A Companion to Contemporary Art in a Global Framework Jane Chin Davidson, Amelia Jones, 2023-10-16 *A Companion to Contemporary Art in a Global Framework* explores the ways specialists and institutions in the fine arts curation cultural studies and art history

have attempted to situate art in a more global framework since the 1980s. Offering analyses of the successes and setbacks of these efforts to globalize the art world, this innovative volume presents a new and exciting way of considering art in its global contexts. Essays by an international panel of leading scholars and practicing artists assert that what we talk about as art is essentially a Western concept; thus, any attempts at understanding art in a global framework require a revising of established conceptual definitions. Organized into three sections, this work first reviews the history and theory of the visual arts since 1980 and introduces readers to the emerging area of scholarship that seeks to place contemporary art in a global framework. The second section traces the progression of recent developments in the art world, focusing on the historical and cultural contexts surrounding efforts to globalize the art world and the visual arts in particular global and transnational frameworks. The final section addresses a wide range of key themes in contemporary art, such as the fundamental institutions and ontologies of art practice and the interactions among art, politics, and the public sphere. *A Companion to Contemporary Art in a Global Framework* is essential reading for undergraduate and graduate students, scholars, researchers, and general readers interested in exploring global art beyond the traditional Euro-American context.
