Exploring Animal Encounters

Dominik Ohrem, Matthew Calarco, 2018-07-28 This collection of essays offers multifaceted explorations of animal encounters in a range of philosophical cultural literary and historical contexts *Exploring Animal Encounters* encourages us to think about the richness and complexity of animal lives and human animal relations foregrounding the intricate roles nonhuman creatures play in the always already more than human sphere of ethics and politics In this way the essays in this volume can be understood as a contribution to alternative imaginings of interspecies coexistence in a time in which the issue of human relations with earth and earth others has come to the fore with unprecedented force and severity

Animal Encounters Susan Crane, 2012-11-29 Traces of the living animal run across the entire corpus of medieval writing and reveal how pervasively animals mattered in medieval thought and practice In fascinating scenes of cross species encounters a raven offers St Cuthbert a lump of lard that waterproofs his visitor's boots for a whole year a scholar finds inspiration for his studies in his cat's perfect focus on killing mice and a dispossessed knight wins back his heritage only to give it up again in order to save the life of his warhorse Readers have often taken such encounters to be merely figurative or fanciful but Susan Crane discovers that these scenes of interaction are firmly grounded in the intimate cohabitation with animals that characterized every medieval milieu from palace to village The animal encounters of medieval literature reveal their full meaning only when we recover the living animal's place within the written animal The grip of a certain humanism was strong in medieval Britain as it is today the humanism that conceives animals in diametrical opposition to humankind Yet medieval writing was far from univocal in this regard Latin and vernacular works abound in other ways of thinking about animals that invite the saint the

scholar and the knight to explore how bodies and minds interpenetrate across species lines Crane brings these other ways of thinking to light in her readings of the beast fable the hunting treatise the saint's life the bestiary and other genres Her substantial contribution to the field of animal studies investigates how animals and people interact in culture making how conceiving the animal is integral to conceiving the human and how cross species encounters transform both their animal and their human participants City Creatures Gavin Van Horn, David Aftandilian, 2015-11-03 Published in collaboration with The Center for Humans and Nature Title page verso *Animal Encounters Trail Tales* Amy Kelley Hoitsma, 2013 A portable and family friendly collection of some of the most classic and entertaining animal stories perfect to share around the campfire **Violent Child-Animal Encounters in European Literatures** Valeska Bopp-Filimonov, Marina Ortrud M. Hertrampf, 2025-12-24 Child animal encounters are omnipresent in literature but the fact that these interactions are sometimes marked by violence remains rather underrepresented in literary studies Thus this volume examines the complex interplay of childhood animality and violence in European literatures The contributors show that animal child conflicts are often representative of larger issues such as social and intergenerational inequalities deeply embedded in broader ideological and social frameworks whether read through the lens of colonialism capitalism or communism these encounters negotiate fundamental questions about hierarchy dominance and agency **Animal Encounters** Atif Toor, 2005 Ideal for today's young investigative reader each A True Book includes lively sidebars a glossary and index plus a comprehensive To Find Out More section listing books organizations and Internet sites A staple of library collections since the 1950s the new A True Book series is the definitive nonfiction series for elementary school readers *The Animal Dialogues* Craig Childs, 2007-12-12 From one of the finest nature writers at work in America today a lyrical dramatic illuminating tour of the hidden domain of wild animals Whether recalling the experience of being chased through the Grand Canyon by a bighorn sheep swimming with sharks off the coast of British Columbia watching a peregrine falcon perform acrobatic stunts at 200 miles per hour or engaging in a tense face off with a mountain lion near a desert waterhole Craig Childs captures the moment so vividly that he puts the reader in his boots Each of the forty brief compelling narratives in *The Animal Dialogues* focuses on the author's own encounter with a particular species and is replete with astonishing facts about the species behavior habitat breeding and lifespan But the glory of each essay lies in Childs's ability to portray the sometimes brutal beauty of the wilderness to capture the individual essence of wild creatures to transport the reader beyond the human realm and deep inside the animal kingdom **Epic Encounters in the Animal Kingdom (Brave Adventures Vol. 2)** Coyote Peterson, 2019-09-10 Wildlife expert and YouTube phenomenon Coyote Peterson is back with the sequel to the bestselling *Brave Adventures Wild Animals in a Wild World* Once again Coyote and his crew voyage to new environments and encounter an even more eclectic ensemble of the planet's animals From a slimy octopus to elusive tree climbing lizards to nomadic wolverines this book promises to be another fast paced wild experience Coyote will take readers for a hike through a snake

infested island kayak the ocean to discover a migrating pod of killer whales and track a pride of lions across the South African savanna You don't want to miss these never before told brave adventures guaranteed to be a hit with Coyote's 13 million fans as well as animal lovers around the world Includes over one hundred hand drawn black and white illustrations throughout Animal Ecology Royal Norton Chapman, 1926 Tales of the Beartooth John C.
