## **Critical Reconstructions:**

The Panchatantra Reconstructed: Text and critical apparatus Pañchatantra, 1924      Critical Reconstructions Robert M. Polhemus, Roger B. Henkle, 1994 The subject of this book is the relationship Henry James alludes to when he celebrates the novel's large free character of immense and exquisite correspondence with life. Featuring the interplay of fictions and the real world, its twelve essays explore and expand ideas of what fiction and reality might be. They ask such questions as: How does fiction communicate truth about the world? What is the connection between perceived historical reality and the linguistic form of narration? How does writing formulate or mediate the tensions between public and private life? What exactly do people at a given time want and get from a particular novel? How does a novelist's life give form to a novel? How are reality, the novel, knowledge, and the practice and form of fiction known as realism related, and what might realism mean as today's critics reconstruct it? In the wake of Ian Watt's pioneering work, we tend to think of such questions as questions about the novel, and with the exception of the two framing pieces, these essays concern that genre. Tzvetan Todorov opens the volume by examining wildly imaginative accounts written about early global exploration. The next three essays focus on works by Charles Dickens: Michael H. Levenson on *David Copperfield*, Robert M. Polhemus on *The Old Curiosity Shop*, and Roger B. Henkle on *Dombey and Son*. They emphasize the role of cultural psychology in the writing and reception of this most popular of nineteenth-century novelists and stress the novel's historical function in mediating between inner and outer life. Next come three studies of realism: by John Bender on the political and epistemological implications of power and violence inherent in realist prose fiction, specifically in Godwin's *Caleb Williams*; by George Dekker on the dialectical interplay of conceptions of fiction and realism by Henry James and Robert Louis Stevenson; and by William M. Chace on Joyce's realism in *Ulysses*. Joseph Frank and Thomas C. Moser follow with studies of Dostoevsky and Faulkner that relate key biographical experiences to *Crime and Punishment* and *The Sound and the Fury*. Next, Juliet McMaster uses Jane Austen's *The Watsons* to illustrate how criticism can reconstruct an unfinished work, and John Henry Raleigh shows how the reality of a fictional text, Frederic Manning's *Her Privates We*, can come to have striking evidential power and effect. The final piece, by Edward V. Said, returning us to ideas of travel and representation of life on the margin, shows the continual intertwining and merging of theory and fiction.

**Sustainable Economic Development** Giorgos Meramveliotakis, Manolis Manioudis, 2024-11-14 Drawing on political economy and economic pluralism, this book explores issues in sustainable economic development from a macro perspective. In contrast to the vast majority of studies on contemporary development problems, which are focused on micro-level theory, method, and policy, this volume brings together both heterodox and mainstream perspectives. The international cast of contributors thus brings a pluralistic approach to core contemporary topics, including digital transformation, climate change, degrowth, and the effects of the pandemic crisis. Methods range from frameworks used to analyse public policy and institutional change to modes of analyses including historically grounded narratives and conceptualisations of grand theories.

Each chapter surveys the origins development key features applications and frontiers of a particular viewpoint framework or mode of analysis This book makes a vital contribution to the literature on economic development sustainable development capitalism and sustainability more broadly Beyond Communication. A Critical Study of Axel Honneth's Social Philosophy Jean-Philippe Dr. Deranty, 2009-06-24 Few thinkers have made such significant contribution to social and political thinking over the last three decades as Axel Honneth His theory of recognition has rejuvenated the political vocabulary and allowed Critical Theory to move beyond Habermas Beyond Communication is the first full scale study of Honneth s work covering the whole range of his writings from his first sociological articles to the latest publications By relocating the theory of recognition within the tradition of European social theory the book exposes the full depth and breadth of Honneth s philosophical intervention The book will be an indispensable resource for anyone interested in contemporary philosophy and the social sciences

**Editorial Techniques in the Hebrew Bible** Reinhard Müller, Juha Pakkala, 2022-05-06 Editorial Techniques in the Hebrew Bible Toward a Refined Literary Criticism presents and applies a model for understanding and reconstructing the diachronic development of the Hebrew Bible through historical criticism or the historical critical method Reinhard Müller and Juha Pakkala refine the methodologies of literary and redaction criticism through a systematic investigation of the evidence of additions omissions replacements and transpositions that are documented by divergent ancient textual traditions At stake is not only historical criticism but also the Hebrew Bible as a historical source for historical criticism has been and continues to be the only method to unwind those scribal changes that left no traces in textual variants
