Bitterli, 2009-01-01 Perhaps the most enigmatic cultural artifacts that survive from the Anglo-Saxon period are the Old English riddle poems that were preserved in the tenth-century Exeter Book manuscript. Clever, challenging, and notoriously obscure, the riddles have fascinated readers for centuries and provided crucial insight into the period. In *Say What I Am Called*, Dieter Bitterli takes a fresh look at the riddles by examining them in the context of earlier Anglo-Latin riddles. Bitterli argues that there is a vigorous common tradition between Anglo-Latin and Old English riddles and details how the contents of the Exeter Book emulate and reassess their Latin predecessors while also expanding their literary and formal conventions. The book also considers the ways in which convention and content relate to writing in a vernacular language. A rich and illuminating work that is as intriguing as the riddles themselves, *Say What I Am Called* is a rewarding study of some of the most interesting works from the Anglo-Saxon period. **Animal Narratology** Joela Jacobs, 2020-12-15

Animal Narratology interrogates what it means to narrate, to speak, to speak for on behalf of, and to voice or represent life beyond the human, which is in itself as different as insects, bears, and dogs are from each other and yet more as individual as a single mouse, horse, or puma. The varied contributions to this interdisciplinary Special Issue highlight assumptions about the human perception of attitude toward and responsibility for the animals that are read and written about, thus demonstrating that just as the animal does not exist, neither does the human. In their zoopoetic focus, the analyses are aware that animal narratology ultimately always contains an approximation of an animal perspective in human terms and terminology, yet they make clear that what matters is how the animal is approximated and that there is an effort to approach and encounter the non-human in the first place. Many of the analyses come to the conclusion that literary animals give readers the opportunity to expand their own points of view, both on themselves and others, by adopting another's perspective to the degree that such an endeavor is possible. Ultimately, the contributions call for a recognition of the many spaces, moments, and modes in which human lives are entangled with those of animals, one of which is located within the creative bounds of storytelling. **A to Zoo** Rebecca L.
