

CASES ON CRITICAL CARE

LEARNING OBJECTIVES

1. Interpret hemodynamic parameters and acid-base status in critically ill patients.
2. Differentiate between presentation of and treatment strategies for hypovolemic, obstructive, and distributive shock.
3. Discuss the appropriate use of fluids, vasopressors, antibiotics, and corticosteroids in patients with sepsis, severe sepsis, or septic shock.
4. Discuss strategies to optimize the safety and efficacy of therapeutic hypothermia for patients after cardiac arrest.
5. Recommend therapeutic options to minimize delirium and provide optimal analgesia, sedation, neuromuscular blockade, and nutritional support in critically ill patients.
6. Recommend therapeutic options to prevent stress ulcers, venous thromboembolism, hyperglycemia, and ventilator-associated pneumonia in critically ill patients.
7. Recommend treatment options for acute intracranial hemorrhage.

*** Answers are in **RED** font ***

CASE 1

A 58-year old woman remains intubated in the intensive care unit (ICU) after a recent abdominal operation. In the operating room, she receives more than 10 L of fluid and blood products but has received aggressive diuresis with furosemide postoperatively. In the past 3 days, she has generated 12 L of urine output, and her blood urea nitrogen (BUN) and serum creatinine (SCr) have steadily increased to 40 and 1.5 mg/dL, respectively. Her urine chloride (Cl) concentration was 9 mEq/L (24 hours after her last dose of furosemide). This morning, her arterial blood gas (ABG) reveals pH 7.50, PaCO₂ 46 mmHg, and bicarbonate (HCO₃⁻) 34 mEq/L. Her vital signs include a blood pressure (BP) of 85/40 mmHg and a heart rate (HR) of 110 beats/ minute.

1. Which action is best to improve her acid-base status?

A. 0.9% sodium chloride (NaCl) bolus. - The patient manifests metabolic alkalosis, which is a primary increase in serum bicarbonate concentration (>30 mEq/L). In its pure form, it manifests as alkalemia (pH > 7.40). As a compensatory mechanism, metabolic alkalosis leads to alveolar hypoventilation with a rise in arterial carbon dioxide tension (PaCO₂). (*Metabolic alkalosis. Medscape. 2018.*) Due to the patients diuretics, she experienced volume contraction or the decrease in the volume of body fluid. Monitoring of chloride concentrations is essential to prevent or treat alkalosis. Administration of normal saline (0.9% NaCl) would correct the low chloride levels of the patient (Normal chloride (urine) = 25-40 mEq/L). (*Chloride (Urine). Health Encyclopedia - University of Rochester Medical Center. 2020.*)

B. 5% dextrose (D5W) bolus. - Though the water content of both D5W and 0.9% NS solution is equal (1000 mL), much more fluid will reside in the intravascular space if given in the form of 0.9% NS (as none enters the intracellular space). Hence, 0.9% NS is preferred over D5W if the aim is to correct intravascular volume depletion. (*Dehydration and volume depletion: How to handle misconceptions. World Journal of Nephrology. 2019.*)

C. Hydrochloric acid infusion. - Infusion of HCl is indicated for patients experiencing metabolic alkalosis with arterial pH of > 7.55 and a PaCO₂ of > 7.45. (*Hydrochloric acid for treating metabolic alkalosis. The Japanese Journal of Surgery. 1989.*)

D. Acetazolamide intravenously. - Acetazolamide would be a consideration if the metabolic alkalosis persisted after correcting the volume contraction or other underlying problem. (*Acetazolamide-mediated decrease in strong ion difference accounts for the correction of metabolic alkalosis in critically ill patients. BioMed Central. 2006.*)

Critical Care Cases

Evidence-Based Critical Care Robert C. Hyzy, 2017-05-30 This book provides learners with a unique opportunity by virtue of the format outlined above Each case presentation has a case vignette which leads up to an important clinical question and is followed by additional discussion which resolves the question posed This is a new way to present knowledge in a medical book and should help critical care practitioners fellows residents allied health professionals

and students expand their critical care knowledge in an efficient and effective manner This approach should also benefit those preparing for board examinations

100 Cases in Emergency Medicine and Critical Care Eamon Shamil, Praful Ravi, Dipak Mistry, 2018-01-09 This new addition to the popular 100 cases series explores common clinical scenarios that will be encountered by the medical student and junior doctor during practical training in the emergency department in the community and in intensive and critical care settings and which are likely to feature in qualifying examinations The book covers a broad range of presentations organized by sub specialty area for ease of reference Comprehensive answers highlight key take home points from each case and provide practical advice on how to deal with the challenges that occur when practising emergency and critical care medicine at all levels

