

# THE EASTER STORY CHALLENGE FOR TEENS

## The Easter Story Challenge

A Hands-On Bible Activity to Teach  
the True Meaning of Easter

He is not here; for he is risen, as he said. Come  
where the Lord lay, Matthew 28

©2025 Teach Beside Me

### The Easter Story Challenge Cards

#### Station 1: Palm Sunday

Read: Matthew 21:1-11

Passes: Visual Scripture

Scripture:  
Matthew 21:1-11

Chorus: "You've seen the King  
come, Hallelujah! Go to the Temple!"

Reflection: What does it mean  
to call Jesus your King?

#### Station 2: The Last Supper

Read: Luke 22:14-20

Passes: Match the Symbol

Symbol:  
Bread  
Cup  
Towel  
Sword  
Cross

Chorus: "Jesus washed with love,  
Lord... Go to the Garden!"

Reflection: Why do Christians  
remember Jesus with  
bread and this cup?

#### Station 3: The Crucifixion

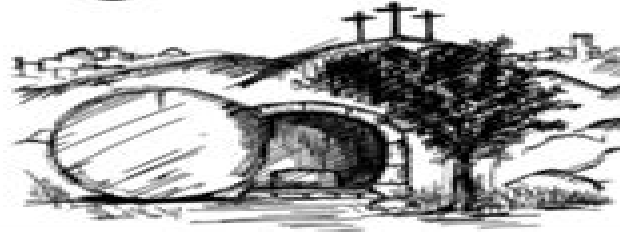

Read: Luke 23:26-46

Passes: Timeline Sorting  
Jesus' Journey from the Cross  
Jesus' Journey from the Cross  
Jesus' Journey from the Cross  
Jesus' Journey from the Cross  
Jesus' Journey from the Cross  
Jesus' Journey from the Cross  
Jesus' Journey from the Cross

Chorus: "The world grows dark, Lord,  
Go to the Tomb!"

Reflection: Why do you think  
Jesus said, "Father, forgive them?"  
What does that tell us about His  
love?

# He is Risen

# Crisis Of The Crob Challenge Of The Easter Story

**Daniel F McAuley**

## **Crisis Of The Crob Challenge Of The Easter Story:**

Small Farm Digest ,2000      *Sustainable Development for Engineers* Karel Mulder,2017-09-08 It is crucial that engineers from students to those already practising have a deep understanding of the environmental threats facing the world if they are to become part of the solution and not the problem Is there a way to reconcile modern lifestyles with the compelling need for change Could new improved technologies play a key role If great leaps in the environmental efficiency of technologies are needed can they be produced Engineers are in a privileged and hugely influential position to innovate design and build a sustainable future But are they engaged or uninterested Are they knowledgeable or ignorant This book has been developed by a number of committed educators in European engineering departments under the leadership of Delft University of Technology and the Technical University of Catalunya to meet the perceived gap between what engineers know and what they should know in relation to sustainable development The University of Delft decided as long ago as 1998 that all of its engineering graduates working towards careers as designers managers or researchers should be prepared for the challenge of sustainable development and as such should leave university able to make sustainable development operational in their designs and daily practices The huge amount of knowledge gathered on best practice teaching for engineers is reflected in this book The aim is to give engineering students a grounding in the challenge that sustainable development poses to the engineering profession the contribution the engineer can make to attaining some of the societal and environmental goals of sustainability and the barriers and pitfalls engineers will likely need to confront in their professional lives Concise but comprehensive the book examines the key tools skills and techniques that can be used in engineering design and management to ensure that whole life costs and impacts of engineering schemes are addressed at every stage of planning implementation and disposal The book also aims to demonstrate through real life examples the tangible benefits that have already been achieved in many engineering projects and to highlight how real improvements can be and are being made Each chapter ends with a series of questions and exercises for the student to undertake Sustainable Development for Engineers will be essential reading for all engineers and scientists concerned with sustainable development In particular it provides key reading and learning materials for undergraduate and postgraduate students reading environmental chemical civil or mechanical engineering manufacturing and design environmental science green chemistry and environmental management

Easter Island Statues Benjamin Ramirez, AI, 2025-03-04 Easter Island Statues explores the compelling history of the moai the iconic stone statues of Rapa Nui It delves into how this isolated Polynesian culture managed to carve transport and erect these monumental structures some weighing over 80 tons without modern technology The book examines the quarrying process at Rano Raraku the transportation methods across the island s varied terrain and the techniques used to raise the moai onto their ahu The approach emphasizes that the creation of the moai was deeply intertwined with Rapa Nui s social organization and belief systems It challenges older theories focusing on resource depletion by presenting

sustainable and collaborative practices employed by the islanders The book progresses from introducing the moai and their construction to exploring transportation theories and the eventual decline of statue construction reassessing Rapa Nui history through archaeological evidence and historical accounts     *The U.S. Response to East African Famines and the Future Outlook for Food Aid in Africa* United States.
