Critical Issues In Information Systems Research:

Critical Issues in Information Systems Research R. J. Boland, Jr.,R. A. Hirschheim, *Systems Development Methods for Databases, Enterprise Modeling, and Workflow Management* Wita Wojtkowski,W. Gregory Wojtkowski,Stanislaw Wrycza,Joze Zupancic,2012-12-06 This book is a result of the ISD 99 Eight International Conference on Infonnation Systems Development Methods and Tools Theory and Practice held August 11 13 1999 in Boise Idaho USA The purpose of this conference was to address the issues facing academia and industry when specifying developing managing and improving infonnation systems ISD 99 consisted not only of the technical program represented in these Proceedings but also of plenary sessions on product support and content management systems for the Internet environment workshop on a new paradigm for successful acquisition of infonnation systems and a panel discussion on current pedagogical issues in systems analysis and design The selection of papers for ISD 99 was carried out by the International Program Committee Papers presented during the conference and printed in this volume have been selected from submissions after fonnal double blind reviewing process and have been revised by their authors based on the recommendations of reviewers Papers were judged according to their originality relevance and presentation quality All papers were judged purely on their own merits independently of other submissions We would like to thank the authors of papers accepted for ISD 99 who all made gallant efforts to provide us with electronic copies of their manuscripts confonning to common guidelines We thank them for thoughtfully responding to reviewers comments and carefully preparing their final contributions We thank Daryl Jones provost of Boise State University and William Lathen dean College of Business and Economics for their support and encouragement **Exploring Information Systems Research Approaches** Robert Galliers,M. Lynne Markus,Susan Newell,2007 Exploring Information Systems Research Approaches is intended for supervisors and research students in the information systems and related fields This collection of thought provoking articles arranged in sections that reflect the broadening nature of the field provides examples of a range of research approaches This book focuses on different research approaches their strengths limitations and the conclusions which can be drawn from them and explores the impact of information and communication technologies on groups on organizations between organizations on markets and on society worldwide The articles selected have been chosen to represent an approach to research or an alternative design within an approach e g single case versus multiple cases survey within industry versus survey across industries Each section is preceded by an editorial introduction that places the chosen articles in context of other similar research and provides a summary of the articles in terms of the research method employed focus and perspective of the research technology being employed findings and overall contribution of the work Each introduction also highlights various issues and factors that the reader should consider when studying each of the articles in the section and includes ideas for further reading and discussion questions suitable for doctoral research seminars **Critical Issues in Information Processing Management and Technology** Q.E.D. Information Sciences,1989

Issues & Trends of Information Technology Management in Contemporary Organizations Information Resources Management Association.
