in fighting terrorism *Transnational Law & Contemporary Problems* ,2012
