Critics Of The Enlightenment Readings In The French Counterrevolutionary

Christopher Olaf Blum

Critics Of The Enlightenment Readings In The French Counterrevolutionary:

Critics of the Enlightenment Christopher Olaf Blum, 2004 For the Anglo American world Edmund Burke is the touchstone of counter revolutionary thought but in this volume Christopher Olaf Blum shows that in attempting to vindicate the principles that had at its best animated the Old Regime and in critiquing the institutions and beliefs associated with the New Regime the French counter revolutionary tradition is unparalleled To understand adequately what Georges Bernanos called the spiritual drama of Europe it is a tradition that must be grappled with Critics of the Enlightenment makes available new translations of representative selections from some of the leading French conservative thinkers of the nineteenth century Francois de Chateaubriand Louis de Bonald Joseph de Maistre Frederic Le Play Emile Keller and Rene de La Tour du Pin The selections span much of the nineteenth century from Chateaubriand s 1814 pamphlet against Bonaparte to La Tour du Pin s 1883 essay on the theory of the corporate state The volume therefore not only includes responses of the French conservatives to the French Revolutions of 1789 through 1815 but also testifies to the continuing elaboration of this critique against the background of the troubled nineteenth century Blum s introduction sets these selections within the contexts of the events giving rise to them and the lives of their authors The French political philosopher Philippe Beneton supplies the book s foreword Blum s elegant translations of texts heretofore difficult or impossible to find in English allow Anglophone readers to profit from the counter revolutionaries insights about social and cultural matters of perennial importance such as the necessary roles of religion family and local communities within any larger political society matters of pressing concern to the counter revolutionaries of our own time

Royalists, Radicals, and les Misérables Eric Martone, 2014-10-02 The year of 1832 marked a turning point in France as the country struggled to find its way in the wake of the French Revolution Following the Revolution of 1830 Legitimists supporters of the recently ousted Bourbon dynasty s claim to the throne continued to plot against King Louis Philippe and his July Monarchy In early 1832 after failing to launch a coup in Southern France Legitimists plotted an unsuccessful uprising in the Vend e a region in Western France that had supported the royalist cause during the French Revolution The Duchesse de Berry led the rebellion in the hopes of placing her son the Bourbon heir on the French throne The revolt marked the last attempt by the Bourbons to retake the throne by force and helped solidify the end of the Bourbon dynasty During the cholera outbreak which also spread throughout France in 1832 lower income areas suffered higher losses to the disease for they were more likely to have contaminated water supplies The lower classes spread rumors that the outbreak was an elitist plot to subdue the masses and the epidemic exacerbated class tensions Meanwhile conditions in France continued to be characterized by violence during the early 1830s as Louis Philippe attempted to establish his regime s authority The most significant of these uprisings was the republican dominated June Revolution of 1832 Victor Hugo and other contemporaries perceived the barricades of June as natural extensions of the cholera epidemic or the political continuation of a biological crisis The sad fate of the uprising however prompted republicans

to regroup and develop new strategies for success As a whole then 1832 helped solidify the end of the Bourbon monarchy and class identities and was a crucial moment in the re organization and growing solidification of French republicanism that paved the way for the Revolution of 1848 This edited collection examines these three pivotal events in French history in 1832 a royal Legitimist uprising led by the Duchesse de Berry the cholera epidemic and the June Revolution featured in the climax of Hugo s novel Les Misérables within the context of the legacy of the French Revolution While the events of 1832 are significant they have been relatively ignored because scholars have been distracted by the Revolutions of 1830 and 1848 This collection is the first piece of scholarship to examine these three events in an interconnected pattern to better examine France as it transitioned from a monarchy to a republic As a result this collection will be of value to both historians and academics studying diverse subfields within French and European studies

