

The Critical Decision-Making Model

Critical Decision

**Robert Jamieson, Andrew Robert
Fausset, David Brown**

Critical Decision:

Critical Decision Making Michael Barakey, 2018-09-04 By nature competent decisions by emergency responders are challenging because incidents are fluid and dynamic In Critical Decision Making Chief Michael Barakey gives emergency first responders the tools to succeed on every incident where they make critical decisions and mitigate incidents daily under stress This book reviews cases to identify common incident elements that hinder quality decision making and it introduces point to point leadership a systematic approach to making critical decisions from the time responders are alerted to an incident to its resolution Understanding how to make critical decisions in this dynamic process is what makes great leaders WHAT OTHERS ARE SAYING For years fire rescue training programs have only addressed the concept of critical decision making in a limited way Chief Barakey tackles this mission critical process in a straight forward direct comprehensive and understandable way A tip of the helmet to Chief Barakey and Fire Engineering Books for delivering such a practical and impactful book Dennis L Rubin Fire Rescue author I have had the pleasure of working both professionally and personally with Chief Barakey for more than 25 years Mike helped me better understand the daily operations of managing a hazardous materials response team He has crafted a great resource for first responders interested in developing or improving their ability to make critical decisions during the most stressful situations This step by step process is required reading for anyone that has the task of making critical decisions either on the strategic tactical or task level Murrey Loflin Battalion Chief Retired Virginia Beach Fire Department and federal fatality investigator Chief Barakey shares how to blend education experience and opportunity and develop skills on the smaller incidents where most of us get a second chance to command and learn He has always been a proponent of sending the elevator back down to show others the best way to move up Now is the time for your second chance at incident command and emergency service leadership Read this book and use your second chance while you have it Stephen Miles retired Battalion Chief of Safety from the Virginia Beach Fire Department and federal fatality investigator Argumentation and Critical Decision Making Richard D. Rieke, Malcolm Osgood Sillars, 1997 The principles of practical reasoning integrated into real world applications is the basic premise behind Professors Richard D Rieke and Malcolm O Sillars fourth edition of Argumentation and Critical Decision Making The most current theories and research are combined with classic rhetoric to effectively explain the necessary functions of decision making in any given situation With an increased emphasis on critical thinking Rieke and Sillars help connect critical decisions with audience values and conventions Real life examples are used to illuminate the principles of argumentation ranging from interpersonal discussions to formalized conventions of science and law A new discussion of language and argumentation highlights language practices that have had the most impact on effective argumentation **A Commentary, Critical, Practical and Explanatory, on the Old and New Testaments** Robert Jamieson, 1882 **A Commentary, Critical and Explanatory, on the Old and New Testaments: New Testament** Robert Jamieson, Andrew Robert Fausset, David Brown, 1876
