Critical Studies Institutions In Cultures Theory And Practice Volume 5:

Transnational Perspectives on Culture, Policy, and Education Cameron McCarthy, Cathryn Teasley, 2008 This series publishes critical scholarship that seeks to engage and transcend the disciplinary isolationism and genre confinement that now characterize so much of contemporary research in communication studies and related fields It focuses on studies that address the broad intersections and hybrid trajectories that define the encounters between human groups in modern institutions and societies and the way these intersections are represented in contemporary popular cultural forms of knowledge

Resources in Education ,1997 **First-Generation College Students and Study Abroad** Simon Mary Asele Ahiokhai, Matt Daily, Layla Garrigues, 2025-09-26 This book showcases the experiences of first generation college students on study abroad programs Research shows that study abroad programs develop crucial life skills provide valuable experiences and enhance academic achievement However only a small percentage of first generation students access these opportunities By centering the voices and stories of first generation students this book advocates for equity in global education while reimagining study abroad as a more accessible and empowering experience This book asks how faculty administrators and staff can tap into the strengths of first generation students to increase the number of those who take advantage of their opportunities and explores the ways in which first generation students contribute to the success and vision of study abroad programs It will be of interest to scholars studying educational outreach higher education and comparative and international education

Cultural Studies and Anti-Consumerism Sam Binkley, Jo Littler, 2014-02-25 Anti consumerism has become a conspicuous part of contemporary activism and popular culture from culture jams and actions against Esso and Starbucks through the downshifting and voluntary simplicity movements the rise of ethical consumption and organic and the high profile of films and books like *Supersize Me* and *No Logo* A rising awareness of labor conditions in overseas plants the environmental impact of intensified consumer lifestyles and the effects of neo liberal privatization have all stimulated such popular cultural opposition However the subject of anti consumerism has received relatively little theoretical attention particularly from cultural studies which is surprising given the discipline's historical investments in extending radical politics and exploring the complexities of consumer desire This book considers how the expanding resources of contemporary cultural theory might be drawn upon to understand anti consumerist identifications and practices how railing against the social and cultural effects of consumerism has a complex past as well as present and it pays attention to the interplays between the different movements of anti consumerism and the particular modes of consumer culture in which they exist In addition as well as using cultural studies to analyse anti consumerism it also asks how such anti consumerist practices and discourse challenges some of the presumptions and positions currently held in cultural studies This book was previously published as a special issue of *Cultural Studies*
