Crossing The Gods World Religions And Wordly Politics

James A Beckford, Jay Demerath

Crossing The Gods World Religions And Wordly Politics:

Crossing the Gods Nicholas Jay Demerath, 2003 Finally Demerath places within a comparative context the commonly held view that America is the world's most religious nation and argues that our country is not more religious but differently religious. He concludes that the United States represents a unique combination of congregational religion, religious pluralism and civil religion. Jacket *Atheism and Secularity* Phil Zuckerman, 2009-12-21 This important two volume contribution to the field of secular studies offers the first comprehensive examination of atheists and non religious people around the world. Who are atheists? How does atheism relate to various aspects of our social world such as politics, feminism, globalization and the family? And what is the current state of atheism internationally? *Atheism and Secularity* addresses the growing interest in the non religious world by exploring these and related questions. It is a comprehensive and compelling look at atheists and atheism both nationally and internationally covering a range of topics often overlooked in other books on the subject. *Atheism and Secularity* is not a philosophical polemic work but rather an exploration of who atheists are, what they believe, how they relate to the world and how the world relates to them. The first volume focuses on topics such as family life, gender, sexuality, politics and social movements. The second volume looks at atheism and secularity around the world exploring the lives of non religious people in North America, Japan, China, India, Europe, the Arab World and other locations. [The SAGE Handbook of the Sociology of Religion](#) James A Beckford, Jay Demerath, 2007-10-29 In their introduction to this Handbook the editors affirm: Many sociologists have come to realise that it makes no sense now to omit religion from the repertoire of social scientific explanations of social life. I wholeheartedly agree. I also suggest that this wide ranging set of essays should become a starting point for such enquiries. Each chapter is clear, comprehensive and well structured making the Handbook a real asset for all those engaged in the field. Grace Davie, University of Exeter. Serious social scientists who care about making sense of the world can no longer ignore the fact that religious beliefs and practices are an important part of this world. This Handbook is a valuable resource for specialists and amateurs alike. The editors have done an exceptionally fine job of incorporating topics that illuminate the range and diversity of religion and its continuing significance throughout the world. Robert Wuthnow, Princeton University. At a time when religions are increasingly affecting and affected by life beyond the narrowly sacred sphere, religion everywhere seems to be caught up in change and conflict. In the midst of this contention and confusion, the sociology of religion provides a rich source of understanding and explanation. This Handbook presents an unprecedentedly comprehensive assessment of the field both where it has been and where it is headed. Like its many distinguished contributors, its topics and their coverage are truly global in their reach. The Handbook's 35 chapters are organized into eight sections: basic theories and debates, methods of studying religion, social forms and experiences of religion, issues of power and control in religious organizations, religion and politics, individual religious behaviour in social context, religion self identity and the life course and case studies of China, Eastern Europe, Israel, Japan and Mexico. Each chapter

establishes benchmarks for the state of sociological thinking about religion in the 21st century and provides a rich bibliography for pursuing its subject further Overall the Handbook stretches the field conceptually methodologically comparatively and historically An indispensable source of guidance and insight for both students and scholars Choice Outstanding Academic Title 2009 **The Future of Peace and Justice in the Global Village** Thomas R.

McFaul,2006-09-30 Many authors have written on the effect technology economics and politics have on globalization but few have addressed the potential impact of world religions on the future direction of globalization McFaul s fascinating book explores what others have not the part the world s major religions Hinduism Buddhism Jainism Zoroastrianism Judaism Christianity and Islam will play in bringing either greater peace and justice or hatred and hostility to the global village Will these religions which exert the greatest amount of influence worldwide be a force for good or ill in the emerging global village of the 21st century This book answers that question and more Covering the religions to which the majority of world s population adheres it offers insight into the commonalities differences and potential for coming together to create peace to be found among the major faiths The world s seven major religions are covered and topics such as sexuality ethics violence and the tension between secular and sacred arenas are discussed for each McFaul argues that if the leaders and laity of these religions are able to find common ground efforts toward peace and justice in the global village can be more effective and lasting If they accentuate their differences he suggests they will only produce more hatred and hostility 2001

Church and State in Historical Perspective James E. Wood, 2005-05-30 The subject of church and state is one intimately associated with the history of Christianity and Western civilization However the subject is one that is by no means limited to any one religious tradition civilization or period of history Rather it is a subject that has historical and universal significance to all cultures and religious traditions throughout the world It is simply undeniable that religion has been and remains a powerful force in the making and shaping of cultures civilizations nations and empires For this reason this volume addresses the broader perspectives of religion and the state in the ancient world as well as in the biblical world of Judaism and Christianity and in other religious traditions than Christianity Attention is given to general works on church and state that treat the subject broadly not limited to any particular nation religious tradition or single aspect of church state relations Additionally there is material on major topics integrally related to church and state such as civil disobedience civil religion liberation theology patriotism and nationalism Finally sources are included on religion in international affairs and interfaith relations both necessarily linked to the subject of church and state as well as religion and the economic order religion and human rights and the effect of religion on war and peace

God Needs No Passport Peggy Levitt, 2007 A provocative examination of how new realities of religion and migration are subtly challenging the very definition of what it means to be an American Sociology professor Levitt argues that immigrants no longer trade one membership card for another but stay close to their home countries indelibly altering American religion and values with experiences and beliefs imported from Asia Latin America and Africa The book is a pointed response to Samuel Huntington's famous clash of civilisations thesis and looks at global religions organisation for the first time
