

Habermas's Critique of Modernity

1. The 'empirical' knowledge interest in control is necessary but now dominates modernity by excluding the hermeneutic and critical interests; re Weber on instrumental rationality i.e. modernity is a 'one-sided' rationality
2. Consequence: Legitimation Crisis:
 - a) Separation of efficiency-led social systems from the normative basis of the lifeworld

Critique Of Modernity:

Critique of modernity Alain Touraine,1995 **Architecture and Modernity** Hilde Heynen,2000-02-28 Bridges the gap between the history and theory of twentieth century architecture and cultural theories of modernity In this exploration of the relationship between modernity dwelling and architecture Hilde Heynen attempts to bridge the gap between the discourse of the modern movement and cultural theories of modernity On one hand she discusses architecture from the perspective of critical theory and on the other she modifies positions within critical theory by linking them with architecture She assesses architecture as a cultural field that structures daily life and that embodies major contradictions inherent in modernity arguing that architecture nonetheless has a certain capacity to adopt a critical stance vis vis modernity Besides presenting a theoretical discussion of the relation between architecture modernity and dwelling the book provides architectural students with an introduction to the discourse of critical theory The subchapters on Walter Benjamin Ernst Bloch Theodor Adorno and the Venice School Tafuri Dal Co Cacciari can be studied independently for this purpose *The Critique of Modernity* Julian N. Hartt,Ray L. Hart,Robert P. Scharlemann, *The Critique of Modernity* Julian Norris Hartt,Ray L. Hart,Robert P. Scharlemann,1986 **Multiple Experiences of Modernity** Oliver Kozlarek,2014

Contemporary theories of modernity recognize the plurality or multiplicity of modernities Often the differences are seen as institutional or cultural differences Although this sort of research is important it cannot be ignored that it does not provide a clear understanding of the human consequences The tradition that today is known under the name of Critical Theory on the contrary has been interested always first of all in the human consequences This book wants to follow this ambition The question it tries to search answers for is what are the experiences that human beings are making in and within global modernity Another question is important what are the affinities and what are the differences Also Critical Theory was mainly interested in the Western experiences with and within global modernity The book will challenge this limited view by looking how modernities is experienced in other parts of the world 0Following the tradition of critical theory the volume enquires into the experiences people make with and in global modernity It thereby seeks to draw attention to both affinities and differences in these experiences and to depart from the western horizon of experience and consider other forms of experience Current theories of modernity are based on the assumption of the diversity of modernity This diversity is frequently understood to be the outcome of institutional and cultural differences *The Critique of Modernity in the Work of Richard M. treating them as a coherent narrative of philosophical response to the social and political crises of the times Grounded in a reinterpretation of the foundational film philosopher Andr Bazin and drawing on work from a range of disciplines film studies art history comparative literature political and cultural history the book s coordinated consideration of Renoir s films writings and interviews demonstrates his obsession with the concept of romanticism Renoir saw romanticism to be a defining feature of modernity a hydra headed malady which intimately shapes our personal lives culture and politics blinding us and locking us into agonistic relationships and conflict While mapping the popular manifestations of romanticism that Renoir engaged with at the time this study restores the philosophic weight of his critique by tracing the phenomenon back to its roots in the work and influence of Jean Jacques Rousseau who first articulated conceptions of human desire identity community and history that remain pervasive today Prakash Younger argues that Renoir s films of the 1930s articulate a multi stranded narrative through which the director thinks about various aspects of romanticism and explores the liberating possibilities of an alternative paradigm illuminated by the thought of Plato Montaigne and the early Enlightenment When placed in the context of the long and complex dialogue Renoir had with his audience over the course of the decade masterpieces such as *La Grande Illusion* and *La R gle du Jeu* reveal his profound engagement with issues of political philosophy that are still very much with us today *Charles Taylor, Michael Polanyi and the Critique of Modernity* Charles W. Lowney II, 2017-12-15 This book provides a timely compelling multidisciplinary critique of the largely tacit set of assumptions funding Modernity in the West A partnership between Michael Polanyi and Charles Taylor s thought promises to cast the errors of the past in a new light to graciously show how these errors can be amended and to provide a specific cartography of how we can responsibly and meaningfully explore new possibilities for ethics political society and religion in a post modern modernity **Dialectic of Romanticism** Peter Murphy, David Roberts, 2005-10-01 *Dialectic of Romanticism* presents a radical new assessment of the aesthetic and philosophical history and future of modernity An exploration of the internal critique of modernism treats romanticism later historicism and post modernism as central to the development of European modernism alongside enlightenment and like the enlightenment subject to its own dead ends and fatalities An external critique of modernism recovers concepts of civilization and civic aesthetics which are trans historical simultaneously modern and classically inspired and provides a counter both to romantic historicism and enlightened models of progress Finally a retrospective critique of modernism analyses what happens to modernism s romantic archaic and technological futurist visions when they are translated from Europe to America *Dialectic of Romanticism* argues that out of the European dialectic of romanticism and enlightenment a new dialectic of modernity is emerging in the New World one which points beyond modernism and postmodernism *Critique of Everyday Life, Vol. 3* Henri Lefebvre, 2008-02-17 Henri Lefebvre s magnum opus a monumental exploration of contemporary society Henri Lefebvre s three volume *Critique of Everyday Life* is perhaps the richest most prescient work by one of the twentieth century s greatest philosophers Written at the birth of post war

consumerism the Critique was a philosophical inspiration for the 1968 student revolution in France and is considered to be the founding text of all that we know as cultural studies as well as a major influence on the fields of contemporary philosophy geography sociology architecture political theory and urbanism A work of enormous range and subtlety Lefebvre takes as his starting point and guide the trivial details of quotidian experience an experience colonized by the commodity shadowed by inauthenticity yet one which remains the only source of resistance and change This is an enduringly radical text untimely today only in its intransigence and optimism *Critique of Modernity A Study in Tolstoy and Gandhi* Leonovna