The End of the Schism Udi Greenberg,2025
The dramatic story behind an extraordinary transformation the reconciliation between Europe s Protestants and Catholics and the emergence of a new era of Christian collaboration For centuries Europe s Catholics and Protestants were bitter rivals each group blaming the other for violence and alleged moral decline Yet starting in the 1930s they swiftly made peace abandoning old stereotypes and even forming joint political parties and social organizations Why did these erstwhile adversaries suddenly start cooperating and what were the consequences A groundbreaking study The End of the Schism overturns conventional wisdom about this revolutionary change Udi Greenberg shows that ecumenism did not grow out of mutual tolerance Rather Christian thinkers and politicians on both sides of the Catholic Protestant divide came together to contain what they considered growing threats to Christian life socialism feminism and Afro Asian liberation movements This project of interconfessional peacemaking accelerated with the rise of the Nazis whose call for religious unity sparked intense debates among Christian denominations about their relationships with one another Their rapprochement culminated in the unfolding of the Cold War and decolonization when Catholic and Protestant authorities formally declared each other brethren in faith The End of the Schism makes clear the enormous consequences of the ecumenical revolution By working together Catholics and Protestants were able to design Europe s economic policies regulate its sexual practices and deeply shape its postwar relationship with the Global South As confessional attachments in Europe have weakened this coalition of Christians has only grown more cohesive leveraging their alliance to maintain influence across a politically fractured continent

The Darkest Sides of Politics, I Jeffrey M. Bale,2017-09-04 This book examines a wide array of phenomena that arguably constitute the most noxious extreme terrifying murderous secretive authoritarian and or anti democratic aspects of national and international politics Scholars should not ignore these dark sides of politics however unpleasant they may be since they influence the world in a multitude of harmful ways The first volume in this two volume collection focuses on the history of underground neo fascist networks in the post World War II era neo fascist paramilitary and terrorist groups operating in Europe and Latin America in the 1960s and 1970s and the manipulation of those and other terrorist organizations by the

security forces of various states both authoritarian and democratic A range of global case studies are included all of which focus on the lesser known activities of certain secular extremist milieus This collection should prove to be essential reading for students and researchers interested in understanding seemingly arcane but nonetheless important dimensions of recent historical and contemporary politics

The Turn to Transcendence Glenn Olsen,2010-06 A bold and provocative assessment of the current prospects for religion in our culture *Aristocratic Souls in Democratic Times* Richard Avramenko,Ethan Alexander-Davey,2018-05-07 Great statesmen and gentlemen men of honor and rank seem to be phenomena of a bygone Aristocratic era Aristocracies which emphasize rank and value difference quality beauty rootedness continuity stand in direct contrast to democracies which value equality autonomy novelty standardization quantity utility and mobility Is there any place for aristocratic values and virtues in the modern democratic social and political order This volume consists of essays by political theorists historians and literary theorists that explore this question in the works of aristocratic thinkers both ancient and modern The volume includes analyses of aristocratic virtues interpretations of aristocratic assemblies and constitutions both historic and contemporary as well as critiques of liberal virtues and institutions Essays on Tacitus Hobbes Burke Tocqueville Nietzsche as well as some lesser known figures such as Henri de Boulainvilliers John Randolph of Roanoke Louis de Bonald Konstantin Leontiev Jose Ortega y Gasset Richard Weaver and the Eighth Duke of Northumberland explore ways of preserving and adapting the salutary aspects of the aristocratic ethos to the needs of modern liberal societies

