Collective Memory as Currency Tracy Adams, 2024-07-01 Why is the past so dominant in the present This book conceptualizes collective memory as currency a medium of exchange a system in common use and one that is traded between and within nations Bringing together contemporary case studies and multidisciplinary scholarship this volume shows how past events are used and perceived as a commodity and a substantially fungible marketable item produced to satisfy wants or needs their supply or demand being a part of one universal market This book provides readers with a broader understanding of the power of the past in the present Specific past events are incarnated into collective memories that can transform into iconic almost mythical stories that can be employed to help make sense of the present Through evoking constructing and reconstructing selectively highlighting certain aspects or perspectives of prominent past events these collective memories become a significant resource that actors and publics turn to in times of need As currency these memories provide a service As currency they can also relatively easily travel between collectives since it is commonly understood that the past has value in the present and that this value is similarly utilized in various countries around the world

Dealing with Disasters from Early Modern to Modern Times Hanneke Asperen, Lotte Jensen, 2025-10-01 Disasters are as much cultural as natural phenomena For centuries news about catastrophic events has been disseminated through media such as chronicles pamphlets newspapers poems drawings and prints Nowadays we are overwhelmed with news about the cataclysmic effects of recent forest fires floods and storms Due to the ongoing climate crisis extreme weather events will likely have ever greater impacts on our lives This volume addresses cultural representations of catastrophes such as floods epidemics and earthquakes over the centuries In the past as now artists and authors try to make sense of disasters grasp their impact and communicate moral religious or political messages These creations reflect and shape how people learn and think about disasters that occur nearby or far away both in time and space The parallels between past and present underline how this book contributes to modern debates about cultural and creative strategies in response to disasters
