 Publishers' Weekly, 1896 Hone Geoff Tuff, Steven Goldbach, 2025-10-06 A clarion call to business leaders to recast their conception of leadership and strategy execution to meet the demands of the modern world Have a problem with your organization's strategy in an era of accelerating exponential change Modern business orthodoxy has an easy answer transform it Hone How Purposeful Leaders Defy Drift argues this thinking is itself in need of an overhaul Rather than devote time to expensive long and often unsuccessful transformations leaders should instead focus on holistically designing and honing the management systems that are the nervous systems of their businesses They can take a cue from chefs and other artisans and hone their organizations After all honing doesn't sharpen knives it realigns a knife's steel to its original position

Choosing and honing the set of management systems that promote an organization's desired outcomes and uninstalling them when they are past their prime is one of the most important things a business leader can do and is just as much art as science. The third in a trilogy of business strategy books written by renowned strategists and two-time Thinkers50 nominated authors Steven Goldbach and Geoff Tuff, this book explains why and how to optimally hone your organization's execution of its strategy with highlights including: The importance of recognizing and taking action to defy the drift that often afflicts organizations undergoing massive transformation; Guidelines on how to design and continually reshape effective management systems to influence organizational and individual behaviors; Reframing the job of CEOs to be Chief System Designers for their organizations; Reflections on how honing principles within organizations can be used on broader societal challenges such as addressing climate change via the energy transition. Engaging, pragmatic, and inspiring, *Hone: How Purposeful Leaders Defy Drift* earns a well-deserved spot on the bookshelves of all private, public, and nonprofit sector professionals seeking to bring new sources of advantage to their organizations in a time of accelerating uncertainty and exponential change.
