**La crise mystique de Victor Hugo (1843-1856)** Maurice Levallant, 1954-01-01 T00:00:00+01:00 Cet ouvrage est une r  
dition num rique d un livre paru au XXe si cle d sormais indisponible dans son format d origine      **Unacknowledged**  
**Legislators** Roger Pearson, 2016-04-21 What is the public value of poetry How do poets envisage their own role and function  
within society How do we Do poets seek to shape public opinion and behaviour Should they Or do they offer alternatives  
perhaps sacred alternatives to political and religious ideologies Are they what Shelley in 1821 called the unacknowledged  
legislators of the World And what might that mean During the decades immediately preceding the Revolution of 1789 the  
status of contemporary poetry in France was at its lowest ebb At the same time the perceived power of the writer to  
influence public events reached a high water mark with Voltaire s triumphant return to Paris in 1778 In the course of the  
next century French poetry enjoyed an extraordinary renaissance and flowering perhaps its greatest But what of the poet s  
public influence In 1881 the people of Paris processed for six hours past the home of Victor Hugo on the occasion of his 79th  
birthday and in 1885 an estimated two million people witnessed his state funeral But who or what were they acknowledging  
Poetry or republicanism Or perhaps their own power For with each Revolution that passed 1789 1830 1848 French poets  
themselves felt increasingly marginalised This study addresses the first part of this story and focuses on the role and function  
of the poet during the so called Romantic Period Beginning with an account of the literary climate in pre revolutionary  
France it then maps the changes in that climate wrought by the events of the 1789 Revolution It describes the new politico  
literary agendas set by Chateaubriand and others on the monarchist Right and by Sta l and others on the liberal Left Against  
this background it then analyses in detail the poetic output and public exploits of the three major French poets of the period  
Lamartine Hugo and Vigny The Romantic figure of the poet as prophet and magus is habitually dismissed as a clich But by  
focusing on the role of the poet as lawgiver this book reveals the rich and complex terms in which the public function of  
poetry was debated in post revolutionary France and how amidst the centenary celebrations of 1889 as Romanticism gave  
way to Symbolism the poet as lawgiver continued to play a central part in that debate      *Representational Strategies in Les*  
*Misérables and Selected Drawings by Victor Hugo* James M. Phillips, 1999 This book considers the interplay between art and  
literature by comparing representation techniques in passages from *Les Misérables* with artistic techniques in selected  
drawings by Victor Hugo In both his artistic and literary production Hugo uses a composite representational strategy that  
blends verbal and visual elements attempting to break free of textual and pictorial media constraints His dual interest in text  
and image foreshadows contemporary expressive production which now dominates communication      French VI, Nineteenth
