Crisis Adjustment And Growth In Uganda:

Crisis, Adjustment and Growth in Uganda Arne Bigsten, Steve Kayizzi-Mugerwa, 1999-06-23 Uganda in the 1970s and early 1980s was one of Africa's more tragic economic stories. Emerging from civil war, it had to embark on reform in the early to mid 1980s from a position of severe political weakness. In the study, the effects of economic policy at the aggregate level are discussed in detail, but snapshot empirical analyses of responses at the household level, both urban and rural, are also presented. Uganda was for many years considered to be Africa's worst case; its recent recovery thus provides hope for similar countries in the region. **Uganda's Recovery** Ritva Reinikka, Paul Collier, 2001-01-01 Annotation Uganda's recovery over the past 15 years, from economic decline, conflict, and repressive government to macroeconomic stability, high growth, and considerable political freedom, signifies a major turnaround in Africa. Uganda's postconflict recovery coincides with one of Africa's most ambitious programs of economic liberalization.

Historical Dictionary of Uganda Joseph Kasule, 2022-06-22 Uganda is one of the most fascinating countries in Africa. Situated in the middle of the Great Lakes region of Eastern Africa, it is home to diverse flora and fauna. Little wonder Winston Churchill famously named it the Pearl of Africa. Neighbored by South Sudan, DRC, Kenya, Tanzania, and Rwanda, Uganda claims the source of the River Nile and a larger share of Victoria, Africa's largest lake. Uganda's capital, Kampala, is famous for hosting many international conferences and summits, including the 2007 Commonwealth Head of Government Meeting. Uganda is witnessing rapid development overseen by Yoweri Museveni, who has served as president since 1986, making him the longest-serving leader in Uganda. Museveni came to power on the backdrop of a 5-year guerrilla struggle that toppled the regimes of Milton Obote and the military junta of Tito Okello Lutwa. *Historical Dictionary of Uganda*, Second Edition, covers the history of Uganda using a chronology, an introductory essay, appendixes, and a bibliography. The dictionary section covers many entries on politics, economy, foreign affairs, religion, society, culture, and important personalities. The book provides a quick access for researchers, students, tourists, and anyone interesting in learning about Uganda. **Democratic Transitions in East Africa** F. Wafula Okumu, 2019-07-16

Originally published in 2004, *Genocide in Rwanda* describes massive floods of refugees and displaced people in the Horn of Africa, violent civil wars in the West African countries of Sierra Leone and Liberia, and these are testimonies to the tremendous cost to grassroots communities when the authority and legitimacy of national political systems and leaders are called into question. The consolidation of democracy represents one tangible strategy to restore authority and legitimacy of political rule, providing the peace and security necessary for political enfranchisement and economic opportunity. This volume explores the factors that are crucial to the emergence of democratic political systems on the African continent, specifically focusing on Kenya, Tanzania, and Uganda. It highlights the political challenges facing these countries during this crucial transition period and provides insights that are applicable to other countries engaged in this process in Africa and beyond. **African Poverty at the Millennium** Howard White, Tony Killick, Steve Kayizzi-Mugerwa, 2001-01-01 This explores the complex

nature of poverty in Africa It identifies its political and social causes and assesses the impact of recent economic growth on the welfare of poor people To permanently reduce poverty it calls for realistic home grown policy initiative governmental commitment a realignment of the donor community s role and the development of institutional structures such as poverty monitoring systems that can hold the governments accountable **Export Diversification in Uganda** Tjalling

Dijkstra,2001 *Is Uganda an Emerging Economy?* Arne Bigsten,Steve Kayizzi-Mugerwa,2001 In spite of serious external shocks and political destabi lisation in part of the country Uganda has remained a good economic performer since the late 1980s with over a decade of high per capita growth in excess of three per cent This study concludes that Uganda s medium to long term success will depend on the achievements in institutional reforms including raising the quality of the civil service curbing corruption and implementing an effective regulatory framework This is important as a poorly functioning public sector is both unable to uphold the rule of law thus losing the public goodwill necessary for implementing new measures and a burden on the private sector as it implies increased transaction costs **Reforming Africa's Institutions** Steve

Kayizzi-Mugerwa,2003 There is not a single African country that did not attempt public sector reforms in the 1990s Governments no longer see themselves as sole suppliers of social services frequently opting for partnerships with the private sector Efficiency and choice have entered the language of the planning and implementation units of Africa s line ministries while privatization is no longer the controversial subject it was a decade ago There have also been moves towards more open and democratic governments *Reforming Africa's Institutions* looks at the extent to which reforms undertaken in Sub Saharan Africa in recent years have enhanced institutional capacities across the breadth of government To what extent have reforms been internalized and defended by governments The authors also look specifically at the impact of public sector reforms on these economies and pose the question whether ownership can be attained when countries continue to be heavily dependent on external support The volume is presented in three parts The first focuses on the issue of reform ownership on the issues of governance the political economy of reform ownership and the contradictions inherent in using aid as an instrument for enhancing domestic reform ownership Part two examines the nature of incentives in the African civil service and the reforms undertaken in recent years to raise public sector efficiency in Africa The third part discusses issues related to institutional capabilities in Africa and how they have been affected by the reforms undertaken in the 1990s including privatization and movement towards political pluralism **The Uganda Journal** ,2007 *Uganda 1996* Steve Kayizzi-Mugerwa,1997

Forum for Development Studies ,2004 **Poverty, Vulnerability, and Agricultural Extension** Ian Christoplos,John Farrington,2004 The study draws on evidence from India and a range of countries in Asia Africa and Latin America to argue that agricultural extension has an essential role in helping farmers to reach into new often global markets There should be a comprehensive strategy within agricultural extension to address low income agricultural households in the context of their wider livelihoods and not merely as commodity producers **African Studies Bulletin** ,1999 *OECD Papers* ,2002 A

compilation of reports previously issued by the OECD No-party Democracy? Giovanni M. Carbone, 2008 Are political parties an essential element of democracy Or can a no party system constitute a viable democratic alternative Giovanni Carbone examines the politics of Museveni's Uganda to illustrate the achievements contradictions and limitations of participatory politics in the absence of partisan organizations At a time when multiparty reforms were sweeping the globe Uganda opted for a controversial no party democratic model The country's politics over the past two decades thus provide the perfect opportunity for addressing the many questions theoretical empirical and comparative that the notion of a no party system of elected government raises Carbone's analysis of how a no party electoral regime actually works or doesn't in Uganda fills a gap in both democracy studies and the study of African politics Publisher description *Uganda* Ian Leggett, 2001 This text explores the reasons for Uganda's troubled history and describes the reality of Ugandan modern life in a country where pioneering responses to poverty and political pluralism are contrasted with a continuing weak sense of nationhood **Worldmark Encyclopedia of the Nations** Timothy L. Gall, Jeneen M. Hobby, 2006-11 Presents easy to understand information on 200 countries and dependencies from around the world Entries discuss a variety of topics in detail from banking and securities to climate from government data to demographic statistics Also includes biographical essays on national leaders African Studies Review, 2000 **New Encyclopedia of Africa** John Middleton, 2008 Contains a collection of alphabetically arranged entries from Taboo and Sin to Zubayr on the history geography culture religion and ideologies wars and economy of the African nations and includes essays photographs thematic outline chronology and an appendix of individual ethnic groups **Africa, 2004** Charles Hickman Cutter, 2004
