Spignesi, 2003 Traces the history of crop circles providing an overview of the crop circle mystery and speculating as to what they might mean and where they come from **Crop Circles** Michael Glickman, 2009-05-12 How does mankind deal with miracles This question has assumed a more than theoretical importance in the life of Michael Glickman who has been witnessing the miraculous on a regular basis since he investigated his first crop circle in 1990 In the years since then an intensive study of the crop circle phenomenon in the region of its most important appearances the English countryside has given Glickman extraordinary personal insight into a subject usually known only through secondhand reports and speculation More than eight years in the writing *Crop Circles The Bones of God* is unique among books on this modern enigma in that it combines the author's firsthand field encounters with some of the most famous crop circle formations such as Alton Barnes 1990 and Silbury Hill 1997 as well as more recent circles with intricate and dazzling analyses of the structure and content of those formations This beautifully illustrated mix of personal narrative with detailed study informs a larger discussion of the role of crop circles in the modern world and their unprecedented promise of new chapters in the history of consciousness *Crop Circles* Pat Delgado, 1992 Contains over 100 breathtaking aerial photographs and groundshots all in colour of the latest manifestations of the crop circle phenomenon both in the UK and abroad The New Circlemakers Andrew Collins, 2009-03 What is the mystery of the crop circles Are they manmade or supernatural Today the majestic crop formations grace the very same pastures of southern England that in the past were the haunts of fairies hobgoblins and mysterious lights Here too are some of Britain's most spectacular prehistoric landscapes Stonehenge Avebury and Silbury Hill all act as ominous backdrops to the crop circle phenomenon Did our ancestors know something about this beguiling enchanting landscape that we are only now waking up to for the first time Is there a higher intelligence responsible for such creations and if so who are they and what are they trying to tell us Bizarrely the answer might lie not here on earth but 37 000 light years away in the constellation of Cygnus the Northern Cross where lurks a star perhaps responsible not only for the foundation of the world's earliest stone monuments but for the emergence of humanity itself Crop Circles Nick Kollerstrom, 2002 This is a new way of experiencing the crop circle mystery through the geometry of the forms revealed in crops The mathematics is sound and the work is presented through colourful photographs and illustrations *Crop Circles* Mary Carroll Nelson, 2007 Since the late 1970s crop circles have been appearing in grain fields all across the globe but especially in Southern England These large graphic designs are created through the contrast between the light catching flattened grain swirled to the ground and the darker grain left standing in the fields The beauty of the art can be seen in its entirety from the air and such space filling dynamic patterns are evidence that creative intelligent CircleMakers are intentionally marking the Earth But why they do it

and who they are remain mysteries In *Crop Circles* Mary Nelson speculates on possible answers to these questions Nelson takes the view that crop circles are a new art form The record of civilization can be read through a study of art history Today CircleMakers are using land as a canvas She asks what do crop circles reveal about our own period Are these huge artworks alerting us to increase our awareness to follow an elevated path more spiritual and less material more in harmony and less adversarial more of a circle than a box so that humanity can at last fulfill its evolutionary destiny instead of destroying itself In *Crop Circles* Nelson combines the viewpoint of an art historian with that of artist and seeker to probe the connection between the crop formations and developments in contemporary thought There is also a special hardcover edition available with a linen slipcase and accompanied by original artwork by Mary Carroll Nelson
