A Social History of Christian Origins Simon J. Joseph, 2022-12-30 *A Social History of Christian Origins* explores how the theme of the Jewish rejection of Jesus embedded in Paul's letters and the New Testament Gospels represents the ethnic social cultural and theological conflicts that facilitated the construction of Christian identity. Readers of this book will gain a thorough understanding of how a central theme of early Christianity the Jewish rejection of Jesus facilitated the emergence of Christian anti Judaism as well as the complex and multi faceted representations of Jesus in the Gospels of the New Testament. This study systematically analyzes the theme of social rejection in the Jesus tradition by surveying its historical and chronological development. Employing the social psychological study of social rejection social identity theory and social memory theory Joseph sheds new light on the inter relationships between myth history and memory in the study of Christian origins and the contemporary re construction of the historical Jesus. *A Social History of Christian Origins* is primarily intended for academic specialists and students in ancient history biblical studies New Testament studies Religious Studies Classics as well as the general reader interested in the beginnings of Christianity. Key Events in the Life of the Historical Jesus Darrell L. Bock, Robert L. Webb, 2009 Using a carefully defined approach to historical Jesus studies and historical method this collection of essays examines twelve key events in the life of Jesus that were part of a decade long collaborative research project. Each essay examines the case for the event's authenticity and then explores the social and cultural background to the event to provide an understanding of the event's historical significance. The first six events are related to the public ministry context of Jesus mostly associated with his Galilean ministry while latter six events involve his final days in Jerusalem. The final essay closes with suggestions about how these events cohere and what they can tell us about what Jesus did. *Interval Valued Trapezoidal Neutrosophic Set for Prioritization of Non-functional Requirements* Kiran Khatter, This paper discusses the trapezoidal fuzzy number TrFN Interval valued intuitionistic fuzzy number IVIFN neutrosophic set and its operational laws and trapezoidal neutrosophic set TrNS and its operational laws. Based on the combination of IVIFN and TrNS an Interval Valued Trapezoidal Neutrosophic Set IVTrNS is proposed followed by its operational laws. The paper also presents the score and accuracy functions for the proposed Interval Valued Trapezoidal Neutrosophic Number IVTrNN. Then an interval valued trapezoidal neutrosophic weighted arithmetic averaging IVTrNWAA operator is introduced to combine the trapezoidal information which is neutrosophic and in the unit interval of real numbers. Finally a method is developed to handle the problems in the multi attribute decision making MADM environment using IVTrNWAA operator followed by a numerical example of NFRs prioritization to illustrate the relevance of the developed method. Studies of History and Tradition in the Four Gospels R. T. France, David Wenham, 1980 Few questions have received more attention from Christian scholars and theologians during the past two hundred years than the question of history and tradition in the four gospels. But real advances in understanding that have been made there is still quite fundamental disagreement among

scholars on how far we can regard the gospels as historically reliable and indeed on what the notion of historicity involves in this context or whether it really matters To thinking Christiansthis scholarly disagreement is a source of perplexity It may be true that the theology of the N T is a more important object for study than its historical details it is certainly the case that much of the past search for the historical Jesus has led into dead ends But despite the attempts of some to suggest otherwise the conviction remains that the Christian faith is closely and essentially tied up with the history of its founder figure so that the question of the historical value of the gospels cannot be dismissed and should not be left unanswered The Gospels Research Project of Tyndale House Cambridge of which the Gospel Perspectives series is the fruit was set up to look further into the historicity of Jesus question Preface A Marginal Jew: The roots of the problem and the person John P. Synoptic Problem in Historical Jesus Research Hyeon Woo Shin, 2004 The criteria for originality priority and authenticity
 used in textual criticism the study of the Synoptic Problem and historical Jesus research share one basic similarity they were
 all designed to distinguish a prior tradition from its later developments All these areas of research investigate the
 transmission process which involves both preservation and alteration The sets of criteria used in one area are thus analogous
 to the sets of criteria used in the other two areas This assumption can be confirmed by observing numerous instances of such
 similarity in these sets of criteria On the basis of this assumption many other instances of similarity may be newly attained by
 adapting the set of criteria used in one area for use in the other two areas The sets of criteria for these three areas of
 research can be further generalized into a mother set of criteria which will provide us with a degree of methodological
 unification in these disciplines **The Modern Search for the Real Jesus** Robert B. Strimple, 1995 Critical scholars have
