Critique Of Linguistic Philosophy:

A Critique of Linguistic Philosophy C. W. K. Mundle, 1970 *A Critique of Linguistic Philosophy with Second Thoughts* C. W. K. Mundle, 1979 Professor Mundle's authoritative and acclaimed critique of a way of thinking which still shapes the style of Anglo Saxon philosophy is here presented in a revised text with a new postscript Mundle shows how Austin Ryle and Wittgenstein among others not only committed grammatical and logical errors akin to those they themselves detected in others but misunderstood the relations between grammar and philosophy Professor P L Heath contributes a new foreword and Mundle himself answers his opponents in a subtly provocative manner **Clarity Is Not Enough** H. D. Lewis, 2016-08-12 This book originally published in 1963 provides a sample of the criticisms of philosophers on the course of linguistic philosophy A chronological order is followed with work ranging from that of traditionalist thinkers to second thoughts about linguistic philosophy on the part of writers who have been influenced by the movement Why Does Language Matter to Philosophy? Ian Hacking, 1975-09-26 Many people find themselves dissatisfied with recent linguistic philosophy and yet know that language has always mattered deeply to philosophy and must in some sense continue to do so Ian Hacking considers here some dozen case studies in the history of philosophy to show the different ways in which language has been important and the consequences for the development of the subject There are chapters on among others Hobbes Berkeley Russell Ayer Wittgenstein Chomsky Feyerabend and Davidson Dr Hacking ends by speculating about the directions in which philosophy and the study of language seem likely to go The book will provide students with a stimulating broad survey of problems in the theory of meaning and the development of philosophy particularly in this century The topics treated in the philosophy of language are among the central current concerns of philosophers and the historical framework makes it possible to introduce concretely and intelligibly all the main theoretical issues Mauthner's Critique of Language Gershon Weiler, A Critique of Linguistic Philosophy C. W. K. Mundle, 1979 *Philosophy of Language: Meaning, Truth, and Linguistic Critique* Boreas M.L. Saage, Philosophy of Language Meaning Truth and Linguistic Critique offers a comprehensive exploration of how language shapes our understanding of reality and mediates our access to truth This thoughtfully structured work navigates the complex terrain where language thought and world intersect The book begins by tracing the historical development of philosophy of language from ancient Greek considerations by Plato and Aristotle through medieval debates on universals to modern linguistic turns It systematically addresses fundamental questions about the relationship between language and reality competing theories of meaning and the persistent problem of reference Readers will discover how different methodological approaches analytical phenomenological and hermeneutical provide complementary insights into linguistic phenomena The text carefully examines how language both enables and constrains human knowledge with particular attention to the Sapir Whorf hypothesis and the cognitive role of metaphors A substantial portion is devoted to various conceptions of truth in language comparing correspondence coherence and pragmatic theories while exploring how linguistic

categorization systems structure our understanding of the world The critique of language emerges as a central theme examining logical critiques in the tradition of Frege and Russell ideological analysis of linguistic structures and Wittgenstein's therapeutic approach These theoretical frameworks are applied to practical concerns identifying manipulative language clarifying vague concepts and developing more precise specialized vocabularies The social dimensions of language receive thorough treatment through Foucauldian discourse analysis speech act theory and examination of communicative patterns in media politics and science The book concludes with reflections on language ethics the structure of philosophical dialogue and the importance of linguistic self awareness This volume will appeal to students and scholars interested in the philosophy of language critique of language and the intersection of linguistic analysis with broader philosophical and social questions

Linguistic Philosophy Garth Hallett, 2008-02-28 Explores the role language plays in the relationship between reality and utterance Words and Things Ernest Gellner, 2005 First published in 1959 this classic challenge to the prevailing philosophical orthodoxy of the day remains the most devastating attack on a conventional wisdom in philosophy to this day

Causality in Linguistic Theory Esa Itkonen, 1983 The author seeks to examine the methodological and philosophical status of non autonomous that is causal linguistics *A Marxist Philosophy of Language* Jean-Jacques Lecercle, 2006-08-01 The purpose of this book is to give a precise meaning to the formula English is the language of imperialism Understanding that statement involves a critique of the dominant views of language both in the field of linguistics the book has a chapter criticising Chomsky's research programme and of the philosophy of language the book has a chapter assessing Habermas's philosophy of communicative action The book aims at constructing a Marxist philosophy of language embodying a view of language as a social historical material and political phenomenon Since there has never been a strong tradition of thinking about language in Marxism the book provides an overview of the question of Marxism in language from Stalin's pamphlet to Voloshinov's book taking in an essay by Pasolini and it seeks to construct a number of concepts for a Marxist philosophy of language The book belongs to the tradition of Marxist critique of dominant ideologies It should be particularly useful to those who in the fields of language study literature and communication studies have decided that language is not merely an instrument of communication **The Language of Criticism** John Casey, 1966 Discusses the place of emotion in our response to works of art the objectivity of critical judgements and the relations between literature and morality

