Michael Brown

Critic As Scientist:

Critic as Scientist Ian F. A. Bell, 2023-08-11 First published in 1981 *Critic as Scientist* provides a detailed and scholarly account both of the scientific background and of contemporary artistic issues in its analysis of Ezra Pound's poetics During the crucial period of his years in London Ezra Pound was striving to formulate not only a new system of poetics but also a new language through which he could both define the critic's procedure and announce his modernity It was in science that Pound discovered the vocabulary that became his most characteristic gesture during the literary crises of the time The use of scientific terminology in his propaganda for a new renaissance belonged initially to specifically American modes of aesthetic tradition as typified by Whistler and aspects of New England transcendentalism A consideration of popular versions of physics and biology and of the scientific attitude displayed by such contemporaries as Fenollosa Hulme Ford and Eliot reveals that the major terms and practices of Pound's critical vocabulary were located in the issues of nineteenth and early twentieth century science The author has sought to demystify key words in the Poundian vocabulary and has suggested a wider literary and cultural context for the study of Pound's aesthetic theory This book will be of interest to students of literature
