A Critical Interpretation

Critical Heidegger

Theodore Kisiel

Critical Heidegger:

Critical Heidegger Christopher E. Macann, 1996 Critical Heidegger presents a selection of the best works on Martin Heidegger from a number of key commentators These new and classic essays provide an essential guide to current European reception of his work

Heidegger Hubert L. Dreyfuss, 1992 Martin Heidegger is known for rethinking the western understanding of what it means to be a thing a person an institution etc Although this may seem to be an abstract specialized philosophical project it has turned out to have profound implications for many aspects of contemporary life The list of those whom Heidegger's work has decisively influenced reads like a roster of the major thinkers of the 20th century Jean Paul Sartre Maurice Merleau Ponty Jurgen Habermas Jacques Derrida Michel Foucault Richard Rorty Charles Taylor and Pierre Bourdieu This book includes pieces by the above authors who have written essays on Heidegger's philosophy as well as the best examples of the work of a new generation who have been attempting to put Heidegger's thought into an idiomatic English which captures the phenomena to which Heidegger sought to call our attention and to draw out the implications of Heidegger's work for the current philosophical scene These essays show how Heidegger opened up new approaches to central questions in the philosophy of language mind action and technology

Heidegger Peter Trawny, 2019-01-15 Martin Heidegger is one of the most influential figures of twentieth century philosophy but his reputation was tainted by his associations with Nazism The posthumous publication of the Black Notebooks which reveal the shocking extent of Heidegger's anti-Semitism has only cast further doubt on his work Now more than ever a new introduction to Heidegger is needed to reassess his work and legacy This book by the world leading Heidegger scholar Peter Trawny is the first introduction to take into account the new material made available by the explosive publication of the Black Notebooks Seeking neither to condemn nor excuse Heidegger's views Trawny directly confronts and elucidates the most problematic aspects of his thought At the same time he provides a comprehensive survey of Heidegger's development from his early writings on phenomenology and his magnum opus Being and Time to his later writings on poetry and technology Trawny captures the extraordinary significance and breadth of fifty years of philosophical production all against the backdrop of the tumultuous events of the twentieth century This concise introduction will be required reading for the many students and scholars in philosophy and critical theory who study Heidegger and it will be of great interest to general readers who want to know more about one of the major figures of contemporary philosophy

Interpreting Heidegger Daniel O. Dahlstrom, 2011-03-17 This volume of essays by internationally prominent scholars interprets the full range of Heidegger's thought and major critical interpretations of it It explores such central themes as hermeneutics facticity and Ereignis conscience in Being and Time freedom in the writings of his period of transition from fundamental ontology and his mature criticisms of metaphysics and ontotheology The volume also examines Heidegger's interpretations of other authors the philosophers Aristotle Kant and Nietzsche and the poets Rilke Trakl and George A final group of essays interprets the critical reception of Heidegger's

thought both in the analytic tradition Ryle Carnap Rorty and Dreyfus and in France Derrida and Levinas This rich and wide ranging collection will appeal to all who are interested in the themes the development and the context of Heidegger's philosophical thought Heidegger's Being and Time Richard Polt, 2005-09-15 Heidegger's Being and Time Critical Essays provides a variety of recent studies of Heidegger's most important work Twelve prominent scholars representing diverse nationalities generations and interpretive approaches deal with general methodological and ontological questions particular issues in Heidegger's text and the relation between Being and Time and Heidegger's later thought All of the essays presented in this volume were never before available in an English language anthology Two of the essays have never before been published in any language Dreyfus and Guignon three of the essays have never been published in English before Grondin Kisiel and Thom and two of the essays provide previews of works in progress by major scholars Dreyfus and Kisiel

Foucault and Heidegger Alan Milchman, Alan Rosenberg, 2003 An essential consideration of these two closely related and influential figures Michel Foucault and Martin Heidegger are two of the most important intellectual figures of the twentieth century and yet there are significant largely unexplored questions about the relationship between their projects Foucault and Heidegger stages a crucial critical encounter between these two thinkers in doing so it clarifies not only the complexities of the Heidegger Foucault relationship but also their relevance to questions about truth and nihilism acquiescence and resistance and technology and agency that are central to debates in contemporary thought These essays examine topics ranging from Heidegger's and Foucault's intellectual forebears to their respective understanding of the Enlightenment modernity and technology to their conceptions of power and the political *The Heidegger Controversy* Richard Wolin, 1993 Along with several selections from Heidegger's national socialist days this work includes later interviews as well as contributions by Lowith Junger Jaspers Marcuse Habermas and others about his political ideas **Heidegger's Philosophy of Being** Herman Philipse, 1998 This text interprets and evaluates the topic of Martin Heidegger's philosophy in the context of the full range of Heidegger's thought With this comprehensive approach Herman Philipse distinguishes the center from the periphery the essential from the incidental in Heidegger's philosophy Among other achievements this allows him to shed light on the controversial relationship between Heidegger's life and thought in particular the connections between his philosophy and his involvement with Nazism *Martin Heidegger* Christopher E. Macann, 1992 This collection of papers is the most comprehensive and international examination of Heidegger's work available It contains established classic articles some appearing in English for the first time and many original pieces provided especially for this collection The aim of this collection is to critically examine Heidegger's work It is therefore able to evaluate its limits and strengths as well as the prospects for the future development of his thinking The cross cultural and political aspects of this thought is examined including his relationship with the Nazi party **Heidegger** S.J. McGrath, 2008-08-20 Martin Heidegger 1889 1976 is one of the greatest conundrums in the modern philosophical world by turns inspiring and mind bogglingly frustrating