Mayo Clinic Critical Care Case Review Rahul Kashyap MBBS, John C. O'Horo MD, MPH, J. Christopher Farmer MD, 2016-06-23 Mayo Clinic Critical Care Case Review is a unique compellation of cases presented at the highly rated Mayo Clinic Clinical Pathological Case CPC Conference Designed to cover rare cases in a short amount of time these reviews are set up in what is called the unknown format highlighting the clinically key elements of the patient's hospital course singling out the diagnostic dilemmas and concludes with a question and answer format that allows clinicians to take home relative points for clinical practice Written by practicing intensivists and critical care fellows for practicing intensivists and critical care fellows this book combines interesting reading experiences with critical care medicine review Each chapter ends with questions and answers that provide a board style review for the readers Each case begins on the left hand page with the discussion on the right written succinctly to provide quick diagnostic understanding While most critical care review books focus solely on an organ system format Mayo Clinic Critical Care Case Review captures the spirit of the CPC Conference in its text and illustrations

Core Cases in Critical Care Saxon Ridley, Gary Smith, Anna Batchelor, 2002-12 An essential read for all trainees in critical care

100 Cases in Emergency Medicine and Critical Care Eamon Shamil, Praful Ravi, Dipak Mistry (Consultant in emergency medicine), 2018 This new addition to the popular 100 cases series explores common clinical scenarios that will be encountered by the medical student and junior doctor during practical training in the emergency department in the community and in intensive and critical care settings and which are likely to feature in qualifying examinations The book covers a broad range of presentations organized by sub specialty area for ease of reference Comprehensive answers highlight key take home points from each case and provide practical advice on how to deal with the challenges that occur when practising emergency and critical care medicine at all levels

Challenging Concepts in Critical Care Christopher Gough, Justine Barnett, Tim Cook, Jerry Nolan, 2019-12-19 A case based guide with expert commentary Challenging Concepts in Critical Care shows how the experts approach and deal with real life clinical scenarios Each chapter presents a clinically challenging case complete with a case history evidence based tips and up to date learning points To give further insight into the field each chapter has commentary from an expert who identifies and explains the key points and controversies of the case Practical yet rich in

detail Challenging Concepts in Critical Care is a key title for anyone preparing for intensive care exams For each case key information is highlighted through the use of boxes to stimulate interest and facilitate learning Learning points Clinical tips Evidence base and Expert commentary With new information on key trials clinical practise and evidence based research this book is also an invaluable resource for experienced critical care clinicians looking for a concise update on a wide range of challenging topics in the field In addition it is of high value to senior ICU nurses allied health professionals and anyone with an interest in intensive care medicine Case Studies in Critical Care Nursing Barbara Clark Mims,1990 **Critical Care Nephrology** Claudio Ronco,Rinaldo Bellomo,John A. Kellum,2009-01-01 This 2nd edition of Critical care nephrology continues to provide comprehensive coverage of the latest advances in critical care procedures for the adult or pediatric patient with renal diseases or disorders It presents a common language and standardized guidelines to help multi disciplinary physicians caring for the critically ill communicate more effectively BOOK JACKET *Case Studies in Adult Intensive Care Medicine* Daniele Bryden,Andrew Temple,2017-04-20 Guiding FFICM and EDIC exam candidates through the intensive care medicine curriculum this book provides 48 case studies mapped to eight key areas of study in the UK and European syllabuses Cases include clinical vignettes explanations and a list of key learning points while also being formatted along the structure of FICM case reports Key clinical management points are identified and linked to appropriate scientific or evidence based research and case studies chosen reflect a general population relevant to a worldwide readership Conditions covered are significant to large areas of clinical practice as well as more discrete specialist knowledge making this an essential study guide for trainees preparing for exams in intensive care medicine and also a useful learning tool for candidates in related disciplines such as anaesthesia FRCA emergency medicine MCEM and surgery MRCS *Clinical Cases in Critical Care* Alice Myers,Theophilus Samuels,2022-11-21 Clinical Cases in Critical Care In Clinical Cases in Critical Care the authors explore core clinical topics and basic sciences in a practical and realistic way and include comprehensive discussions focusing on critically unwell patients with a variety of presentations and underlying disorders including COVID 19 hypotension stroke and drug overdose Each case begins with a clinical vignette which generates a series of questions the reader must address Cases are expanded to discuss differential diagnoses investigations and management issues Further questions direct the reader to explore relevant clinical and scientific knowledge similar to the structure of many professional oral examinations The final section of the book consists of exam style questions in a multiple choice and single best answer style Perfect for medical practitioners working in critical care settings Clinical Cases in Critical Care provides a thorough and accessible reference for trainee physicians with an interest in critical and emergency care as well as allied health professionals in the field This engaging textbook will be an essential companion for anyone getting to grips with the foundation of specialist knowledge required by professionals working in intensive care medicine **Anesthetic and Critical Care Amid the COVID-19 Pandemic** Ru-Ping Dai,Xiangdong Chen,Xiangming Fang,Jiapeng Huang,Eric