A Critique of Linguistics Philosophy C.W.K. Mundle, 1970 Philosophical and Formal Approaches to Linguistic Analysis Piotr Stalmaszczyk, 2013-05-02 Articles gathered in the volume focus on traditional and contemporary debates within the philosophy of language and on the interfaces between linguistics philosophy and logic The topics of individual contributions cover such diverse issues as analytic accounts of the a priori and implicit definitions medieval and contemporary theories of fallacy game theoretical semantics modal games in natural language and literary semantics possible world theories and paradoxes involving structured propositions extensions to Dynamic Syntax semantics of proper names judgement

dependence tacit knowledge and linguistic understanding ontology in semantics implicit knowledge and theory of meaning and many more The multitude of topics shows that the convergence of linguistic philosophical formal and cognitive approaches opens new research perspectives within contemporary philosophy of language and linguistics The volume includes contributions by among other authors Luis Fernandez Moreno Madrid Chris Fox Essex Ruth Kempson London Alexander Miller Birmingham Arthur Sullivan Newfoundland Mieszko Talasiewicz Warsaw **Makers of Modern Culture** Justin Wintle, 2002 This volume provides lively and clearly written expositions of those figures who have done most to shape our views in the period since 1914 Music cinema drama art fiction poetry and philosophy are just some of the fields covered

Philosophy of Language and Linguistics Piotr Stalmaszczyk, 2014-06-23 The present volume investigates the legacy of Gottlob Frege Bertrand Russell and Ludwig Wittgenstein in contemporary philosophy of language and linguistics These philosophers inspired both the development of analytic philosophy and various philosophical approaches to the study of language They have influenced technical discussions on truth proper names definite descriptions propositions and predication sense and reference truth and philosophical and linguistic inquiries into the relations between language mind and the world The studies gathered in this volume discuss most of these issues and aim to show that the results of this research are still of utmost importance and that the three philosophers have significantly contributed to the linguistic turn in philosophy and the philosophical turn in the study of language The volume includes contributions by Joachim Adler Zurich Maria Cerezo Murcia Pawel Grabarczyk Lodz Arkadiusz Gutt Lublin Tom Hughes Durham Gabriele Mras Vienna Carl Humphries Cracow Gary Kemp Glasgow Siu Fan Lee Hong Kong Jaroslav Peregrin Prague Ulrich Reichard Durham Piotr Stalmaszczyk Lodz Piotr Szalek Lublin Mieszko Talasiewicz Warsaw **Words and Things** Ernest Gellner, 1959 The Idea of God and Moral Sense in the Light of Language Herbert Baynes, 1895 *Introduction to the Philosophies of Research and Criticism in Education and the Social Sciences* James L. Paul, 2005 This rigorous volume focuses on the underlying perspectives justifying the major approaches currently being used in educational research Introductory chapters lay the foundation for exploring varying research perspectives Nine specific perspectives on research post positivism pragmatism constructivism ethics and deliberate democracy criticism interpretivism race ethnicity gender arts based research and post structuralism are examined through discussions written by senior scholars known for their expertise in the perspective And a guided tour of criticism is given in which these same scholars demonstrate the use of the critical method by critiquing six studies selected as exemplars of different research approaches For education students who aspire to become researchers and for those who simply need to read and understand research literature Language and World Richard Gaskin, 2020-07-06 This book defends a version of linguistic idealism the thesis that the world is a product of language In the course of defending this radical thesis Gaskin addresses a wide range of topics in contemporary metaphysics philosophy of language philosophical logic and syntax theory Starting from the context and compositionality principles and the idea of a

systematic theory of meaning in the Tarski Davidson tradition Gaskin argues that the sentence is the primary unit of linguistic meaning and that the main aspects of meaning sense and reference are themselves theoretical posits Ontology which is correlative with reference emerges as language driven This linguistic idealism is combined with a realism that accepts the objectivity of science and it is accordingly distinguished from empirical pragmatism Gaskin contends that there is a basic metaphysical level at which everything is expressible in language but the vindication of linguistic idealism is nuanced inasmuch as there is also a derived level asymmetrically dependant on the basic level at which reality can break free of language and reach into the realms of the unnameable and indescribable Language and World will be of interest to scholars and advanced students working in metaphysics philosophy of language and linguistics