In this critical introduction S J McGrath offers not a comprehensive summary of Heidegger but a series of incisive takes on Heidegger's thought leading readers to a point from which they can begin or continue their own relationship with him

BOOK JACKET *Heidegger on Death* George Pattison, 2013 This book examines the question of death in the light of Heidegger's paradigmatic discussion in *Being and Time* Pattison reveals where and how Heidegger and theology part ways but also how Heidegger can helpfully challenge theology to rethink one of its own fundamental questions human beings' relation to their death and the meaning of death in their religious lives

Heidegger on Death Paul Edwards, 1979 *Heidegger's Being and Time* Richard Polt, 2005-09-15 Heidegger's *Being and Time* Critical Essays provides a variety of recent studies of Heidegger's most important work Twelve prominent scholars representing diverse nationalities generations and interpretive approaches deal with general methodological and ontological questions particular issues in Heidegger's text and the relation between *Being and Time* and Heidegger's later thought All of the essays presented in this volume were never before available in an English language anthology Two of the essays have never before been published in any language Dreyfus and Guignon three of the essays have never been published in English before Grondin Kisiel and Thom and two of the essays provide previews of works in progress by major scholars Dreyfus and Kisiel

Heidegger's Way of Thought Theodore Kisiel, 2002-06-01 One of the most eminent Heidegger scholars of our time Theodore Kisiel has found worldwide critical acclaim his particular strength being to set Heidegger's thinking in the context of his life time and the history of ideas This volume brings together Kisiel's most important critical and interpretative essays which can be regarded as a succession of signposts enabling the reader to follow Heidegger in his often difficult path of thinking At the same time it is a companion to the author's key work *The Genesis of Heidegger's Being and Time* 1993

A Study on the Idea of Progress in Nietzsche, Heidegger, and Critical Theory Giuseppe Tassone, 2002 This book challenges the current general mood of disillusionment of belief in progress By confronting the nihilistic Nietzsche and Heidegger and the utopian Adorno Horkheimer and Marcuse critiques of progress it pursues a revitalization of the humanist tradition

Futures of Critical Theory Michael A. Peters, Mark Olssen, Colin Lankshear, 2003 Reinvigorating critical theory by extending its range and its intellectual trajectories through strategies of inclusiveness that respect and build on parallel traditions the authors reinterpret Nietzsche Wittgenstein and Heidegger in relation to central figures and themes of critical theory

Critical Studies on Heidegger David Michael Kleinberg-Levin, 2023-02-01 In these boldly original studies Heidegger's thought is carried critically and constructively beyond its original limitations re-presenting his project in terms of an emerging body of understanding making sense of this project not only in its historical cultural significance but also in its bearing on the emergence of future possibilities Continuing Heidegger's commitment to a way of thinking that is formed from reflectively lived experience David Michael Kleinberg-Levin suggests what can be learned regarding the character of our typical and habitual ways of looking and seeing hearing and listening and touching holding handling and gesturing The body of ontological understanding

consequently emerges as we learn how to take responsibility for the meaning of being in forming and developing the character of our relationship to all the beings in our world In this original reading of Heidegger's thought Kleinberg Levin suggests what his project could mean for an ethical way of life **Critical Theology and the Challenge of Jürgen**

Habermas Marc Philippe Lalonde,1999 In answer to this breach Lalonde sets out to design a non theological approach to understanding the religious by expanding the form of critical theory and the content of religious philosophy *Confronting Heidegger* Gregory Fried,2019-10-22 The question of the relation of Martin Heidegger's thought to politics has been a subject of controversy since the 1930s when he became an advocate of the National Socialist regime in Germany This volume addresses this question in a unique format as a dialogue among leading Heidegger scholars That dialogue begins with an exchange between Gregory Fried and Emmanuel Faye about Faye's contention that Heidegger's work represents nothing short of the introduction of Nazism into philosophy At stake are issues such as what Heidegger himself understood Nazism to be whether a thinker's life and actions define the meaning of his work the enduring threat of fascism and the nature of rationality and philosophy itself Richard Polt Matthew Sharpe Dieter Thom William Altman and Sidonie Kellerer join the conversation with responses from Fried and Faye **The Meaning of Heidegger** Thomas Langan,1959
