Network Models of the Diffusion of Innovations Thomas W. Valente,1995 This text presents a key to understanding how ideas products and opinions take off and spread throughout society referred to as the diffusion of innovation and provides a means to estimate how fast or slow that spread occurs The diffusion of innovations occurs among individuals in a social system and the pattern of communications among these individuals is a social network The network determines how quickly innovations diffuse and the timing of each individual s adoption The book thus analyses how social networks structure the diffusion of innovation Reactor Handbook: pt. in context two key Supreme Court cases the 1986 Bowers v Hardwick decision and the 2003 Lawrence v Texas decision which overturned it Drawing upon his own experiences as a gay man Richards interweaves personal observations with philosophical political judicial and psychological insights to make a case that gays should be entitled to the same rights and protections that every American enjoys From publisher description **Proceedings of the American Academy of Arts and Sciences** ,1890 **Research reactors** U.S. Atomic Energy Commission,1955 **All Things Nuclear** James C.
