Crossing The Border:

Crossing Borders Michelle Ann Miller, Michael Douglass, Matthias Garschagen, 2017-12-06 This multidisciplinary book examines the diverse ways in which environmental disasters with compounding impacts are being governed as they traverse sovereign territories across rapidly urbanising societies in Asia and the Pacific Combining theoretical advances with contextually rich studies the book examines efforts to tackle the complexities of cross border environmental governance In an urban age in which disasters are not easily contained within neatly delineated jurisdictions both in terms of their interconnected causalities and their cascading effects governance structures and mechanisms are faced with major challenges related to cooperation collaboration and information sharing This book helps bridge the gap between theory and practice by offering fresh insights and contrasting explanations for variations in transboundary disaster governance regimes among urbanising populations in the Asia Pacific Constructing a Cross-Border Region in the Pacific Northwest

Cross-Border Management Rongxing Guo, 2015-01-05 This book presents a new approach to management in an increasingly interactive world In this context the use of the word new has two meanings The first relates to a new definition of borders which are natural institutional functional or mixed the second concerns the fact that the book applies and where necessary develops analytical tools methods and models that are different from those used in other similar books The objectives of this book are to clarify whether existing management theories and methods can be effectively applied in an entity which can be defined as a sovereign country a region a community a culture or a firm as the latter increasingly interacts with the rest of the world to develop qualitative and quantitative methods to help leaders make optimal decisions for their entity and at the same time to maximize the positive or minimize the negative effects of those decisions on the rest of the world and to design workable cross border cooperation plans and conflict management schemes that allow policy makers to better cope with the challenges and problems posed by our increasingly interactive world The Far-Eastern
