Dimensions Of Ecology:

Dimensions of Ecology Jonathan L. Richardson, 1977 Human Dimensions of Ecological Restoration Dave Egan, Evan E. Hjerpe, Jesse Abrams, 2012-09-26 When it comes to implementing successful ecological restoration projects the social political economic and cultural dimensions are often as important as and sometimes more important than technical or biophysical knowledge Human Dimensions of Ecological Restoration takes an interdisciplinary look at the myriad human aspects of ecological restoration In twenty six chapters written by experts from around the world it provides practical and theoretical information analysis models and guidelines for optimizing human involvement in restoration projects Six categories of social activities are examined collaboration between land manager and stakeholders ecological economics volunteerism and community based restoration environmental education ecocultural and artistic practices policy and politics For each category the book offers an introductory theoretical chapter followed by multiple case studies each of which focuses on a particular aspect of the category and provides a perspective from within a unique social political cultural setting Human Dimensions of Ecological Restoration delves into the often neglected aspects of ecological restoration that ultimately make the difference between projects that are successfully executed and maintained with the support of informed engaged citizens and those that are unable to advance past the conceptual stage due to misunderstandings or apathy The lessons contained will be valuable to restoration veterans and greenhorns alike scholars and students in a range of fields and individuals who care about restoring their local lands and waters **Ecological Dimensions for Sustainable Socio Economic**

Development A. Yáñez-Arancibia, R. Dávalos-Sotelo, J. W. Day, 2014-05-13 This book fills a gap in the literature on environmental sustainability by addressing the topic from the perspective of social and economic development Progress in understanding and achieving sustainability requires the integration of scientific social economic and legal issues Yet progress in understanding and achieving sustainability will only be achieved through integration of scientific social economic and legal aspects A treatise on environmental sustainability should raise the current state of knowledge by proposing and recommending decision making efforts and breaking new ground with agendas aimed for the younger generation These younger scientists will be confronted with future uncertainty related to the set of crises that characterise the 21st Century e g ecological social food energy environmental climatic financial etc Currently there are a number of indicators that demonstrate that ecological conditions are being compromised globally These include reduced primary productivity reduction in biological complexity spreading pollution such as eutrophication ecological degradation in any continental basin coastal sea ecosystem reduction in biodiversity lowered resilience and slow recovery of damaged ecosystems and reduced ecological integrity All of these problems are related to social and economic pressure The challenge for most ecological systems is not only to establish the baseline for current ecosystem conditions but also to explore options for recovery and sustainability The latter involves ecological restoration where ecosystem and environmental services are maintained and

enhanced These services are essential to social integration and economic development This book not only introduces a theoretical and conceptual framework for the topic but also analyses the uncertainty for sustainability because of dwindling natural resources It includes contributions providing a basis for public policies case studies integrating concepts and tools for solutions and a set of position papers addressing new agenda topics that will shape the 21st century The book will be useful for researchers professors and students alike as well as for all stakeholders from social economic and academic sectors

Societal Dimensions of Environmental Science Ricardo D. Lopez, 2019-03-07 Societal Dimensions of Environmental Science Global Case Studies of Collaboration and Transformation brings together several key examples of the successes and the challenges that exist for environmental stakeholders trying to strike a balance between science and the societal implications of the issues involved This book provides important methods and approaches necessary for informed decision making and a better understanding of the common threads of learning collaboration negotiation and compromise It also explains that concepts and skills needed to better understand how specific project goals can be best achieved in the rapidly changing field of environmental management by providing practical situations and solutions across a global landscape This book provides anyone who works in a community setting with the necessary tools and strategies for solving environmental problems and achieving the goals of an environmental project of any type and specifically addresses the topic of how to synthesize community engagement and the environmental science It describes current environmental issues and lessons learned of what works and what doesn't work in real situations and why It also highlights key examples which can be used by both management practitioners and research scientists in their specific circumstances Showcasing a unique compilation of the diverse and specific examples from societies in Asia Oceania North America and the Middle East with an equally diverse array of authorship this book serves all policy makers scientists organizers and community members that desire to build better group dynamics for addressing environmental issues

New Dimensions in Ecological Economics Stephen Dovers, David I. Stern, Michael Denis Young, 2003 The book is divided into three broad parts challenges and reviews reorientations and openings and frameworks and applications To begin the authors illustrate the limitations of ecological economics by highlighting the lack of theory and method the need for greater interdisciplinary co operation and the domination by economists from developed nations They move on to present strategies to address these shortcomings by focusing on interdisciplinary methods and their theoretical basis discussing the future prospects for ecological economics and addressing a host of ecological economic issues from a variety of natural and social science perspectives They aim to challenge the notion of ecological economics by addressing what it is and asking what it could be

Environmental Integration Ton Bührs, 2009-04-09 The environmental challenges facing humankind can most effectively be met through environmental integration incorporating environmental considerations into everyday human thinking behavior and practices at both the individual and collective levels Increasingly people and organizations throughout the world are taking the environment into account but at the same time there is insufficient integration of attitudes policies and programs People and groups have different and often conflicting views and interpretations of what is desirable or required to protect the environment Environmental Integration looks at the ways that governments can play a crucial role in advancing promoting and shaping a singular integrated environmental policy

