Critical Issues In Early Childhood Education:

Critical Issues in Early Childhood Education Nicola Yelland, 2005-04-16 This book is a valuable contribution to the creation of a more critical and theoretically diverse approach to early childhood policy and practice Through many vivid examples and a varied cast list of authors both academics and practitioners it shows the potential of this approach for pedagogical work in early childhood institutions and the education of the early childhood workforce Professor Peter Moss Institute of Education University of London UK In the era of No Child Left Behind in the U S you might think that the landscape of educational research and practice has been transformed into a row of scientific models and unvarying curricular scripts Nicola Yelland's volume will persuade you that in contrast the landscape in early childhood education is varied and full of unconventional angles The authors examine virtually every significant aspect of curricular practice and postmodernist theory while challenging readers to be skeptics themselves to engage with risky ideas on the way to transformative actions Celia Genishi Professor of Education Teachers College Columbia University USA This book challenges long established beliefs about early childhood education It offers readers the opportunity to think about the aspects of their profession that are fundamental to providing effective and equitable educational opportunities for young children in the 21st century Well known contributors explore issues that are not only critical in terms of being fundamental to early childhood education but also critical in that they present alternative ideas and use frameworks that are not traditional to the field Organized in three parts the book considers Contemporary views of early childhood education and teaching The rethinking of early childhood practices The emergence of new technologies and multiliteracies The chapters in the book focus on aspects of early childhood education that have for a long time been accepted as truisms or have been too hard to deal with and thus often ignored For example they include a consideration of issues that range from examining play that might be sexual in focus or learning how to cope with traumatic events in young children's lives to the ways in which popular culture and new literacies impact on what young children are interested in and how they can be engaged in learning with information and communications technology Essential reading for students in all early childhood studies programmes as well as early childhood practitioners who want to engage in more reflective practices around their work Contributors Yarrow Andrew Chelsea Bailey Mindy Blaise Elizabeth Brooker Sheralyn Campbell Gaile Cannella Richard Johnson Anna Kilderry Jackie Marsh Jeanette Rhedding Jones Leonie Rowan Sharon Ryan Jonathan Silin Jennifer Sumsion Daniel Walsh Nicola Yelland

Early Years Foundations: Critical Issues Janet Moyles, Jane Payler, Jan Georgeson, 2014-01-16 The new edition of this best selling book looks critically at the 2012 Early Years Foundation Stage curriculum and draws attention to issues that underlie the EYFS and the implications for children from birth to five With its questions for reflection and discussion further reading and useful websites Early Years Foundations is essential and informative reading for students studying any early years or early childhood course or working towards Early Years Teacher Status Among the many challenges facing early years

professionals there are continual dilemmas arising between perceptions of good practice the practicalities of provision and meeting OfSTED requirements This exciting and innovative new edition supports practitioners in thinking through their responsibilities in tackling some of the many challenges they encounter for example that children are still perceived as deficit in some way and in need of being school ready rather than as developing individuals who have a right to a childhood and appropriate early education Chapters explore the rationale behind early years practice based on theory and research covering important topics including Prime and specific areas of learning and development Observation and assessment Pedagogy Working with parents Difference and diversity Contributors Sue Bingham Gill Boag Munroe Liz Brooker Helen Clarke Anne Cockburn Rosie Flewitt Jan Georgeson Michael Jones Lilian G Katz Caroline Leeson Paulette Luff Jayne Osgood John Parry Jane Payler Karen Phethean Linda Pound Anne Rawlings Jonathan Rix Sue Rogers Anita Soni Suzy Tutchell Judith Twani Jane Waters David Whitebread Early Years Foundations Critical issues is a timely and valuable edition for the early childhood bookshelf offering high quality scholarship combined with deep understanding of early childhood practice Jane Murray PhD Senior Lecturer University of Northampton UK This book stands out amongst the crowd for a number of reasons In particular the status of the three editing authors means that the content of the book is to be trusted to be both informed and thorough in its attention to detail and this second edition has been carefully updated to incorporate recent reforms and initiatives The editing authors insistence on the creation of an early years text that centres on a critically reflective review of contemporary policy and research can only help to build the argument for a better future for young children s care and education Dr Kathy Goouch Reader in Education Canterbury Christ Church University UK This book is not another bland how to do it manual to accompany the EYFS it goes much further in offering a truly challenging critique This should be essential reading for experienced practitioners as well as Early Childhood Studies students Denise Hevey Professor of Early Years University of Northampton UK

Critical Issues in Early Childhood Teacher Education Miranda Lin,Ithel

Jones,2020-06-01 In recent years there have been significant changes in education across the globe largely as a result of changing demographics technological developments and increased globalization Relatedly the changing needs of societies and families along with new research findings provide new directions in early childhood education Consequently early childhood teachers today are faced with higher and more complex expectations to help ensure that their students achieve their full potential Such expectations suggest that early childhood teachers should be professionals who are able to draw on a robust knowledge base in making educational decisions It follows that teacher education programs should develop and implement innovative programs that can potentially enhance the quality of our future teachers An awareness of pressing issues in the field of early childhood teacher education led the editors to develop this volume The chapters in these two volumes bring together scholars from across the US and the globe who are interested in improving the quality of early childhood teacher education The chapters present their experiences perspectives and lessons learned as they addressed

some of the challenging issues concerning the education and preparation of future early childhood teachers. The various issues and perspectives from different states in the US or countries across the globe provide insights into current issues and dilemmas facing the field. The contributions of these scholars should inform the discourse on early childhood teacher education and help those who work with preservice teachers improve the quality of their work. *Critical Issues In Early Childhood Education* Yelland, Nicola, 2005-04-01. What are some of the long held beliefs in early childhood education that need to be challenged? What can postmodern perspectives offer to early childhood educators? How can early childhood educators deal with the complex issues that arise in the lives of young children? This book examines critical issues in early childhood education across a broad range of contexts. The issues explored are critical not only in terms of being fundamental to early childhood education but also in that they present ideas and use frameworks which are not traditional to the field. The topics under review include questioning the developmental basis of early childhood education and the notion of what constitutes child centred curricula and extends into a discussion of the complex nature of teacher's work in early childhood contexts which require new ways of reconceptualising the field and the role of the teacher in the lives of children. The chapters explore contemporary issues using methodologies that are increasingly being favoured by teacher educators, parents and community members who find that developmental perspectives do not satisfactorily explain and assist us in our interactions with young children and their families in the 21st century. **Critical Issues in Early Childhood**

