W. McHoul,David Wills,1990-04-20 This book explores some of the ways in which contemporary literary theory can be used to read fiction In particular it focuses on Thomas Pynchon s three novels to date and his collection of early stories The theories exploited are concentrated in the work of Jacques Derrida **New Essays on The Crying of Lot 49** Patrick O'Donnell,1991 The Crying of Lot 49 is widely recognized as a significant contemporary work that frames the desire for meaning and the quest for knowledge within the social and political contexts of the 50s and 60s in America In the introduction to this collection of original essays on Thomas Pynchon s important novel Patrick O Donnell discusses the background and critical reception of the novel Further essays by five experts on contemporary literature examine the novel s semiotic regime or the way in which it organizes signs the comparison of postmodernist Pynchon and the influential South American writer Jorge Luis Borges metaphor in the novel the novel s narrative strategies and the novel within the cultural contexts of American Puritanism and the Beat movement Together these essays provide an examination of the novel within its literary historical and scientific contexts

Understanding Thomas Pynchon Robert D. Newman,1986 This volume provides instruction in how to read Thomas Pynchon how to identify his material themes use of language point of view structure symbolism and responses to experience Newman examines Pynchon s short fiction and presents close readings of his three novels He reviews recent criticism tracks the complex fluid states of Pynchon s fiction and establishes the place of individual works in the canon He also discusses the methods of representation mixed modes wordplay parody and burlesque that Pynchon deploys to encapsulate meanings

Newman argues that Pynchon's novels undermine their own fictionality in order to encode meanings that implicate the reader in social and political issues ISBN 0 87249 485 3 15 95 **The Poetics of Chronotope in the Novels of Thomas Pynchon** Zofia Kolbuszewska, 2000 **Critical Survey of Long Fiction: V.S. Pritchett-August Strindberg**, 2000

Middle Grounds Alan Wilde, 1987-11-29 Alan Wilde identifies and defends what he calls midfiction which rejects both the extremes of realism and experimental self reflexive fiction He offers as examples the best works of Apple Berger Barthelme Pynchon and Paley **Critical Essays on Thomas Berger** David W. Madden, 1995 Six reviews and eight essays trace the critical reputation of Thomas Berger's novels One interview is included **Thomas Pynchon's Narratives** Alan W. Brownlie, 2000 In his first three novels Thomas Pynchon focuses in part on the inability to achieve reliable knowledge of the self and the world As a consequence of this and of the events around which Pynchon builds these early novels *V* *The Crying of Lot 49* and *Gravity's Rainbow* tend to be read as nihilistic This book focuses on Pynchon's use of ideas of western history philosophy and science to arrive at a reading that suggests that Pynchon's project in these early novels is to provoke his readers into taking precisely the sort of personal and political action his characters cannot Thomas Pynchon Judith Chambers, 1992 When in 1989 Thomas Pynchon came out with his fourth novel after a 17 year hiatus from publishing it was perhaps not without a hint of irony that the New York Times Book Review turned to Salman Rushdie for commentary Here was an author forced into exile literally to save his life reviewing the work of one who has chosen his own exile perhaps to guard his gift a man who has studiously avoided interviews and about whom little is known The horrific and absurd situation to which Rushdie found himself consigned was not far from the stuff of Pynchon's fiction where readers enter a world in which the grotesqueries and banalities of modern life are inescapable by conventional means With his extravagant imagination and wild sense of humor Pynchon maintains a revered place in postwar American literature many believe that his 1963 novel *V* anticipated much of the most advanced philosophical and literary critical reflection that would follow in the next 20 years Judith Chambers's comprehensive study of this enigmatic writer outlines a definite progression in his work identifying his early short stories as more aesthetic than his later work With *V* and *The Crying of Lot 49* 1966 she argues Pynchon's writing became more existential and ironic in that the reader is much more an intellectual participant in recovering meaning By *Gravity's Rainbow* 1973 Pynchon's style was most decidedly experiential according to Chambers experiential in that the novel's truths are contained not just in its content but in its structure and language which leads readers away from analysis and toward a kind of suffering and risk that become the basis of the novel's affirmation Chambers places *Vineland* 1989 even farther along on the road away from an aesthetic or intellectual style By avoiding spellbinding prose Pynchon in *Vineland* forces readers to experience a world in which heartfelt language is almost pounded flat and yet some people do find the courage to act a courage motivated by the simple values of kindness and love And adds Chambers Pynchon does so without a trace of mawkishness Throughout this study Chambers explores the theory of language and

thought that Pynchon developed in his writing looking specifically at his meaning of decline by applying the theories of philosophers and writers as radical as he Robert Graves Martin Heidegger Walter Benjamin and John D Caputo The fundamental question for Pynchon Chambers contends is one of hope this weaver of dark labyrinthine tales asks whether we can have ethics in a post modern world Pynchon answers this question in his novels by creating what Caputo has termed a cold hermeneutics an amalgam of Heidegger and Jacques Derrida a form of radical thinking that avoids transcendental justification Ultimately Chambers finds that with his eclectic poetic texts Pynchon destroys the illusions of truth and uses the very remnants of this destruction to develop a style that restores the mysterious poetic faculty to thinking However Pynchon is labeled in this post everything era of critical inquiry his embrace of radical and experiential fiction as the appropriate idiom for depicting twentieth century American life has changed the way a generation of writers has approached their craft