Ecosociocentrism Gopi Upreti, 2023-11-30 This book on the subject of global environmental crisis and climate change that has threatened the

very existence of humankind and the living system on planet Earth claims that the current Anthropocene is the most dangerous era of environmental and ecological crisis the planet Earth has ever witnessed This book not only insightfully reflects upon the crisis manifested by climate change breakdown of planetary ecosystem extinction and annihilation of millions of species acidification of oceans desertification of productive lands and toxic pollution attributing to the current dominant neoliberal economic model but also presents a new ethical development framework that recognizes and promotes the instrumental relational and intrinsic values in the Earth system which form the basis for social and environmental sustainability This is a useful book for all stakeholders involved in environmental protection UN and development agencies INGOs civil societies NGOs governments officials and professionals media personnel universities faculties students and researchers

The Dimensions of Human Evolution Radhakamal Mukerjee, 1963 *Integrating Ecology and Poverty Reduction* Jane Carter Ingram, Fabrice DeClerck, Cristina Rumbaitis del Rio, 2012-02-15 In the past the science of ecology has frequently been excluded from the development agenda for various reasons Increasingly however there has been a renewed interest in finding more ecologically sustainable means of development that have required a strong foundation in ecological knowledge for example EcoAgriculture Partnerships EcoHealth presented at ESA and EcoNutrition proposed by Deckelbaum et al Each of these examples has already taken the critical first step at integrating ecological knowledge with agriculture health and nutrition respectively However this is only the first step more attention needs to be placed not only on the role that two fields can play towards poverty alleviation but on the role of a truly integrated interdisciplinary approach towards development goals that is firmly grounded in ecological understanding We feel that a critical look at what ecology can and cannot provide to the development agenda in light of the Millennium Development goals is timely and crucial The introduction and the final section of the book will then integrate the lessons and principles outlined in each of the chapters All chapter authors will be heavily encouraged to focus on how their sub discipline in ecology impacts overall human well being and environmental sustainability

Integrating Ecology and Poverty Reduction Jane Carter Ingram, Fabrice DeClerck, Cristina Rumbaitis del Rio, 2011-11-25 The second volume of this series Integrating Ecology into Global Poverty Reduction Efforts Opportunities and solutions builds upon the first volume Integrating Ecology into Global Poverty Reduction Efforts The ecological dimensions to poverty by exploring the way in which ecological science and tools can be applied to address major development challenges associated with rural poverty In volume 2 we explore how ecological principles and practices can be integrated conceptually and practically into social economic and political norms and processes to positively influence poverty and the environment upon which humans depend Specifically these chapters explore how ecological science approaches and considerations can be leveraged to enhance the positive impacts of education gender relations demographics markets and governance on poverty reduction As the final chapter on The future and evolving role of ecological science points out sustainable development must be build upon an ecological foundation if it is to be realized The

chapters in this volume illustrate how traditional paradigms and forces guiding development can be steered along more sustainable trajectories by utilizing ecological science to inform project planning policy development market development and decision making Encyclopedia of Ecology: D-F Sven Erik Jørgensen,2008 **Digital Transformation in Cloud Computing** Alibaba Cloud Intelligence GTS,2022-06-13 With the rapid development of cloud computing and digital transformation well designed cloud based architecture is always in urgent need Illustrated by project cases from the Chinese technology company Alibaba this book elaborates how to design a cloud based application system and build them on the cloud Cloud computing is far from being just a resource provider it offers database storage and container services that can help to leverage key advantages for business growth Based on this notion authors from the Alibaba Cloud Global Technology Services introduce new concepts and cutting edge technology in the field including cloud native high availability and disaster tolerance design on cloud business middle office data middle office and enterprise digital transformation Resting upon Alibaba s years of practice and achievements in the field of cloud technology the volume also elucidates the methodology and practice solutions of digital construction including methodology product tools technical processes architecture design cloud application capacity assessment and optimization etc The book will appeal to researchers students and especially IT practitioners professionals and managers interested in cloud computing digital transformation cloud migration business middle office data middle office as well as the Alibaba Cloud itself Human Ecology ,1995 Applied Ecology and Human Dimensions in Biological Conservation Luciano M. Verdade,Maria Carolina Lyra-Jorge,Carlos I. Piña,2014-05-12 This book provides both the conceptual basis and technological tools that are necessary to identify and solve problems related to biodiversity governance The authors discuss intriguing evolutionary questions which involve the sometimes surprising adaptive capacity of certain organisms to dwell in altered and or changing environments that apparently lost most of their structure and functionality Space and time heterogeneities are considered in order to understand the patterns of distribution and abundance of species and the various processes that mold them The book also discusses at which level from genes to the landscape including individuals populations communities and ecosystems men should intervene in nature in order to prevent the loss of biodiversity
