## **Crippled Giant Nigeria Since Independence:**

**The Crippled Giant** Eghosa E. Osaghae, 1998-10-22 Crippled Giant is an excellent summary of Nigerian political history. The work is notable for even handed analysis of both history and theory. The result is an introduction of the highest quality to the study of Nigerian politics. African Studies Review. Osaghae, an academic with a refreshingly neutral and understated approach to the maddening follies of his government, has produced a highly readable overview of Nigeria's politics, economy and foreign relations. Rich in detail, his account is also a useful tour of earlier thematic treatments of the subject. Foreign Affairs. Well written, coherent narrative and thoughtful, balanced analysis of Nigeria's political history from 1960 to 1996. A. H. M. Kirk Greene, St Antony's College, Oxford. Eghosa Osaghae's study leads him to the conclusion that Nigeria's problems are not of recent making but can be traced to structural impediments from colonial times. A History of Nigeria Toyin Falola, Matthew M. Heaton, 2008-04-24 Nigeria is Africa's most populous country and the world's eighth largest oil producer but its success has been undermined in recent decades by ethnic and religious conflict, political instability, rampant official corruption and an ailing economy. Toyin Falola, a leading historian intimately acquainted with the region, and Matthew Heaton, who has worked extensively on African science and culture, combine their expertise to explain the context to Nigeria's recent troubles through an exploration of its pre-colonial and colonial past and its journey from independence to statehood. By examining key themes such as colonialism, religion, slavery, nationalism and the economy, the authors show how Nigeria's history has been swayed by the vicissitudes of the world around it and how Nigerians have adapted to meet these challenges. This book offers a unique portrayal of a resilient people living in a country with immense but unrealized potential.

Federalism and Separatist Agitations in Nigeria Godwin Onu, Al Chukwuma Okoli, 2024-09-17 This book offers a reflection on the tension between federalism and separatist agitations in Nigeria. The persistent clamour for restructuring as well as the widespread separatist agitations in the country depicts a moral expression. It does so against the backdrop of the prevailing waves of sub-nationalist tendencies in different parts of the country, including the threat of secession in the South East. Considered across the variegated themes that form the thrust of the book are select practical and theoretical insights that are relevant in repositioning the federalist praxis in Nigeria in the interest of national unity and stability. The book will come handy to the communities of scholars, policy makers and practitioners who are involved in the earnest search for an answer to the federalism dimension of Nigeria's nagging National Question. Students and the general reading populace will find the contents of the book quite insightful. **The Foreign Policy and Intervention Behavior of Africa's Middle Powers**

Olumuyiwa Babatunde Amao, 2023-12-21 Based on a meta-theoretical approach and insights derived from analytic eclecticism as a comparative instrument, Olumuyiwa Babatunde Amao assesses Nigeria and South Africa's foreign policy and intervention behavior in Africa with a special focus on the conflict episodes in Sierra Leone (1991-1998) and the Democratic Republic of Congo (DRC) (1997-2005). The Foreign Policy and Intervention Behavior of Africa's Middle Powers: An Analytic Eclecticism

Approach explores the relative merits of structural realism and social constructivism in explaining Nigeria and South Africa's motives and intervention behavior and why more than one theoretical perspective is required to sufficiently analyze the complexity of their intervention decisions and behavior. It demonstrates the overlapping nexus between conflict intervention structural constraints, relative power pursuit and the dynamics of regional complexes. Amao demonstrates how Nigeria and South Africa's relative power positions, identities as African actors, decolonization and anti-apartheid struggles and the existing values and bonds that their contiguous states share play a crucial role in their intervention behavior. Using Sierra Leone and the DRC as case studies, this book illustrates the advantage of applying a multi-perspective eclectic approach to foreign policy analysis and provides an alternative to the theoretical turf wars that are all too prevalent in the discipline of international relations.

The Politics of Bones J. Timothy Hunt, 2013-01-29 On November 10, 1995, Nigeria's military dictatorship executed nine environmental activists. Among them was Ken Saro Wiwa, the charismatic spokesman of the Ogoni people whose land in the fertile Niger River delta has been grotesquely polluted by the Royal Dutch Shell Corporation. During Ken's incarceration, his brother Dr. Owens Wiwa fought valiantly to save his life. When his quest failed, Owens narrowly escaped Nigeria with his life, first to London and then to Toronto. His story is a heart-stopping saga of personal courage and official corruption of individual selflessness and corporate greed.

