Crisis Of Democratic Intellect The Problem Of Generalism And Specialisation In Twentiethcentury Scotland General:

Religion, Theology and the Human Sciences Richard H. Roberts, 2002 Religion Theology and the Human Sciences explores the religious consequences of the so called end of history and triumph of capitalism as they have impinged upon key institutions of social reproduction in recent times The book explores the imposition of managerial modernity upon successive sectors of society and shows why many people today feel themselves to be oppressed by systems of management that seem to leave them no option but to conform Richard Roberts seeks to challenge and outflank such seamless oppressive modernity through reconfiguration of the religious and spiritual field **Scottish Studies** ,1987 Passion To Oppose Brian Kennedy, 2015-05-05 John Anderson was Australia s most important philosopher in the first half of this century The young Scotsman held the chair of philosophy at the University of Sydney for thirty years until retirement in 1958 He developed his own distinctive system of realism and fathered a vigorous local school characterised by inquiry independence and a deep commitment to philosophy as a way of life He was a formidable public figure and fierce controversialist who outraged many of Sydney s conventionally minded From an early Marxist phase he opposed all forms of censorship and mind control This first biography of Anderson is no hagiography containing much new material about Anderson s Scottish past and his conflicted public and private life His relations with students were complex with women they were decidedly problematic In the aftermath of a pragmatic revolution that has swept our universities and colleges Anderson s uncompromising calls to unfettered inquiry and the Socratic way of life are timely *University, City and State* Michael S. Moss, J. Forbes Munro, Richard Hughes Trainor, 2000 With the proceeds of selling its city centre site to a railway Glasgow university exchanged its original and increasingly overcrowded site for a magnificent neo gothic building at the greenfield location of Gilmourehill in 1870 The history of the university on its new site then develops in conjunction with that of Glasgow as the second city of the Empire before suffering the privation of two world wars and the long dislocation of its local economy in the 1930s After Word War II the University is ever more powerfully shaped by the State as it expands threefold in size The current flowering of links with industry and the economy through research funding innovation and technology transfer emphasize the recognition of the imporatance of the University s economic cultural and social role in the life of the City as its story enters the 21st century **The British Library General Catalogue of Printed Books, 1986 to 1987** British Library, 1988 Anti-Capital: Human, Social and Cultural Jacek Tittenbrun, 2016-04-15 The notion of capital has enjoyed a rich career in the social sciences its use across a range of subjects and in diverse academic and professional contexts having served to establish its conceptual status as given With particular attention to human and social capital including cultural capital this book traces the roots of this theoretical and conceptual trend to economics revealing the proliferation of various forms of capital to be based upon an encroachment of the conceptual apparatus of economics into other social sciences

Offering an in depth critical analysis of the concepts of human and social capital as well as their surrounding theories Anti Capital Human Social and Cultural proposes an alternative theoretical framework whilst better explaining the realities that they mask in economic terms A rigorous exploration of the most popular forms of capital in the contemporary social sciences this book will be of interest to scholars and students of sociology political and social theory demography and economics

Scotland Dennis Smith,Paul Barnaby,Ulrike Morét,1998 Scotland is probably the only sovereign nation to have chosen in a more or less free vote to surrender its independence in order to merge with a larger more powerful neighbour For most of the period since the Union of 1707 the Scots were enthusiastic partners with England in creating and administering the British Empire Inevitably therefore the end of empire caused an identity crisis in Scotland For more than a Century pressure for political home rule produced no tangible resu
