Critical Hermeneutics John B. Thompson, John Brookshire Thompson, 1983 A comparative critique of ordinary language philosophy hermeneutics and critical theory *Critical Hermeneutics* John Brookshire Thompson, 1990 *Critical Hermeneutics* John B. Thompson, 1995 *Critical Hermeneutics* John B. Thompson, Paul Ricœur, Jürgen Habermas, 1981 This is a study in the philosophy of social science It takes the form of a comparative critique of three contemporary approaches ordinary language philosophy hermeneutics and critical theory represented here respectively by Ludwig Wittgenstein Paul Ricoeur and Jrgen Habermas Part I is devoted to an exposition of these authors views and of the traditions to which they belong Its unifying thread is their common concern with language a concern which nonetheless reveals important differences of approach For whereas ordinary language philosophers tend to treat linguistic activity as the ultimate object of inquiry both Ricoeur and Habermas regard it as a medium which betrays more fundamental dimensions of human experience and the social world Part II complements the exposition with a critical analysis of its central themes the conceptualisation of action the methodology of interpretation and the theory of reference and truth The author defends many aspects of the work of Ricoeur and Habermas such as the emphasis on power and ideology the strategy of depth interpretation and the link between consensus and truth but he argues that there are serious deficiencies and obscurities in their work He proposes solutions to these difficulties and concludes with a sketch of a critical and rationally justified theory for the interpretation of action a critical hermeneutics **Critical Hermeneutics: a Study of the Thought of Paul Ricoeur and Jorgen Habermas** J. B. Thompson, 1979 *Critical Hermeneutics: a Study of the Thought of Paul Ricoeur and Jorgen Habermas* John B. Thompson, 1981 Studies in the Theory of Ideology John B. Thompson, 1984-01-01 **Critical hermeneutics. A study in the thought of Paul Ricoeur and Juergen Habermas** John B. Thompson, 1981 **Ricoeur's Critical Theory** David M. Kaplan, 2012-02-01 In Ricoeur s Critical Theory David M Kaplan revisits the Habermas Gadamer debates to show how Paul Ricoeur s narrative hermeneutics and moral political philosophy provide a superior interpretive normative and critical framework Arguing that Ricoeur s unique version of critical theory surpasses the hermeneutic philosophy of Gadamer Kaplan adds a theory of argumentation necessary to criticize false consciousness and distorted communication He also argues that Ricoeur develops Habermas s critical theory adding an imaginative creative dimension and a concern for community values and ideas of the Good Life He then shows how Ricoeur s political philosophy steers a delicate path between liberalism communitarianism and socialism Ricoeur s version of critical theory not only identifies and criticizes social pathologies posits Kaplan but also projects utopian alternatives for personal and social transformation that would counter and heal the effects of unjust societies The author concludes by applying Ricoeur s critical theory to three related problems the politics of identity and recognition technology and globalization and democracy to show how his works add depth complexity and practical solutions to these problems **Introducing Theological Interpretation of Scripture** Daniel J. Treier, 2008-07-01

Theological interpretation of Scripture is a growing trend in biblical interpretation with an emphasis on the contexts of canon and church. This approach seeks to bridge the gap between biblical studies and theology which grew wide with the ascendancy of critical approaches to Scripture. *Introducing Theological Interpretation of Scripture* is the first clear systematic introduction to this movement for students. The book surveys the movement's history, themes, advocates, and positions and seeks to bring coherence to its various elements. Author Daniel Treier also explores what he sees as the greatest challenges the movement will have to address as it moves into the future. This helpful book is appropriate for pastors and lay readers interested in biblical interpretation.

New Philosophies of Social Science: Realism, Hermeneutics and Critical Theory William Outhwaite, 1987-12-08 The demise of empiricist philosophies of science has contributed to the current disarray of philosophy in the social sciences. This book argues that a realist analysis of the structures and processes which make up the social world can provide a way out of its present impasse. These processes ranging from the interpersonal negotiation of meaning to the constraining influence of administrative or market structures cannot be understood as mere constructs either in the minds of the theorist or of the social factors themselves since they actually generate the social world as we know it. The author develops some implications of this approach and presents a realist view of some of the principal theoretical traditions and controversies within sociology and other social sciences.

Culture and Domination John Brenkman, 2019-05-15 In *Culture and Domination* John Brenkman delineates the link between cultural interpretation and social theory through a forceful critical reassessment of hermeneutics, Marxism, and psychoanalysis. He challenges the claim of traditional hermeneutics that culture is a realm of meaning and value set apart from social relations of domination and power. The alternative hermeneutics he advocates builds on Marxism and psychoanalysis but also disputes some of their most basic premises and concepts.

Classics and Interpretations Ching-I Tu, 2017-11-30 In recent years in the West scholars have attempted to unravel old constructs of interpretation and understanding using the discipline of hermeneutics or the scientific study of textual interpretation. Borrowed from students of the ever growing body of biblical interpretive literature that originated in the early Christian era, theoretical hermeneutics has given many contemporary scholars potent tools of textual interpretation. *Classics and Interpretations* applies this method to Chinese culture. Several essays focus on hermeneutic traditions of Neo-Confucianism. Others move outside of these traditions to attempt an understanding of the role of hermeneutics in Taoist and Buddhist textual interpretation in Chinese poetics and painting and in contemporary Chinese

culture This volume makes a concerted effort to remedy our ignorance of the Chinese hermeneutical tradition Part 1 The Great Learning and Hermeneutics demonstrates the use of commentary to define how the individual creates his social self and discusses differing interpretations of the Ta hsueh text and its treatment as either canonical or heterodox Part 2 Canonicity and Orthodoxy considers the philosophical touchstones employed by Neo Confucian canonical exegetes and polemicists and discusses the Han canonization of the scriptural Five Classics while illuminating a double standard that existed in the hermeneutical regime of late imperial China Part 3 Hermeneutics as Politics discusses the transformation of both the classics and scholars and explores the dominant hermeneutic tradition in Chinese historiography the scriptural tradition and reinterpretation of the Ch un ch iu and reveals the pragmatism of Chinese hermeneutics through comparison of the Sung debates over the Mencius The concluding sections include essays on Chu Hsi and Interpretation of Chinese Classics Hermeneutic Traditions in Chinese Poetics and Non Confucian Contexts Reinterpretation of Confucian Texts in the Ming Ch ing Period and Contemporary Interpretations of Confucian Culture Through these literate and brilliantly written essays the reader witnesses not merely the great breadth and depth of Chinese hermeneutics but also its continuity and evolutionary vigor This volume will excite scholars of the Confucian Buddhist and Taoist systems of thought and belief as well as students of history and hermeneutics

Critical Theory and Liberation Theology Margaret M. Campbell,1999 Critical Theory and Liberation Theology discusses two major features of the crisis of western modernity the first of these arises from the assumption that any value based societal critique rests upon an arbitrary or purely emotive choice of first principles The second is that the Christian churches have not developed an understanding of the relationship between faith and modernity that enables them to be a consistent or liberating voice in public affairs In response to this crisis Margaret Campbell traces J rgen Habermas s search for a means by which questions regarding human authenticity and emancipation can be brought into the arena of rational political discourse Dr Campbell also presents an account of Gustavo Guti rrez s liberation theology and describes it as a new kind of critical discourse about Christian faith one that begins by examining the political praxis of Christians Dr Campbell concludes that together Habermas and Guti rrez have provided us with foundations for a theology of communicative and liberating praxis
