Dierenfield,2014-06-11 The story of black emancipation is one of the most dramatic themes of American history covering racism murder poverty and extreme heroism Figures such as Malcolm X and Martin Luther King are the demigods of the freedom movements both film and household figures This major text explores the African American experience of the twentieth century with particular reference to six outstanding race leaders Their philosophies and strategies for racial advancement are compared and set against the historical framework and constraints within which they functioned The book also examines the grass roots of black protest movements in America paying particular attention to the major civil rights organizations as well as black separatist groups such as the Nation of Islam      *Bibliography of African American Leadership* Cedric Johnson,Ronald W. Walters,2000-06-30 Compiled in this volume is the most significant accumulation of works on the subject of African American leadership to date As the field of leadership studies continues to grow this timely work contributes to an understanding of the activities of those people and organizations that have been leaders of people of African descent and have contributed to the cultural and political affairs of the black community as well as the representation of the black community in mainstream American life The annotated entries cover a variety of works on subjects such as dedicated black leadership studies local descriptions and analyses biographies leadership organizations and audio visual materials This reference is an important contribution to the field of leadership studies in general and African American leadership in particular and will serve as a valuable research tool for educators and practitioners alike The entries are organized into six sections which offer a broad overview of the various aspects of African American leadership Part I Critical Studies and Appraisals focuses on the history of works dedicated to both national and local leaders and their politically relevant activities The next section Local Leadership Studies is organized around black leaders who served local communities and the various issues they addressed Part III looks at relevant social movements and ideologies that have highlighted the activities of black leaders Individual leaders who have made contributions to the political life of the black community are included in Part IV while leadership organizations are highlighted in Part V The concluding section of the volume looks at available audio visual materials A thorough index rounds out the bibliography      **A Crisis of Leadership and the Role of Citizens in Black America** Stephen C.W. Graves,2016-05-12 A theoretical examination of the concepts of the citizen citizenship and leadership A Crisis of Leadership and the Role of Citizens in Black America Leaders of the New School proposes to develop a prototype or model of effective Black leadership Furthermore it examines citizenship habits of the Black community based on their economic standing educational attainment participation in the criminal justice system and health and family structure It tracks data in these four categories from 1970 to today measuring effective leadership by the improvement or decline in the majority of African Americans standing in these four categories This book

concludes that African Americans have negative perceptions of themselves as U S citizens which thus produce bad citizenship habits Additionally ineffective Black leaders since the Civil Rights era have been unwilling to demonstrate the purpose and significance of service particularly to the poor and disadvantaged members of the Black community Contemporary Black leaders post Civil Rights Era have focused primarily on self promotion careerism and middle class interests A new type of leader is needed one that stresses unity and reinforces commitment to the group as a whole by establishing new institutions that introduce community building

### **Leading Issues in African-American Studies** Nikongo

Ba-Nikongo,1997 African American Studies remains one of the more controversial disciplines in the courses of academic pursuit today In part much of the controversy emanates from an inability of practitioners to agree upon any rigid definition of just what constitutes and just what is encompassed within the field At least there is some agreement that its achievement of institutional acceptance with separate programs departments and granting of advanced degrees warrants its treatment as a legitimate field of pursuit in and of itself but indeed this is where the agreement ends On a range of topics scholars in the field of African American Studies hold decidedly different opinions What ought we to include as African American Studies Is Afrocentricity a figment of the imagination or sound scientific enquiry And what place if any does race and racism continue to play in the life changes of African Americans Bi racialism underclassness intra community crime and Afro Jewish relations are also prominent subjects of consideration In *Leading Issues in African American Studies* BaNikongo has brought together scholars from every associated field of African American Studies and offers a range of perspective on a myriad of topics The text presents differing viewpoints on political social economic cultural and legal issues and succeeds in addressing every major contemporary area of debate in African American academic circles
