Dirt Undress And Difference Critical Perspectives On The Bodys Surface Hardcover:

Dirt, Undress, and Difference Adeline Masquelier, 2005-12-20 A magnificent volume It offers brand new perspectives on body politics and identity or subjectivity formation in the post colonial world Dorothy Ko Barnard College While there is widespread interest in dress and hygiene as vehicles of cultural moral and political value little scholarly attention has been paid to cross cultural understandings of dirt and undress despite their equally important role in the fashioning of identity and difference The essays in this absorbing and thought provoking collection contribute new insights into the neglected topics of bodily treatments and transgressions In detailed ethnographic studies from around the world the contributors recast assumptions about filth and nakedness exploring how various forms of transgression associated with the body s surface are drawn up into relations of power and inequality They demonstrate imaginatively how body surfaces are powerfully mobilized in the making and unmaking of moral worlds *Dirt, Undress, and Difference* American Anthropological Association.

Meeting, 2005 Explores how transgressions of the body s surface dirt and undress in many forms take on cultural political and moral value **Critical Terms for the Study of Africa** Gaurav Desai, Adeline Masquelier, 2018-12-07 For far too long the Western world viewed Africa as unmappable terrain a repository for outsiders wildest imaginings This problematic notion has had lingering effects not only on popular impressions of the region but also on the development of the academic study of Africa **Critical Terms for the Study of Africa** considers the legacies that have shaped our understanding of the continent and its place within the conceptual grammar of contemporary world affairs Written by a distinguished group of scholars the essays compiled in this volume take stock of African studies today and look toward a future beyond its fraught intellectual and political past Each essay discusses one of our most critical terms for talking about Africa exploring the trajectory of its development while pushing its boundaries Editors Gaurav Desai and Adeline Masquelier balance the choice of twenty five terms between the expected and the unexpected calling for nothing short of a new mapping of the scholarly field The result is an essential reference that will challenge assumptions stimulate lively debate and make the past present and future of African Studies accessible to students and teachers alike **The Unseen Things** Kathryn A. Rhine, 2016-04-04 What do HIV

positive women in Nigeria face as they seek meaningful lives with a deeply discrediting disease Kathryn A Rhine uncovers the skillful ways women defuse concerns about their wellbeing and the ability to maintain their households Rhine shows how this ethic of concealment involves masking their diagnosis unfaithful husbands and unsupportive families while displaying their beauty generosity and vitality As Rhine observes collusion with counselors and support group leaders to deflect stigma secure respectability and find love features prominently in the lives of ordinary women who hope for a brighter future as the HIV epidemic continues to expand **Cosmos, Gods and Madmen** Roland Littlewood, Rebecca Lynch, 2016-06-01 The

social anthropology of sickness and health has always been concerned with religious cosmologies how societies make sense of such issues as prediction and control of misfortune and fate the malevolence of others the benevolence or otherwise of the

mystical world local understanding and explanations of the natural and ultra human worlds This volume presents differing categorizations and conflicts that occur as people seek to make sense of suffering and their experiences Cosmologies whether incorporating the divine or as purely secular lead us to interpret human action and the human constitution its ills and its healing and in particular ways which determine and limit our very possibilities *Visual Culture in the Modern Middle East* Christiane Gruber, Sune Haugbolle, 2013-07-17 A collection of essays examining the role and power of images from a wide variety of media in today's Middle Eastern societies This timely book examines the power and role of the image in modern Middle Eastern societies The essays explore the role and function of image making to highlight the ways in which the images speak and what visual languages mean for the construction of Islamic subjectivities the distribution of power and the formation of identity and belonging Visual Culture in the Modern Middle East addresses aspects of the visual in the Islamic world including the presentation of Islam on television on the internet and other digital media in banners posters murals and graffiti and in the satirical press cartoons and children's books This volume takes a new approach to the subject and will be an important contribution to our knowledge in this area It is comprehensive and well structured with fascinating material and analysis Peter Chelkowski New York University An innovative volume analyzing and instantiating the visual culture of a variety of Muslim societies which constitutes a substantially new object of study in the regional literature and one that creates productive links with history anthropology political science art history media studies and urban studies as well as area studies and Islamic studies Walter Armbrust University of Oxford **Hang-Ups** Benjamin Linley Wild, 2024-01-11 The Covid 19 pandemic heightened people's awareness of long standing inequalities within the fashion industry Amid calls for greater accountability and ethical awareness efforts are being made within and beyond the industry chiefly in the cultural and education sectors to decentralize fashion to make the conception creation and consumption of fashionable dress and appearance less western centric Supporting this premise Hang Ups argues that purposeful and permanent change within the fashion industry and fashion education is more likely if it is understood how the contemporary industry became western centric To institute effective change it is necessary to revert to first principles and understand how the fashion industry developed into what it is today During a period when the concepts of fashion history and culture are being intensely scrutinized and with suggestions they are reaching their nadir the imperative to understand the extent to which they relate and facilitate the presentation of people's fashionable bodies is urgent Hang Ups explores the origins and consequences of the fashion industry's western centrism by focusing on nine binaries defined in the crucible of empire that continue to be sites of negotiation as the west's traditions and ideals are contested by different cultural perspectives and changing global realities *Tits Up* Sarah Thornton, 2024-05-07 An excellent new book You will not look at breasts in the same way again Economist An innovative investigation of the five strange worlds that worship women's chests After years of biopsies best selling author Sarah Thornton made the difficult decision to have a double mastectomy But after her

