Cristal Experiment:

The Cristal Experiment Armando Navarro, 1998-07-15 Amidst the turbulence and militancy of the 1960s and early 1970s the Mexicano population of the dusty agricultural town of Crystal City Texas Cristal in Spanish staged two electoral revolts each time winning control of the city council and school board The landmark city council victory in 1963 was a first for Mexican Americans in South Texas and Cristal the spinach capital of the world became for a time the political capital of the Chicano Movement In The Cristal Experiment Armando Navarro presents the most comprehensive examination to date of the rise of the Chicano political movement in Cristal its successes and conflicts both internal and external and its eventual decline He looks particularly at the larger and more successful Second Revolt in 1970 and its aftermath up to 1981 examining the political economic educational and social changes for Mexicanos that resulted Drawing upon nearly 100 interviews a wealth of secondary materials and his own experiences as a political organizer in the Chicano Movement Navarro offers a shrewd and insightful analysis not only of the events in Cristal but also of the workings of local politics generally the politics of community control and the factors inherent in the American political system that lead to the self destruction of political movements As both a political scientist and an organizer he outlines important lessons to be learned from what happened in Cristal and to the Chicano Movement

The Tejano Diaspora Marc Simon Rodriguez, 2011-04-18 Each spring during the 1960s and 1970s a quarter million farm workers left Texas to travel across the nation from the Midwest to California to harvest America's agricultural products During this migration of people labor and ideas Tejanos established settlements in nearly all the places they traveled to for work influencing concepts of Mexican Americanism in Texas California Wisconsin Michigan and elsewhere In The Tejano Diaspora Marc Simon Rodriguez examines how Chicano political and social movements developed at both ends of the migratory labor network that flowed between Crystal City Texas and Wisconsin during this period Rodriguez argues that translocal Mexican American activism gained ground as young people activists and politicians united across the migrant stream Crystal City well known as a flash point of 1960s era Mexican Americanism was a classic migrant sending community with over 80 percent of the population migrating each year in pursuit of farm work Wisconsin which had a long tradition of progressive labor politics provided a testing ground for activism and ideas for young movement leaders By providing a view of the Chicano movement beyond the Southwest Rodriguez reveals an emergent ethnic identity discovers an overlooked youth movement and interrogates the meanings of American citizenship

Fighting Their Own Battles Brian D. Behnken, 2011 Between 1940 and 1975 African Americans and Mexican Americans in Texas fought a number of battles in court at the ballot box in schools and on the streets to eliminate segregation and state imposed racism Although both groups engaged in civil rights