Professional Development Martha J. Zaslow, Ivelisse Martinez-Beck, 2006. Effective teaching leads to positive student outcomes and professional development for early childhood teachers is key to improving both. But what exactly do we mean by professional development? What effect does it have on school readiness? Which models and approaches really work? This is the book the early childhood field needs to take the crucial first steps toward definitive answers. Top experts in early childhood education help readers define professional development, examine research across a range of settings, Head Start, public preschools, private programs on professional development and school readiness, consider both the extent and the content of professional development, learn from detailed explorations of promising professional development models, investigate key economic considerations and policy implications, identify areas for further exploration. *Critical Issues in Early Childhood Teacher Education* Ithel Jones, Miranda Lin, 2020-06-01. In recent years there have been significant changes in education across the globe, largely as a result of changing demographics, technological developments and increased globalization. Relatedly, the changing needs of societies and families along with new research findings provide new directions in early childhood education. Consequently, early childhood teachers today are faced with higher and more complex expectations to help ensure that their students achieve their full potential. Such expectations suggest that early childhood teachers should be professionals who are able to draw on a robust knowledge base in making educational decisions. It follows that teacher education programs should develop and implement innovative programs that can potentially enhance the quality

of our future teachers An awareness of pressing issues in the field of early childhood teacher education led the editors to develop this volume The chapters in these two volumes bring together scholars from across the US and the globe who are interested in improving the quality of early childhood teacher education The chapters present their experiences perspectives and lessons learned as they addressed some of the challenging issues concerning the education and preparation of future early childhood teachers The various issues and perspectives from different states in the US or countries across the globe provide insights into current issues and dilemmas facing the field The contributions of these scholars should inform the discourse on early childhood teacher education and help those who work with preservice teachers improve the quality of their work

Continuing Issues in Early Childhood Education Stephanie Feeney,Alice Galper,Carol Seefeldt,2009 Today s early childhood educators are faced with a great deal of responsibility and are called upon to make numerous decisions every day They interact with children families colleagues administrators and policy makers To be effective their actions have to be based not on their own personal opinions but by an understanding of the complexities related to each new potentially controversial issue and current research on child development and the best practices in early childhood education programs This unique book aims to address this need for advanced students and veteran educators to have a bipartisan reference of the most important issues of the day as addressed by the most advanced scholars in the field To do this the authors have called on eighteen of the most influential educators of the day to contribute a chapter on each topic covered in the book These multiple perspectives provide an unbiased overview of each issue The issues covered include families advocacy children with disabilities and diversity Chapters on developmentally appropriate practices stimulate discussion of the influence of the National Association for the Education of Young Children NAEYC

Critical Issues in South African Education Charl C. Wolhuter,2020-12-31 The main thesis of this book is that given that South African education faces major challenges the BRICS Brazil Russia India China and South Africa constellation of states offers thus far overlooked a valuable tertium comparationis a source of international comparative perspectives to inform the domestic scholarly discourse on education This book first investigates the national contexts and development of education in the BRICS countries arguing that this grouping represents a valuable but yet overlooked field for illuminating South African education issues with international perspectives The book consists of chapters arguing for and illustrating this thesis from a variety of angles Common to all chapters is that authors used the comparative method in education that is comparing the national education system in their education societal context interrelationships of the BRICS countries The chapters focus on a number of critical issues in South African education including the language of learning and teaching issue the alignment of the world of education with the world of work early childhood education and the development of world class universities Regarding the last for example China has been the terrain of the most intensive national projects of establishing world class universities with Project 985 Project 211 and the Double First Class University project The chapters demonstrate what South Africa in

approaching her education issues can learn from the experience of the BRICS countries

Critical Perspectives on Early Childhood Education Lois Weis, Philip G. Altbach, Gail P. Kelly, Hugh G. Petrie, 1991-09-10 This book explores key policy issues related to early childhood education Through the contributions of various professionals in the field the editors provide a vision practical and possible of early childhood education in the 1990s Part I delves into the complex world both personal and professional of the classroom teacher The essays in Part II look at issues of the school community including the roles of class race gender and exceptionality Finally Part III examines the relationship between schools and the community at large and how complex issues find their way into social and economic policies that often stifle rather than support the democratic vision of American schools Taken as a whole the volume presents a stimulating discussion of the current state of early childhood education policy and practice

Critical Issues in Anti-racist Research Methodologies George Jerry Sefa Dei, Gurpreet Singh Johal, 2005 Anti racism studies have blossomed over the years with scholarship and political work reinforcing each other to cement anti racist change But how do we understand anti racist research How is anti racist research methodology different from other methods of research investigation What are the principles of anti racism research This edited collection attempts to provide some answers by bringing together works that examine the perils and desires of anti racist research with a particular focus on the notion of difference and a serious consideration of the race gender class and sexuality intersections implications of educational research