reconstructive surgery she was perplexed What had she lost And gained An experienced sleuth she resolved to venture behind the scenes to uncover the social and cultural significance of breasts Riotous and galvanizing Tits Up excavates the diverse truths of mammary glands from the strip club to the operating room from the nation s oldest human milk bank to the fit rooms of bra designers Thornton draws insights from plastic surgeons lactation consultants body positive witches lingerie models and free the nipple activists to explore the status of breasts as emblems of femininity She examines how women s chests have become a billion dollar business as well as a stage for debates about race class gender and desire Everywhere she turns Thornton encounters chauvinist myths about this elemental body part that quietly justify deficits in women s bodily autonomy and endorse shortfalls in their political status Blending sociology reportage and personal narrative with refreshing optimism and wit Thornton has one overriding ambition to liberate breasts from centuries of patriarchal prejudice

Postcolonial Hauntologies: African Women's Discourses of the Female Body Ayo A. Coly, 2019-06-01 Postcolonial Hauntologies is an interdisciplinary and comparative analysis of critical literary visual and performance texts by women from different parts of Africa While contemporary critical thought and feminist theory have largely integrated the sexual female body into their disciplines colonial representations of African women s sexuality haunt contemporary postcolonial African scholarship which by maintaining a culture of avoidance about women s sexuality generates a discursive conscription that ultimately holds the female body hostage Ayo A Coly employs the concept of hauntology and ghostly matters to formulate an explicative framework in which to examine postcolonial silences surrounding the African female body as well as a theoretical framework for discerning the elusive and cautious presences of female sexuality in the texts of African women In illuminating the pervasive silence about the sexual female body in postcolonial African scholarship Postcolonial Hauntologies challenges hostile responses to critical and artistic voices that suggest the African female body represents sacred ideological discursive ground on which one treads carefully if at all Coly demonstrates how ghosts from the colonial past are countered by discursive engagements with explicit representations of women s sexuality and bodies that emphasize African women s power and autonomy [African Studies Association Annual Meeting. \[Program\]](#) African Studies Association. Annual Meeting, 2005 *Deviant Bodies* Jennifer Terry, Jacqueline L. Urla, 1995-12-22 the papers in *Deviant Bodies* reveal an ongoing Western preoccupation with the sources of identity and human character Times Literary Supplement Highly recommended for cultural studies The Reader s Review It would be useful for upper level undergraduate and graduate courses in the sociology of the body the history and sociology of science and medicine and women s studies courses particularly those exploring the feminist critiques of science and medicine Contemporary Sociology a powerful deconstruction of the scientific gaze in configuring bodily deviance as a means of legitimating the social order within multiple historical and social contexts the many excellent selections will make for compelling reading for students of medical anthropology and the history of science American Anthropologist *Deviant Bodies* reveals that the normal healthy body is a

fiction of science Modern life sciences medicine and the popular perceptions they create have not merely observed and reported they have constructed bodies the homosexual body the HIV infected body the infertile body the deaf body the colonized body and the criminal body
