Dahms, 2011-05-19 States that the critical theory of the Frankfurt School is as important today if not more so as it was at its inception during the 1930s This title looks at the distinguishing features of this tradition and how it is critical yet also complementary of other approaches in the social sciences especially in sociology

No Social Science without Critical Theory Harry F. Dahms, 2008-06-16 Highlights the problematic nature of mainstream perspectives and the growing need to reaffirm how the specific kind of critique the early Frankfurt School theorists advocated is not less but far more important today This book also includes chapters that offer a broad and diverse look at social science and critical theory

A Philosophical History of German Sociology Frédéric Vandenberghe, 2008-09-25 A Philosophical History of German Sociology presents a systematic reconstruction of critical theory from the founding fathers of sociology Marx Simmel Weber via Lukács to the Frankfurt School Horkheimer Adorno Habermas Through an in depth analysis of the theories of alienation rationalisation and reification it investigates the metatheoretical presuppositions of a critical theory of the present that not only highlights the reality of domination but is also able to highlight the possibilities of emancipation Although not written as a textbook its clear and cogent introduction to some of the main theories of sociology make this book a valuable resource for undergraduates and postgraduates alike The following in depth investigation of theories of alienation and reification offer essential material for any critique of the dehumanizing tendencies of today's global world Recently translated into English from the original French for the first time this text showcases Vandenberghe's mastery of the German French and English schools of sociology study The result is an important and challenging text that is essential reading for sociology students of all levels
