

There are two traditions in the religions of the West. On the one hand, there is a tradition with which we are all familiar, based upon the idea of truth given to humanity by divine revelations. This tradition is established, nurtured, and protected by the three great religions of the West: Judaism, Christianity, and Islam.

On the other hand, there is a second tradition in the West with which we are equally familiar, but with which we have not hitherto associated any association with religion. It is a tradition of inquiry, of feeling, of experiencing, and of growing into the depths of all-experience and all life. This second tradition is established, nurtured, and protected, not in our churches and temples, but in a severe institution in human society, the university. The university is the critical tradition: institutionalized, as the church is the psychological tradition: institutionalized.

These two traditions are basically antithetical, although they live together in apparent harmony. The confessional or psychological tradition holds that we already know final truth in certain fundamental areas of life. Critical Way In Religion Testing And Questing:

Fifty Years of Philosophy of Religion: A Select Bibliography (1955-2005) Andy Sanders, Kristof de Ridder, 2007-06-28 The bibliography lists about 10 000 titles of monographs collections and articles in the field of the philosophy of religion and philosophical theology that appeared between 1955 and 2005 The majority of them are in the English language but publications in German Dutch and French are listed as well Though it is not claimed to be exhaustive the bibliography offers a fairly representative survey of scholarly work on the main topics of interest Publications have been systematically classified according to eleven main categories Introductions Surveys and Historical Issues Part I Religious Language Part II Religious Experience Part III Religious Epistemology Part IV Theism Part V Hermeneutics Part VI Religion and Science Part VII Religion and Aesthetics Part VIII Religion and Morality Part IX Religious Pluralism Part X and Feminist Philosophy of Religion Part XI Part III has been subdivided into Religious Experience and Mystical Experience Part VII into The Concept of God arguments for The Existence of God The Problem of Evil and Atheism and Part VII into General and Historical Issues Theological Issues and implications of Modern Physics Cosmology and Biology The bibliography will particularly be useful to scholars teachers and students in the philosophy of religion philosophical theology and systematic theology as well as to those who are interested professionally or otherwise in the results of academic scholarship in those fields Jeremy Bentham Bhikhu C. Parekh, 1993 **The Critical Way in Religion** Duncan Howlett, 1980 In The Critical Way in Religion Duncan Howlett proposes a new approach to the age old question of religious belief According to the author authority and tradition cannot provide adequate answers for religion nor can modern liberalism These approaches fail to come to terms with the problems of human error and the need for innovation Organized religion has not subjected its claim to know eternal truth to the severe testing accepted in all other disciplines and has been highly resistant to the introduction of new practices and patterns of thought The Critical Way in Religion identifies a religious tradition older than Christianity and at least as old as Judaism that has taken human fallibility and human resourcefulness fully into account The author traces the evolution of this tradition from its beginning in Greece in the sixth century B C and shows how its characteristic principles have developed Today although worldwide in scope but by no means universally accepted the critical approach to religion is found inside as well as outside organized religion among churchgoers and among the supposedly nonreligious as well Howlett maintains that the critical tradition in religion developed independent of the Judeo Christian tradition but that the two are closely related The critical tradition has its heroes its martyrs and a growing body of thought but as yet no name and no church fully committed to it Although the modern worldwide university system is the critical spirit institutionalized it is primarily nonreligious This book calls for the institutionalizing of the critical spirit in religion and concludes with a set of clear and positive yet critical religious principles Back cover **Secular Utilitarianism** James E. Crimmins, 1990 Jeremy Bentham was an ardent secularist convinced that society could be sustained without the support of religious institutions or

beliefs This is writ large in the commonly neglected books on religion he wrote and published during the last twenty five years of his life However his earliest writings on the subject date from the 1770s when as a young man he first embarked on his calling as a legal theorist and social reformer From that time on religion was never far from the centre of his thoughts In *Secular Utilitarianism* James Crimmins illustrates the nature extent and depth of Jeremy Bentham s concern with religion from his Oxford days of first doubts to the middle years of quiet unbelief and finally the zealous atheism and secularism of his later life Dr Crimmins provides an interpretation of Bentham s thought in which his religious views hitherto of little interest to Bentham scholars are shown to be integral on the one hand intimately associated with the metaphysical epistemological and psychological principles which gave shape to his system as a whole and on the other central to the development of his entirely secular view of society **Towards a Spiritual Humanism** Hasan Askari,Jon Avery,1991 **Choice** ,1999

trajectory this work argues that rather than seeing these current historiographies as having suddenly appeared in the scholarly scene a better approach is to see them as the fruit of this long trajectory Of course as the work has sought to demonstrate this trajectory is itself full of turns and twists But the careful reader will hopefully be able to see the intrinsic connections that are demonstrably evident
