BOOK JACKET

*Taking Charge* Anne Romano, 1990-03-20 Over the past several years there has been an increasing public awareness of and support for efforts to provide assistance to specially victimized groups in crisis battered women victims of crimes persons with disabling diseases and others faced with traumatic situations Because criminal justice professionals are often the first to be in direct contact with someone experiencing these types of traumas it is vital that they have a thorough understanding of crisis theory and of effective intervention techniques This volume written for police officers auxiliary police probation and parole agents and correctional

personnel offers a comprehensive guide to crisis intervention within the context of the criminal justice system. Aimed at helping criminal justice professionals develop the skills necessary to diffuse and resolve a wide variety of crisis situations, the book examines specific types of crises in detail, analyzes their causes, and how people react to them, and demonstrates techniques that can help the intervener take charge of situations for those persons temporarily unable to help themselves. The volume begins by discussing five major approaches to crisis intervention, showing how aspects of each can be integrated into a workable overall approach. Romano goes on to examine the characteristics of crisis situations, identifying the behaviors and the typical flow of a crisis. The chapters address specific aspects of crisis intervention, including communication in life-threatening situations, the components of and crisis intervention with victims, interaction with such groups as the bereaved, those contemplating suicide, the elderly, victims of violence and rape, and those involved in domestic disputes. Each receives extended treatment. Finally, the author discusses the occupational stresses experienced by crisis interveners, problems such as intervener burnout, self-doubt, and the difficulty of maintaining emotional control. Indispensable for any criminal justice professional faced with crisis intervention responsibilities, this book should also be required reading for those aspiring to careers in this field.

**Crisis Intervention and Trauma** Jennifer L. Hillman, 2013-11-11. Recent findings from an American Psychological Association task force suggest that one in four therapists will experience patient suicide, and that one in eight will feel threatened by patient violence during their career. Experts from this task force have also noted that clinicians receive virtually no formal training or coursework in crisis intervention. Despite the increasing need for professional services among members of the general population, current practitioners have few texts available that provide step-by-step detailed information about how to engage in crisis intervention and how to integrate recent empirical research findings into theory and practice. This volume helps bridge this critical gap by providing a theoretically advanced yet practical guide to crisis intervention. Particular attention is given to the role of violence within our culture, patient suicide, school and workplace violence, long-term sequelae of trauma, clinical assessment and risk management, professional boundaries, and burnout, domestic violence, and the neurophysiology of trauma, as well as the needs of typically underserved patient populations, including minority group members, older adults, gays and lesbians, and children. The text also features critical reviews of controversial topics, including EMDR, critical incident stress debriefing, recovered memories, dissociative identity disorder, and alternative medicine. The material will appeal to psychologists, social workers, and therapists, as well as practitioners in allied professional fields such as nursing, criminal justice, pastoral care, and education. **Crisis Intervention and Trauma Counseling: Emergent issues in theory and practice** represents an essential addition to any clinician's personal library.

**Crisis Intervention 101** Linda Flanders, 2015-09-05. **Crisis Intervention 101** gives a simple overview of mental health and the calls first responders most often are called to reasons why a crisis can happen and offers basic understanding about how to verbally de-escalate a crisis. These skills are taught in a common sense approach and are appropriate for law enforcement.
