and *British Postmodernism* is a guide for scholars that aims to connect the complex relationships between print and
multimedia technological advancements and the influence of critical theory that converge in postwar British literature This
era is unique in that strict boundaries between fiction nonfiction multimedia and print are not useful Postmodern literature is
defined by the breaking down of boundaries as a reaction to modernism and requires an innovative multifaceted approach to

critical theory popular music and more traditional print sources are inextricably linked Through this approach the authors
