Critics Who Made Us Essays From Sewanee Review:

The Critics who Made Us George Core,1993 Collects essays published in the last seven years in the distinguished literary journal that reevaluates eminent British and American literary critics of the 20th century Among those whose work is discussed are Eliot Pound Frye and Trilling Wilson Cowley Burke Warren Jarrell and Brooks virtually all of whom shared a commitment to the craft of criticism wrote poetry or fiction and also left their mark as editors Annotation copyright by Book News Inc Portland OR

Cleanth Brooks and the Rise of Modern Criticism Mark Royden Winchell,1996 During a career that spanned sixty years Cleanth Brooks was involved in most of the major controversies facing the humanities from the 1930s until his death in 1994 He was arguably the most important American literary critic of the mid twentieth century Because it is impossible to understand modern literary criticism apart from Cleanth Brooks or Cleanth Brooks apart from modern literary criticism Mark Royden Winchell gives us not only an account of one man s influence but also a survey of literary criticism in twentieth century America More than any other individual Brooks helped steer literary study away from historical and philological scholarship by emphasizing the autonomy of the text He applied the methods of what came to be called the New Criticism not only to the modernist works for which these methods were created but to the entire canon of English poetry from John Donne to William Butler Yeats In his many critical books especially *The Well Wrought Urn* and the textbooks he edited with Robert Penn Warren and others Brooks taught several generations of students how to read literature without prejudice or preconception

The New Criticism Alfred J. Drake,2014-07-03 This volume covers a variety of authors and topics related to the New Criticism school of the 1920s 1950s in America Contributors trace the history of the New Criticism as a movement consider theoretical and practical aspects of various proponents and assess the record of subsequent engagement with its tenets The volume will prove valuable for its renewed concentration not only on the New Critics themselves but also on the way they and their work have been contextualized criticized and valorized by theorists and educators during and after their period of greatest influence both in the United States and abroad

The Sewanee Review ,1922 **Radical Empiricists** Helen Thaventhiran,2015 Radical Empiricists presents a new history of criticism in the first half of the twentieth century against the backdrop of the modernist crisis of meaning Our received idea of modernist criticism is that its novelty

lay in being very empirical critics believed in looking closely at words on the page Such close reading has since been easy to ridicule but this book seeks to consider whether this is fair have we in the rush either to dismiss or even to defend the idea of close reading often failed to look closely at what it involves in practice Against this oversight Radical Empiricists turns close reading back on itself proposing some innovative readings of the prose of five major modernist poet critics I A Richards T S Eliot William Empson R P Blackmur and Marianne Moore The book is divided into two parts preceded by an introduction that explores what these five writers share a radical self consciousness about the key critical concept meaning Part I How to read considers the prose techniques of Eliot Richards and Empson as they push at the boundaries of verbal analysis in other disciplines experimental psychology and anthropology classical commentary and textual criticism Part II introduces Blackmur and Moore alongside Empson and takes a more polemical look at how their critical styles defy various modernist orthodoxies about how not to read for example that paraphrase always destroys poetic meaning Many of these orthodoxies remain current re visiting their history and attending to the rich detail of critical prose styles can allow us to lift some old unreflective constraints on our ways of knowing about poems American Writers Jay Parini,2004-10 Contains biographical and critical essays on the work of important American writers Presents scholar signed essays prepared by experts in the field

The Reception of Northrop Frye ,2021-08-31 The widespread opinion is that Northrop Frye s influence reached its zenith in the 1960s and 1970s after which point he became obsolete his work buried in obscurity This almost universal opinion is summed up in Terry Eagleton s 1983 rhetorical question Who now reads Frye In *The Reception of Northrop Frye* Robert D Denham catalogues what has been written about Frye books articles translations dissertations and theses and reviews in order to demonstrate that the attention Frye s work has received from the beginning has progressed at a geomantic rate Denham also explores what we can discover once we have a fairly complete record of Frye s reception in front of us such as Hayden White s theory of emplotments applied to historical writing and Byron Alm n s theory of musical narrative The sheer quantity of what has been written about Frye reveals that the only valid response to Eagleton s rhetorical question is a very large and growing number the growth being not incremental but exponential The American Humanities Index Stephen H. Goode,1997 **The Virginia Quarterly Review** ,1994 **American Journal of Philology** Basil Lanneau Gildersleeve,Charles William Emil Miller,Benjamin Dean Meritt,Tenney Frank,Harold Fredrik Cherniss,Henry Thompson Rowell,1923 Each number includes Reviews and book notices **American Literary Scholarship - 1993** American Literary Scholarship,1995-06 **Twentieth-century Literary Criticism** Gale Research Company,2006 Excerpts from criticism of the works of novelists poets playwrights and other creative writers 1900 1960 The Mississippi Quarterly ,1994 American Literary Magazines Edward E. Chielens,1992-08-24 The history of modern American literature is inextricably tied to the history of the literary magazine Conversely in the individual histories of these magazines can be gleaned highlights of literary activity and insights on the writers and editors in the forefront The literary magazines of the

twentieth century most of them known as little because of small budgets and circulation and short lives number in the thousands Some like the venerable New Yorker have enjoyed wide circulation for well over half a century others like The Fugitive published in Nashville Tennessee in the early 1920s were regional and or experimental and short lived Of these thousands editor Edward E Chielens has selected seventy six of the most significant for description and analysis in individual historical essays An additional one hundred magazines are briefly profiled in an appendix Forty three scholars and writers contributed to this volume Following the pattern established in Chielens s earlier complementary volume American Literary Magazines The Eighteenth and Nineteenth Centuries the magazine essays also provide appended data on information sources and publishing history The volume introduction discusses the characteristics of different types of literary magazines in the twentieth century and their sponsoring organizations or individuals as well as the influence on their development of leading literary figures such as Ezra Pound and H L Mencken This discussion is bolstered by a chronological appendix to the volume presenting highlights in the history of literary magazines in the perspective of events in literary history An additional appendix provides a directory of major collections of literary magazines in the United States and Canada with descriptions of their holdings
