both subfields in their modern forms at least were getting started The volume addresses fundamental sociolinguistic topics such as social class style fieldwork speech community sociolinguistic competence and language attitudes with data from Guyanese and other Caribbean creoles Recurrent concepts are also considered including language versatility variation and change vernacular use school success and criminal justice in African America and the Caribbean using models case studies and methodologies from sociolinguistics Theoretical and applied scholars students apprehensive about sociolinguistic fieldwork and those considering dynamic methods like implicational scaling about which little is written in linguistics textbooks will find this volume invaluable Includes a Foreword by Gillian Sankoff **Melanesian Pidgin and the Oceanic**

Keesing, 1988 Topics in this volume include interlingual contact in the Pacific to the mid 19th century the Sandalwood period the Tok Pisin language oceanic Austronesian languages structures and sources of pidgin syntax the pidgin pronominal system and calquing pidgin and Solomons languages *Studies in the History of the English Language VIII* Peter Grund, Megan Hartman, 2020-11-09 This volume collects essays that approach notions of creating maintaining and crossing boundaries in the history of the English language The concept of boundaries is variously defined within linguistics depending on the theoretical framework from formal and theoretical perspectives to specific fields and more empirical physical and perceptual angles The contributions to this volume do not take one particular theoretical or methodological approach but instead explore how examining various types of boundaries linguistic conceptual analytical generic physical helps us illuminate and account for historical use variation and change in English In their exploration of various topics in the history of English contributions ask a range of questions what does it mean to set up boundaries between time periods When do language varieties have distinct boundaries and when do they overlap Where do language users draw up clausal constructional semantic phonetic phonological boundaries Thus the chapters explore not only how boundaries illustrate synchronic and diachronic features in the history of the English language but also what we can discover by questioning perceived or actual boundaries **Atlantic Meets Pacific** Francis Byrne, John A.
