## **Crisis In Civilization:**

The Crisis Of Civilization Hilaire Belloc,1992-10-03 Here the great Belloc shows that ever since the disaster of the Protestant Reformation Western civilization which was formed by the Catholic Faith has been coming apart since Calvinism opened the door to usury unbridled competition the domination of the mind by money and ultimately the return of slavery Belloc says our 2 choices are a return to Catholicism or chaos Essential for anyone who would understand our world today

whether it is still valid in the globalized world economy of the twenty first century The first half of the book provides an historical and theoretical context to understand the idea of civilization in political science and demonstrates how the various social economic political and cultural processes of globalization have radically altered perceptions of civilization The second half of the book looks particularly at non Western examples of the interaction between globalization and civilization and includes case studies on the Arab world Islam China India and Europe