The Descent of Artificial Intelligence Kevin Padraic Donnelly,2024-07-15 The idea that a new technology could challenge human intelligence is as old as the warning from Socrates and Plato that written language eroded memory With the emergence of generative artificial intelligence programs we find ourselves once again debating how a new technology might influence human thought and behavior Researchers software developers and visionary tech writers even imagine an AI that will equal or surpass human intelligence adding to a sense of technological determinism where humanity is inexorably shaped by powerful new machines But among the hundreds of essays books and movies that approach the question of AI few have asked how exactly scientists and philosophers have codified human thought and behavior Rather than focusing on technical contributions in machine building The Descent of Artificial Intelligence explores a more diverse cast of thinkers who helped to imagine the very kind of human being that might be challenged by a machine Kevin Padraic Donnelly argues that what we often think of as the goal of AI has in fact been shaped by forgotten and discredited theories about people and human nature as much as it has been by scientific discoveries mathematical advances and novel technologies By looking at the development of artificial intelligence through the lens of social thought Donnelly deflates the image of artificial intelligence as a technological monolith and reminds readers that we can control the narratives about ourselves

Gateway to the French Revolution Edmund Burke,2024-08-27 Gateway to the French Revolution features voices critical of the French Revolution and its aftershocks Edmund Burke s critique of the Revolution is widely known and set into motion the

development of political Conservatism Also decrying the excesses of the Terror is Friedrich Gentz a lesser known Austrian diplomat who would become an architect of European peace after Napoleon's failed ambitions and Joseph de Maistre a Savoird nobleman whose own reflections would form a current of counter revolutionary reactionary that has continues to have implications in our contemporary world

Critics of the Enlightenment Christopher Olaf Blum,2020 **Modern Age** ,2006 **Liberal Humanism and the Non-western Other** Sushil Kumar,2014 **The Journal of Markets & Morality** ,2005 Sanctifying the World Bradley J. Birzer,2007 English historian and Christian humanist Christopher Dawson stood at the very center of the Catholic literary and intellectual revival in the four decades preceding Vatican II One can find his influence throughout the twentieth century Catholic Right Poet and social critic T S Eliot considered him the foremost thinker of his generation and the founder of American conservatism Russell Kirk wrote that he had been saturated in Dawsonian historical studies and my own books reflect Dawson's concepts Dawson's reputation declined dramatically during the cultural shifts accompanying Vatican II and few remembered the English Catholic in the final decades of the twentieth century A revival of interest of Dawson and his body of work increased dramatically in the last years of John Paul II's and the beginning of Benedict's pontificates This book offers the first study of Dawson's life and thought as a whole It is especially poignant as a post 9 11 reexamination of the meaning of Western civilization Sanctifying the World was named by biographer Joseph Pearce as the best book of 2008 and the National Catholic Register named it one of the top eleven books of the year *Beyond Capitalism & Socialism* Tobias J. Lanz,2008 Explaining the socio economic theory of distributism this anthology argues that political economic and social liberties and freedom are penalized under both socialism and capitalism With distributism and other third way alternatives to capitalism the human person the family and the community take precedence over bureaucrats and barons Society exists for man not the other way around *Faith & Reason* ,2004

Chronicles ,2005 Library Journal ,2003 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately **Book Review Index** ,2006 Every 3rd issue is a quarterly cumulation **The Publishers Weekly** ,2003 **Encyclopedia of Catholic Social Thought, Social Science, and Social Policy** Michael L. Coulter,Richard S. Myers,2007 With more than 800 topics from over 300 contributors Encyclopedia of Catholic Social Thought Social Science and Social Policy is a comprehensive introduction to the Catholic vision of society social relations and the human being It combines theoretical work on important topics and scholarly disciplines e g economics moral theology natural law philosophy psychology social science perspectives on a variety of topics e g alcoholism and drug abuse forgiveness and mercy globalization and treatment of practical policy implications that flow from applying the Catholic religious moral and intellectual tradition to contemporary issues e g abortion assisted suicide immigration policy school choice torture The book reflects a broad range of Catholic thought that is international in scope but with an emphasis on the American situation Its interdisciplinary approach offers

insights from a variety of perspectives theological philosophical historical economical sociological political psychological and legal The work will appeal to individuals who want a clear and accurate introduction to Catholic social thought and a Catholic informed social science and social policy One certainly need not be a devotee and advocate for Catholic social thinking to find this encyclopedia of good use as a handy reference tool