Azabou,2022-07-25 **Critical Care Cases** Rod F. Armstrong,J. B. Salmon,Jonathan S. Salmon,1997 Doctors working for the first time in an intensive care unit are faced with a variety of extremely ill and technically demanding patients Very often they are exposed to situations for which they have not been properly prepared Although most disciplines and professional examinations now demand some understanding of intensive care opportunities for learning intensive care medicine are limited with few courses available Critical Care Cases presents a cross section of common problems seen in intensive care presented by experienced teachers working in this field Each topic begins with a real life case history complete with examination findings biochemistry and blood gases The readers are then given the opportunity to consider how they would manage the situation before turning over to find a full discussion and recommendations from an expert in the field The book covers all the common intensive care problems including respiratory failure trauma infection and neurological disorders and will provide a stimulating and thought provoking text for anyone preparing to work in intensive care medicine *ACUTE & CRITICAL CARE NURSE PRACTITIONER: CASES IN DIAGNOSTIC REASONING* Suzanne M. Burns,Sarah A.

Delgado,2015-11-22 The ultimate case based guide for learning and teaching the art of diagnostic reasoning for acute and critical care nurse practitioners Written by experienced nurse practitioners working in acute and critical care settings and endorsed by the American Association of Critical Care Nurses AACN Acute Critical Care Nurse Practitioner Cases in Diagnostic Reasoning presents a wide range of acute and critical care patient cases focusing on diagnosis and management This authoritative book is designed to help nurse practitioners and students learn how to proceed from a broad differential diagnosis to a specific management plan through expert analysis of patient data While reconstructing the course of real life clinical cases the authors think out loud and reveal how they identify pertinent positives and significant negatives to support or refute items on their differential diagnoses list and further incorporate laboratory and diagnostic testing results to establish a medical diagnosis Each case includes a description of the management for the identified diagnosis INCLUDES 71 cases based on real life clinical scenarios Analysis questions and case discussions to enable learners to actively participate in inductive and deductive reasoning Cases that can be used to support course work certification review and job training The first of its kind Acute Critical Care Nurse Practitioner Cases in Diagnostic Reasoning is an essential learning and teaching resource for students clinicians and clinical faculty to master the art of diagnostic reasoning **Advanced Practice in**

Critical Care Sarah McGloin,Anne McLeod,2010-02-09 Advanced Practice in Critical Care provides experienced critical care nurses with a clear and distinct evidence base for contemporary critical care practice Central to the book is the application of research and evidence to practice and therefore case studies and key critical care clinical situations are used throughout to guide the reader through the patient care trajectory Each chapter introduces an initial patient scenario and as the chapter progresses the patient scenario develops with the theoretical perspectives and application In this way it is evident how multi organ dysfunction develops impacting upon and influencing other body systems demonstrating the multi organ impact that is

often experienced by the critically ill patient. In this way consequences of critical illness such as acute renal failure, haemostatic failure and liver dysfunction are explored. Throughout the text, key research findings and critical care treatment strategies are referred to, applied and evaluated in the context of the given patient case study. Advanced assessment techniques are explained and the underlying pathophysiology is discussed in depth. *Advanced Practice in Critical Care* is an essential resource for experienced practitioners within critical care who primarily care for patients requiring high dependency or intensive care.

Critical Care Cases Introduction

In today's digital age, the availability of Critical Care Cases books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Critical Care Cases books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Critical Care Cases books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Critical Care Cases versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Critical Care Cases books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Critical Care Cases books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Critical Care Cases books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library.

lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Critical Care Cases books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Critical Care Cases books and manuals for download and embark on your journey of knowledge?

FAQs About Critical Care Cases Books

1. Where can I buy Critical Care Cases books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Critical Care Cases book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Critical Care Cases books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing,

and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.

7. What are Critical Care Cases audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
