Above the Rest Bud Webster, 2004-10-01 Groff Conklin was the most important science fiction anthologist through the years of the genre's true second generation that point at which its previously magazine bound masterpieces were being systematically located, aligned and placed into permanent format. His contribution over the period of two decades was irreplaceable and all of our postwar history exists in the penumbra of his work. Bud Webster has in this index granted an act of scholarship and homage of equal irreplaceability. Barry Malzberg, author and editor The Writers Directory, 1982