Akulova,2022-09-05 Introduction This thesis falls in the area of social and political philosophy which has become one of the frontal areas of philosophical research thanks to its organic relation with not only ethics but also metaphysics that is social and human ontology and epistemology This is not surprising because the recent developments in sociopolitical philosophy have reopened the various issues concerning the social world human nature including its relation to the natural world the nature of knowledge belief and ideology and of course our responses to the issues right wrong distinction One of the central themes of contemporary social and political philosophy is modernity As Charles Taylor rightly says from the beginning the number one problem of modern social science has been modernity itself 2004 1 However he could have added humanities in this connection Whether it is in the literary studies or historical studies or in philosophical studies modernity has emerged as a core theme The very fact that the theme has commanded such a multifarious approaches speaks immensely of its intellectual richness In fact it is one of the prime themes of what today goes by multidisciplinary or transdisciplinary inquiry The thematic significance mentioned above owes itself to the following reasons firstly modernity is primarily adoption not of certain targets or technological innovations but of certain attitudes beliefs and commitments which together constitute what Charles Taylor calls a social imaginary which is radically distinct from its pre modern counterpart and which makes intelligible our present day institutional practices and ways of living Secondly modernity has brought about a fundamental division between its protagonists and antagonists not only at a global level and at the level of distinct social settings but also at the level of individual **Pragmatic Liberalism and the Critique of Modernity** Gary Gutting,1999-02-13 In this book

Gary Gutting offers a powerful account of the nature of human reason in modern times The fundamental question addressed by the book is what authority human reason can still claim once it is acknowledged that our fundamental metaphysical and religious pictures of the world no longer command allegiance Gutting analyzes the work of three dominant philosophical voices in our time Richard Rorty Alasdair MacIntyre and Charles Taylor His own position is defined as pragmatic liberalism The book will appeal to readers in such fields as philosophy literature and political theory The interpretations of Rorty MacIntyre and Taylor will make the book suitable as a coursebook for those teaching the history of modern philosophy

Notes Bibliography Index Critique of Everyday Life: From modernity to modernism (towards a metaphilosophy of daily life) Henri Lefebvre, 1991 Henri Lefebvre's three volume Critique of Everyday Life is perhaps the richest most prescient work by one of the twentieth century's greatest philosophers. Written at the birth of post war consumerism the Critique was a philosophical inspiration for the 1968 student revolution in France and is considered to be the founding text of all that we know as cultural studies as well as a major influence on the fields of contemporary philosophy geography sociology architecture political theory and urbanism. A work of enormous range and subtlety Lefebvre takes as his starting point and guide the trivial details of quotidian experience an experience colonized by the commodity shadowed by inauthenticity yet one which remains the only source of resistance and change. Back cover **Hegel's Critique of Modernity** Timothy C. Luther, 2009-01-01 Hegel's enduring importance lies in the fact that his philosophy sheds light on many contemporary problems his conception of freedom enables us to reconcile many of the differences that divide liberalism and communitarianism. While liberalism tends to overemphasize the individual and devalue the community communitarianism tends to do the reverse. One of his central aims is to integrate liberalism's concern for the political rights and interests of individuals within the framework of a community. He tries to reconcile the individual and community in a way that creates the proper mix of liberty and authority. One of Hegel's goals is to discover social structures that will allow individuals to escape the alienation that characterizes contemporary life. He sought a method of reconciling his contemporaries to the modern world by overcoming the things that split the self from the social world that is a place where people are at home in the social world. A sense of estrangement is all too common even for those who enjoy more personal freedom and material abundance than ever thought possible. While Hegel is speaking directly to and about his contemporaries their social world bears much in common with ours. Consequently his attempt to reconcile philosophical and social contradictions can elucidate our own condition. While the modern world reflects important contributions the advent of modern liberalism leads to excessive individualism that fragments social life leaving individuals disconnected and adrift from meaningful social life. The major goal of Hegel's political philosophy is to reconcile the individual with his or her political community in a way that overcomes the alienation of modern life. **The Critique of Pure Modernity** David Kolb, 1986 Modernity is a troubling concept not only for scholars but for the general public for it seems to represent a choice between oppressive traditions and empty rootless freedom. Seeking a broader understanding of modernity Kolb first considers the views of Weber and then discusses in detail the pivotal writings of Hegel and Heidegger. He uses the novel strategy of presenting Heidegger's critique of Hegel and then suggesting the critique of Heidegger that Hegel might have made. Kolb offers his own views proposing the possibility of a meaningful life that is free but still rooted in shared contexts. He concludes with comments on postmodernity as discussed by Lyotard and others arguing persuasively against the presupposition of a unified Modern or Postmodern Age. **Politics and Social Theory** Peter Lassman, 2013-09-05 First published in 1989 this Routledge Revival is a major collection of essays on

the competing traditions of social and political theory The contributions by international scholars reflect the re examination of the boundaries between the political and the social the public and private and state and society The reissue will be of great value to students in both sociology and political science Bringing new arguments to bear on the debate about the place of political theory in social science the contributors discuss such issues as the different languages used by sociologists to describe the state Marxist and socialist theory class analysis the welfare state feminist political theory and the impact of post modernity on contemporary social thought *Melancholy and the Critique of Modernity* Harvie Ferguson, 2005-08-10 The connections between the emergence of modern society and the experience of melancholy are explored through a comprehensive re examination of Soren Kierkegaard s rich and insightful writings *Dialectic of Romanticism* David Roberts, Peter Murphy, 2004