**"Eat the Heart of the Infidel"** Andrew Walker, 2018-04-01 Boko Haram's appetite for violence and kidnapping women has thrust them to the top of the global news agenda. In a few years, they all but severed parts of Nigeria, Africa's most populous state and largest economy, from the hands of the government. When Boko Haram speaks, the world sees a grimacing ranting demagogue who taunts viewers, claiming he will eat the heart of the infidels and calling on Nigerians to reject their corrupt democracy and return to a pure form of Islam. Thousands have been slaughtered in their campaign of purification, which has evolved through a five-year bloody civil war. Civilians are trapped between the militants and the military and feel preyed upon by both. Boko Haram did not emerge fully formed in Northern Nigeria, which has witnessed many caliphates in the past; radical ideas flourish and strange sects are common. For decades, Nigeria's politicians and oligarchs fed on the resources of a state buoyed by oil and turned public institutions into spoons for the pot. When the going was good, it didn't matter. But now a new ravenous force threatens Nigeria.

Nigeria Richard Bourne, 2015-10-15 If you want to understand Nigeria's history in one succinct go, this is a very good choice. Ken Saro Wiwa, known as the African Giant, Nigeria's story is complex and often contradictory. How, despite the ravages of colonialism, civil war, ongoing economic disappointment and most recently the Boko Haram insurgency, has the country managed to stay together for a hundred years? Why, despite an abundance of oil, mineral and agricultural wealth, have so many of its people remained in poverty? These are the key questions explored by Richard Bourne in this remarkable and wide-ranging account of Nigeria's history from its creation in 1914 to the historic 2015 elections and beyond. Featuring a wealth of original research and interviews, this is an essential insight into the shaping of a country where, despite the

seemingly dashed optimism that was raised at independence there still remains hope the Nigeria project may still succeed

**Peacebuilding, Constitutionalism and the Global South** Kajit Bagu (John Paul), 2019-07-05 This book presents the case that liberal constitutionalism in the global South is a legacy of colonialism and is inappropriate as a means of securing effective peace in regions that have been subject to recurrent conflict The work demonstrates the failure of liberal constitutionalism in guaranteeing peace in the postcolonial global South It develops an alternative more compelling constitutionalism for peacebuilding in conflicted regions This is based on constitutionalism that recognises plurality as a major feature in the global South Drawing on events in Nigeria it develops a constitutional model based on Cognitive Justice which could deliver peace by addressing historic conceptual legal institutional and structural issues that have created social inequality and injustice The study also incorporates insights from the development of plurinational constitutions in South America The book will be an invaluable resource for researchers academics and policy makers with an interest in constitutional legal theory peacebuilding and postcolonial studies

**Nigerian Foreign Policy Under Military Rule, 1966-1999** Olayiwola Abegunrin, 2003-02-28 Abegunrin provides a significant and comprehensive examination of Nigerian foreign policy 1966 1999 during the almost 33 years of military rule punctuated by the four year civilian interregnum 1979 1983 He analyzes what led to the military rule in 1966 and the foreign policy performance of each military regime that ruled the country since 1966 He also discusses extensively the economic dimension of the nation's foreign policy He shows that the last 15 years the period of Generals Babangida and Abacha were the most corrupt and brutal that Nigeria had seen since independence The mysterious sudden death of General Sani Abacha led to the appointment of General Abubakar who handed power over to an elected civilian government in May 1999 led by President Olusegun Obasanjo Of particular interest to scholars students and other researchers involved with African politics and foreign policy and the role of the military in political affairs

**Growing Apart** Peter Lewis, 2007-04-17 Growing Apart is an important and distinguished contribution to the literature on the political economy of development Indonesia and Nigeria have long presented one of the most natural opportunities for comparative study Peter Lewis one of America's best scholars of Nigeria has produced the definitive treatment of their divergent development paths In the process he tells us much theoretically about when why and how political institutions shape economic growth Larry Diamond Senior Fellow Hoover Institution Growing Apart is a careful and sophisticated analysis of the political factors that have shaped the economic fortunes of Indonesia and Nigeria Both scholars and policymakers will benefit from this book's valuable insights Michael L Ross Associate Professor of Political Science Chair of International Development Studies UCLA Lewis presents an extraordinarily well documented comparative case study of two countries with a great deal in common and yet with

remarkably different postcolonial histories His approach is a welcome departure from currently fashionable attempts to explain development using large multi country databases packed with often dubious measures of various aspects of governance Ross H McLeod Editor Bulletin of Indonesian Economic Studies This is a highly readable and important book Peter Lewis provides us with both a compelling institutionalist analysis of economic development performance and a very insightful comparative account of the political economies of two highly complex developing countries Nigeria and Indonesia His well informed account generates interesting findings by focusing on the ability of leaders in both countries to make credible commitments to the private sector and assemble pro growth coalitions This kind of cross regional political economy is often advocated in the profession but actually quite rare because it is so hard to do well Lewis s book will set the standard for a long time Nicolas van de Walle John S Knight Professor of International Studies Cornell University Peter M Lewis is Associate Professor and Director of the African Studies Program Johns Hopkins University School of Advanced International Studies
