Directors And Officers Liability Insurance A Guide To International Practice:

Directors' and Officers' Liability Insurance Ian Youngman, 1999-06-04 Directors and officers liability insurance was at one time considered essential only for large public corporations. Now no public limited company anywhere in the world should be without it. Large private companies, charities, financial institutions, pension funds and all executive directors need to consider the risks. It is a widely held misconception that legal action cannot be taken against individual directors of limited liability companies. Directors and officers liability insurance is one of the fastest growing areas in the world insurance market. Company directors are facing increasingly onerous responsibilities as shareholders demand higher standards of corporate governance. Recent years have seen more stringent laws on environmental liability and directorial responsibility for pollution is now a global concern. This new edition will answer the questions: Just what are the personal liability risks facing directors? How can they protect themselves against the increasing possibility of being sued? What are the latest developments? Ian Youngman cuts through the jargon and explains the intricacies of this kind of cover and how it relates to other forms of insurance. He includes examples of claims as well as profiles of insurers specialising in this area. He also assesses the current and likely future status of D O cover in all the world markets.

Directors' and Officers' Liability Insurance Adolfo Paolini, Deepak Nambisan, 2020-11-25 With the ever increasing number of claims against directors and officers this book provides a very welcome addition to the bookshelves which hitherto have lacked books on this important area. Alison Green, Chairman of the Trustees of the BILA Charitable Trust. This book scrutinises the origins and the rationale underlying D O insurance and provides answers to the question of protecting directors against the potential liabilities they may face. It provides clear understanding about D O policies, wording, exclusions and issues of misrepresentation. The information contained in this new book includes: Nature and Legality of D O Liability Insurance; D O Exclusions; Directors and Officers Liability to Third Parties; Directors Liability at Civil Law; D O Defence Costs; Cover and Allocation; Aggregation Principles; and D O Cover and the Reinsurance of D O Policies.

Boardroom Behaviour and the Law Samet Caliskan, Pereowei Subai, 2025-03-28 This book examines how various areas of law collectively influence the relationship between a company and its directors, particularly in safeguarding the long term interests of stakeholders. Directors' inappropriate actions can expose a company to significant corporate risks, particularly in relation to regulatory violations such as breaches of competition law. When directors engage in such misconduct, company law and corporate governance provide certain control mechanisms that allow the company to manage these risks. Additionally, directors can be discouraged from engaging in such behaviour by the threat of being held accountable for violations of competition law. This book evaluates various tools designed to regulate directors' behaviours and ensure accountability, questioning whether the legal frameworks strike the right balance between corporate liability and personal accountability. It argues that these mechanisms do not sufficiently protect the long term interests of stakeholders and that shortcomings in the

law leave companies vulnerable to directors misconduct which cannot be adequately addressed through traditional risk management strategies This book will be of interest to researchers in the field of corporate law competition law and corporate governance
