The Loeb Classical Library. No. 184, James Loeb, 1925 **Lives of Eminent Philosophers** Diogenes Laertius, 1925
Parallel Greek English texts *The Lives and Opinions of Eminent Philosophers* Diogenes Laertius, 1853 **Temple of the Living God** Philip N. Richardson, 2018-12-21

When writing to the Corinthians the Apostle Paul used figurative temple language repeatedly to shape the identity of his audience Temple of God Temple of the Holy Spirit and Temple of the Living God While other scholars have identified the place of the Jerusalem temple in Paul's thinking or the impact of temples in the life of Corinth there has been no comprehensive study of the way that figurative temple language in philosophy could have influenced the Corinthians worldview Hellenistic philosophy was pervasive in the first century and provided theological guidance for faith and practice to Paul's Gentile audience before their conversion Philip N Richardson provides a comprehensive survey of figurative temple language in Hellenistic philosophy shedding light on the way that the kinds of philosophical thought known in cities like Corinth may have influenced the Corinthians to think about figurative temple language This study throws into sharp relief the similarities and differences between Paul's use of temple language and that of philosophy and illuminates Paul's setting of this language in the wider framework of 1 2 Corinthians and his purpose for its use in the argument of the letters

A Cognitive Analysis of the Main Apolline Divinatory Practices Giulia Frigerio, 2023-05-05

This volume takes an innovative interdisciplinary approach to investigating divination procedures at sanctuaries of Apollo in Classical and Hellenistic Greece merging neuroscience psychology and behavioural studies with archaeology Through a deep analysis of primary sources and the historical and cultural context of these procedures Frigerio reconstructs the precise schemata of knowledge and cognitive associations pertaining to ancient visitors of the Oracle highlighting neural inputs they received inside their minds in these specific situations The author engages with the archaeological record studying the cognitive input that both seekers and prophets experienced from features of the outside world such as landscape architecture and temperature This innovative methodology allows for a new

understanding of divinatory practices and the formulation of new hypotheses In addition this study offers a powerful tool for decoding divination and engaging with the archaeological record in future research A Cognitive Analysis of the Main Apolline Divinatory Practices is a fascinating read for students and scholars working on divination and cognition in ancient Greek religion as well as in religion in the Classical and Hellenistic periods more broadly

Boston Studies in the Philosophy of Science ,2001 *The Light and the Dark: Dualism in Greek literature and philosophy in the fifth and fourth centuries B.C* Petrus Franciscus Maria Fontaine,1988 **National Union Catalog** ,1968 Includes entries for maps and atlases **The Light and the Dark** Petrus Franciscus Maria Fontaine,1986 **The National Union Catalogs, 1963-** ,1964 The Light and the Dark: Dualism in the political and social history of Greece in the fifth and fourth century B.C Petrus Franciscus Maria Fontaine,1987 **Reexamining Socrates in the Apology** John Russon,Patricia Fagan,2009-07-21 An oracle was reported to have said No one is wiser than Socrates And in fact it was Socrates life s work to interpret these words which demanded and defined the practice of philosophy Each of these original essays attends carefully to the specifics of the Apology looking to its dramatic details its philosophic teaching and its complexity as a work of writing to bring into focus the Socrates of the Apology Overall the contributors distinguished scholars of ancient philosophy share a belief in the unity of the letter and the spirit of Platonic philosophy the conviction that the Platonic text cannot be reached except through reading and cannot be read except through thinking In this way the readings in this volume mirror Socrates own hermeneutical practice of uniting the demands of the mind and the demands of the text the Socratic examination The result true to the Socratic injunction that the unexamined life is not worth living continues that practice of examination here offering a reexamination of Socrates in the Apology *The Incredible Shrinking Son of Man* Robert M. Price,2003 This book should be mandatory reading for all scholars concerned with Christian origins nothing of comparable importance has been written for at least a decade Freethinker For more than a century scholars have been examining the Gospels and other traditions about the life of Jesus to determine their historical accuracy Although the results of these scholarly efforts are sometimes controversial the consensus among researchers today is that the four Evangelists accounts cannot be taken at face value In fact a team of more than 100 scholars called the Jesus Seminar has

come to the conclusion that on average only about 18 percent of the four Gospels is historically accurate. An active member of the Jesus Seminar, Dr. Robert M. Price presents the fruits of this important historical research in this fascinating discussion of early Christianity. As the title suggests, Price is not too optimistic about the reliability of the Gospel tradition as a source of accurate historical information about the life of Jesus. Indeed, he feels that his colleagues in the Jesus Seminar are much too optimistic in their estimate of authentic material in the Gospels. After an introduction to the historical critical method for nonspecialists and a critique of the methods used by the Jesus Seminar, Price systematically discusses the narrative and teaching materials in the Gospel, clearly presenting what is known and not known about all of the major episodes of Jesus' life. He also examines the parables for authenticity as well as Jesus' teachings about the Kingdom of God, repentance, prayer, possessions, and poverty, the Atonement, and many other features of the Gospels. Written for the general reading public in a lively and accessible style, Dr. Price's highly informative discussion will be of interest to anyone who has wondered about the origins of Christianity.

Asceticism and Its Critics Oliver Freiberger, 2006-10-26. Scholars of religion have always been fascinated by asceticism. Scholars have often been overlooked, however, that in the history of religions, ascetic beliefs and practices have also been strongly criticised by followers of the same religious tradition as well as by outsiders. The respective sources provide sufficient evidence of such critical strands, but surprisingly as yet no attempt has been made to analyse this criticism of asceticism systematically. This book is a first attempt of filling this gap. Ten studies present cases from both Asian and European traditions: classical and medieval Hinduism, early and contemporary Buddhism in South and East Asia.

A Treatise on Mystical Love Abū al-Ḥasan 'Alī ibn Muḥammad Daylamī, 2005. The earliest major Islamic treatise on mystical love, this work reflects a moderate version of the ecstatic mysticism of the Sufi martyr al-Hallaj. Writing around 1000 C.E., the author summarizes the views of lexicographers, belletrists, philosophers, physicians, theologians, and mystics on love, providing much information that would otherwise have been lost. In setting forth his own opinions, he relies heavily on erotic poetry with accompanying frame stories from the Umayyad and early Abbasid periods. Sufi biography, the lives of the prophets, and personal information.
