This book starts with how to identify the overall scope of a project from the creative perspective of the director as it relates to guiding an actor before providing a blueprint for preparation that includes script analysis, previsualization, and procedures for rehearsal and capture. This methodology allows the director to uncover the similarities and differences between actor and director in their preparation to facilitate the development of a collaborative dialogue. Featuring chapter-by-chapter exercises and assignments throughout, this book provides a method that enables the director to be present during every stage of production and seamlessly move from prep to filming while guiding the actor to their best performances.
