## **Critical Response To Ishmael Reed:**

**The Critical Response to Ishmael Reed** Bruce Allen Dick, Pavel Zemliansky, 1999-02-28 Ishmael Reed has emerged as one of the most innovative and controversial novelists in contemporary African American literature. By focusing on his nine published novels, this volume charts the critical response to his works over time. The book is organized by decade, with each section containing book reviews and articles. Beginning with material from the 1960s, it explores Reed's concern with artistic freedom and examines the evolution of his Neo HooDoo aesthetic, which combines satire and parody, comedy and fantasy, African and African American religion and myth, history, film, and other forms of popular culture. It celebrates and at times criticizes how Reed's fiction defies popular academic conceptions of what American writers, particularly black American writers, ought to be. The book also includes a substantial introduction, a transcript of a recent conversation in which Reed discusses his novels in progress, and an extensive bibliography. Since the publication of his first novel, *The Free Lance Pallbearers* in 1967, Ishmael Reed has emerged as one of the most innovative and controversial African American writers. Despite his belief that he and other black male artists have been misrepresented and virtually ignored in the press, he has received more critical attention than almost any other contemporary African American male author. The majority of this criticism has studied Reed's literary innovations and what he once called his Neo HooDoo aesthetic, which draws on satire and parody, comedy and fantasy, African and African American religion and myth, history, film, and various other elements of popular culture. Since the 1970s, many articles and reviews have looked at his commitment to multiculturalism, while others have examined his views on gender and how they help define his position in the literary world. This volume chronicles the critical response to Reed's works. Organized by decades, the book centers primarily on Reed's nine published novels. It contains book reviews and essays devoted to these novels, as well as a recent interview in which Reed discusses his works in progress, including *Making a Killing*, a novel about the O. J. Simpson trial. While Reed has attained success as a poet and social critic, his novels continue to attract most of the attention. These include a science fiction fantasy, a western, two mysteries, a neo-slave narrative, two political parodies, a trickster tale about contemporary race and gender issues, and a satire on modern academia. The reaction to his works varies from ridicule and condemnation to respect and high praise. A substantial introduction overviews the response to his works, and a chronology lists the major events in his life and career. The volume concludes with extensive bibliographical information.

*The Columbia Guide to Contemporary African American Fiction* Darryl Dickson-Carr, 2005-12-06 In both the literal and metaphorical senses, it seemed as if 1970s America was running out of gas. The decade not only witnessed long lines at gas

stations but a citizenry that had grown weary and disillusioned. High unemployment, runaway inflation and the energy crisis caused in part by U.S. dependence on Arab oil characterized an increasingly bleak economic situation. As Edward D. Berkowitz demonstrates, the end of the postwar economic boom, Watergate and defeat in Vietnam led to an unraveling of the national consensus. During the decade, ideas about the United States, how it should be governed and how its economy should be managed, changed dramatically. Berkowitz argues that the postwar faith in sweeping social programs and a global U.S. mission was replaced by a more skeptical attitude about government's ability to positively affect society. From Woody Allen to Watergate, from the decline of the steel industry to the rise of Bill Gates and from Saturday Night Fever to the Sunday morning fervor of evangelical preachers, Berkowitz captures the history, tone and spirit of the seventies. He explores the decade's major political events and movements, including the rise and fall of détente, congressional reform, changes in healthcare policies and the hostage crisis in Iran. The seventies also gave birth to several social movements and the rights revolution in which women, gays and lesbians and people with disabilities all successfully fought for greater legal and social recognition. At the same time, reaction to these social movements as well as the issue of abortion introduced a new facet into American political life. The rise of powerful politically conservative religious organizations and activists. Berkowitz also considers important shifts in American popular culture, recounting the creative renaissance in American film as well as the birth of the Hollywood blockbuster. He discusses how television programs such as *All in the Family* and *Charlie's Angels* offered Americans both a reflection of and an escape from the problems gripping the country.

Post-World War II Masculinities in British and American Literature and Culture Stefan Horlacher, Kevin Floyd, 2016-04-08

Analyzing literary texts plays films and photographs within a transatlantic framework this volume explores the inseparable and mutually influential relationship between different forms of national identity in Great Britain and the United States and the construction of masculinity in each country The contributors take up issues related to how certain kinds of nationally specific masculine identifications are produced how these change over time and how literature and other forms of cultural representation eventually question and deconstruct their own myths of masculinity Focusing on the period from the end of World War II to the 1980s the essays each take up a topic with particular cultural and historical resonance whether it is hypermasculinity in early cold war films the articulation of male anxieties in plays by Arthur Miller David Mamet and Sam Shepard the evolution of photographic depictions of masculinity from the 1960s to the 1980s or the representations of masculinity in the fiction of American and British writers such as Patricia Highsmith Richard Yates John Braine Martin Amis Evan S Connell James Dickey John Berger Philip Roth Frank Chin and Maxine Hong Kingston The editors and contributors make a case for the importance of understanding the larger context for the emergence of more pluralistic culturally differentiated and ultimately transnational masculinities arguing that it is possible to conceptualize and emphasize difference and commonality simultaneously
