Howell, 2014-06-17 Could we have imagined how much theological education would change in the new millennium Shifting needs of students classrooms and churches have demanded constant revisions of the curriculum course design classroom technology and pedagogical strategies Saint Paul School of Theology felt the tide of change within our own walls and designed a project called Proleptic Pedagogy to address three distinct pedagogical challenges for the future of theological education First instead of fitting new technologies into old pedagogies how are teaching and learning transformed by shifting needs of students who are digital natives digital immigrants or distance learners Second instead of reactive strategies what pedagogy proactively eliminates accommodations because courses are designed with flexibility and openness to diverse learning styles disabilities and needs Third instead of engaging student diversity with the tools of the 1960s what new teaching and learning strategies anticipate future student racial and ethnic demographics and interracial educational experiences This volume of essays narrates our classroom stories teases out pedagogical issues examines pedagogical literature reflects on theology of pedagogy and constructs pedagogical proposals with an open invitation for other theological educators to join our conversation about the future of theological education

Embracing Disruptive Coherence Kathleen T. Talvacchia, 2019-04-18 Does anyone need to come out anymore Queer theory has challenged the idea of coming out as problematic for its false binary and essentialized version of identity If gender is a socially constructed performativity then what does coming out mean At the same time we live in a society that still struggles with structures of power that define what is considered normal and sanctions those who transgress The intersectionality of gender with race class ethnicity nationality abilities religion age and other positional markers challenge a simplified belief that coming out is not necessary Therefore in the lived experience of many persons coming out still matters This book initiates a different theological conversation about coming out It argues that rather than the declaration of an identity category coming out can be understood as the erotic ethical practice of truth telling The formation of conscience and

moral integrity embody the two pillars of this erotic practice Coming out understood as disruptive coherence is the erotic ethical practice of truth telling grounded in our deepest desires to be known authentically in community **A Many Colored Kingdom** Elizabeth Conde-Frazier,S.
