insurgences of the masses the feminized others of history in order to rethink authorship and resistance for a totalitarian age Filled with insights and written with obvious passion for the subject *Resisting History* challenges received ideas about history as a coherent narrative and about the development of U S modernism and points the way to new histories of literary and cultural modernisms in which the work of women shares center stage with the work of men **Nor Shall Diamond Die: american studies** Carme Manuel, Paul S.
